Who are Beeswift?

Beeswift is a manufacturer and wholesaler of Personal Protective Equipment/Clothing and workwear safety products encompassing a wide range of safety products and high quality workwear. At Beeswift we pride ourselves on providing high quality PPE from footwear to head protection, products that protect our customers with superior durability and improved comfort. Our 144,000 sqft Birmingham based HQ and Distribution Centre (NDC) has significant stockholding, serving the UK, Ireland and International territories along with an in-house embroidery and badging facility.

To support our European and Global account base and Partners, Beeswift operates a European Distribution Centre (EDC), based in the Netherlands. Our EDC not only operates on the same platform with a stock profile mirroring that of our NDC, it also forms part of our disaster recovery and contingency plans.

Buy with *confidence*

As a responsible purchaser/manufacturer we audit our production facilities at home and abroad using our internal department who have completed International Register of Certificated Auditors (IRCA) approved courses in ISO9001, lead auditor and Sedex Members Ethical Trade Audit (SMETA). To help with our global compliance challenges and carbon footprint we also use external auditors who are IRCA accredited and have staffed offices all over the world. All Auditors are dedicated to ensure that consistent compliance processes are carried out to firstly meet legislation and secondly to meet the requirements of Beeswift's company values, quality and ethical standards.

After a partner production facility is audited in accordance with SMETA, we address any potential problems proactively and work with our partner production facilities to resolve these. This is done using Corrective Action Plans (CAP). We set dates to complete any CAP objectives, then these objectives are verified with either a follow up audit or a desktop verification, that can include images, video or training plans implemented where necessary.

Remember, Beeswift re-certificate all their manufactured products every 5 years to ensure the most stringent standards are upheld.

Beeswift is a full member of the Ethical Trading Initiative (ETI). We proactively work with suppliers, competitors and our peers to develop products made with ethical principles in mind. We strive to work with suppliers who share our ethical philosophy and adhere to the 9 pillars of the ETI Base Code.

We believe in transparency in the supply chain and are actively engaged with other organisations in similar markets to improve our combined supplier base and in doing so we are striving to improve the existing conditions with our suppliers. In doing this we can together collectively bring greater change and improvement across all stakeholders.

In addition to the ETI, we are also members of SEDEX. This means Beeswift has completed a comprehensive Self Assessment Questionnaire which is uploaded on the SEDEX Advance platform and available (permission given by Beeswift) for interested parties to view our ethical credentials. SEDEX is not a standard setting body but it is a platform for sharing ethical information and improving our supply chain.

Beeswift is also accredited to ISO 14001, 9001 and 45001 QMS registered. You can find UKCA and CE declarations of conformity and User Information Sheets (UIS)/Care Instructions for garments that require them at www.beeswift.com. This gives the user security and peace of mind that the Beeswift product they are using has the relevant DNA reference.

It is with great pleasure that we confirm that Beeswift continues to achieve Gold standard certification through the ecovadis platform.

The assessment that ecovadis uses covers a broad range of non-financial management systems including environmental, labour & human rights, ethics and sustainable procurement impacts.

Each company is rated on the material issues as they pertain to their company's size, location and industry. The ecovadis scorecard provides an independent assessment of your company's sustainability management system performance.

Beeswift received a gold rating which puts us in the Top 5% of all companies assessed by EcoVadis.

Currently running from Feb. 2024 - Feb. 2025

Primary Authority trading standards and Beeswift, have entered into an agreement that guarantees legal advice and assistance. Beeswift are a manufacturer and wholesaler of Personal Protective Clothing and Equipment and entered the partnership to demonstrate our commitment to embed legal compliance into our business.

The Primary Authority scheme enables businesses to form a legal partnership with one local authority, which then provides assured and tailored advice on complying with relevant legislation that other local regulators must respect.

Businesses receive 'primary authority advice' tailored to their business needs, which will make it easier for businesses to comply with the law and reduce compliance costs. It also helps grow the business knowing the resources they have invested in compliance are recognised across the country.

ETHICS & COMPLIANCE

Beeswift follow a strict policy which allows us to track, monitor and analyse our efforts to ensure we maximise our positive environmental impact. We have the ISO 14001 Environmental Management certification which means we have implemented and maintained an approved environmental system; it also means that we have demonstrated compliance with our own environmental policy and with current laws and regulations.

We pro-actively monitor our waste generation, packaging responsibilities and ensure they align with our annual objectives.

Beeswift stands by the nine Ethical Trading Initiative Base Code Pillars:

1. Employment is freely chosen
2. Freedom of association and the right to collective bargaining are respected
3. Working conditions are safe and hygienic
4. Child labour shall not be used
5. Living wages are paid
6. Working hours are not excessive
7. No discrimination is practised
8. Regular employment is provided
9. No harsh or inhumane treatment allowed

CORPORATE SOCIAL RESPONSIBILITY

The impact on people, society, and the environment is the responsibility of every well run business. Here at Beeswift we take that very seriously. Over the years we have invested heavily in time and resources to ensure that we live up to this.

Beeswift believe that a products ethical DNA can only be produced by working with companies within the supply chain who have ethical and environmental credentials. One of the ways that we try to ensure this is through the auditing and inspecting of our supply base; this is carried out either by our own internal or external IRCA accredited auditors.

Beeswift certifies our garments with recognised test houses to make sure the products you buy meet the required standards. This means that you can be safe in the knowledge you are providing your customers with high quality hazard-protection workwear.

Beeswift carry out audits to the latest SMETA process and we do this consistently on our Beeswift Brands at agreed time-scales. Using the audit, we generate a Corrective Action Plan and use this with the suppliers to develop systems, better working practices and close off any non-compliances.

We believe that social auditing helps us work with suppliers better, it empowers workers and produces products which are ethically sourced with less environmental impact.

SUSTAINABLE CLOTHING

ENVIROWEAR®

BRINGING CIRCULARITY TO THE WORKPLACE

SUSTAINABLE REVOLUTION

A clothing revolution is changing the way garments are made and how wearers want to interact with brands. Envirowear® has been designed to be recycled.

THE CHALLENGES

Of the 40 million workwear garments provided to wearers annually in the UK over 90% end up in landfill or get incinerated.

Garments are often blended with other fibres rendering them almost impossible to recycle. Trims, accessories and finishes introduce further barriers to recycling.

CIRCULAR CLOTHING

Beeswift's Envirowear® collection makes circular hi-visibility clothing achievable for the first time.

By transitioning to circular, recyclable clothing, you support:

- Clothing as a renewable resource
- Carbon footprint lowered by as much as 70%
- Zero high visibility clothing to landfill or incineration

DESIGNED TO BE RECYCLED

Envirowear® uses only mono-fibre design principles, each fabric, trim and accessory is carefully selected to ensure recyclability.

HOW IT WORKS

When garments reach the end of their useful lives, they are returned for recycling. The rPET generated from this unique recycling process can be made into yarn and used for all kinds of polyester clothing and accessories.

TRACKING AND TRACEABILITY

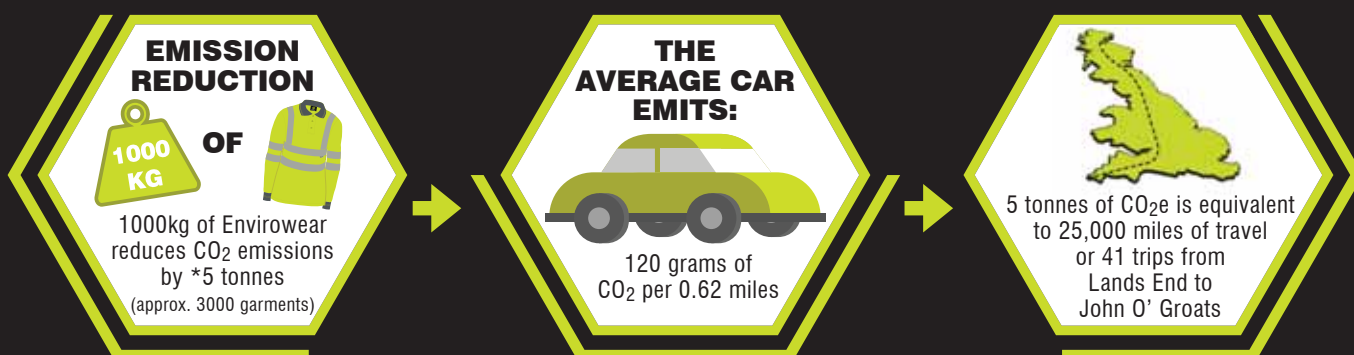

The QR code in the label can be scanned to identify the garment and inform the holder where to send it for recycling if a garment capturing program is not in place, Beeswift® would be happy to facilitate an introduction into a garment-capturing service provider if required.

BADGING & PERSONALISATION

Available with specific threads for embroidery or specialised heat transfers that are compatible with the recycling process. Contact your Beeswift® Account Manager for further details.

HOW MUCH ENVIROWEAR SAVES ON CARBON EMISSIONS (CO₂e)

*Based on average weight across the Envirowear range of manufactured and recycled garments

Envirowear uses recycled fabrics and trims from post consumer plastic bottles heading to landfill (on average 11, 1L bottles per garment) and reduces the garments manufacturing carbon footprint by an estimated 70% or approximately 4 tonne of CO₂e per tonne of textile.

Recycling Envirowear and diverting it away from incineration saves an additional 1 tonne of CO₂e per tonne of polyester textile waste (WRAP analysis). By recycling Envirowear and re-using the r-PET generated, you are ensuring that carbon emission reductions are maintained by supporting the circular economy.

The r-PET is used to manufacture 100% polyester yarn or injection moulded into garment trims

Designed to be fully recycled through the circular process

Garments recycled back into commercial grade r-PET pellets

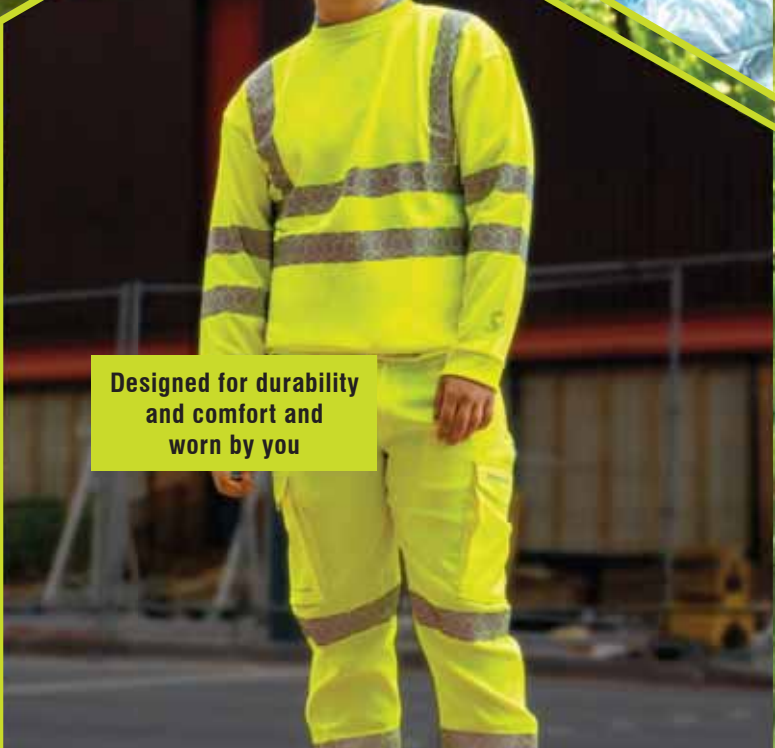

Manufactured from 100% post-consumer plastic bottles

project re:claim

Garments returned at end of wearable life through project re:claim

Designed for durability and comfort and worn by you

The Circular Textiles Foundation (CTF) is a not for profit organisation that was created to increase the awareness and understanding of sustainable and circular clothing.

The CTF are aligned and affiliated with Waste & Resources Action Programme (WRAP) and Textiles 2030, providing the carbon data that the CTF uses.

Beeswift® joined the CTF to ensure that their Envirowear® range of garments are designed to be recycled.

All products carry the Infinitree label designating that the garment is certified by the CTF as recyclable through an approved recycling facility.

Project Plan B have partnered with Salvation Army Trading Company Ltd (SATCoL) to facilitate the operational recycling of 100% polyester at their 25,000 Sq Ft recycling center in Kettering as Project Re:Claim, creating the UK's first commercial-scale, post-consumer polyester recycling plant.

The mechanical recycling process turns 100% Polyester textile waste and end of use garments into commercial grade rPET. Only garments that have been certified by the Circular Textiles Foundation as designed to be recycled using mono fibre principles, carrying the Infinitree recycling mark can enter the machine without intervention.

Project Re:Claim is also now actively collecting and processing high grade 100% polyester textile feedstock.

Envirowear can be recycled through Project Re:claim and SATCoL's unique site, transforming the garment into commercial-grade rPET pellets.

Developed in collaboration with industry leader Project Plan B, advances in tape technology have enabled the creation of a proprietary heat-applied tape design that can be recycled without removal. Certified as 'Designed to be Recycled' through Beeswift's membership in the Circular Textiles Foundation, this facilitates complete garment recycling.

TEXTILE GENERATED r-PET USE

All the textile generated rPET through the recycling process is commercial grade and following specific batch testing is directed back into the garment supply chain. Commercially, the primary objective is yarn manufacture but with variations in quality the rPET can also be used in injection moulding garment trims and other rPET based mouldings.

Recycled yarns and fibres generated from textile waste allows us to move from a linear to a circular economy.

EUROPEAN YARN PARTNERS

100% polyester products are being recycled.

INJECTION MOULDING

UK based supply chain partners producing buttons and trims such as clips and chord locks

GARMENT TRIMS

SUSTAINABILITY VERSUS END OF LIFE

Huge influx into the market of product where manufacturers are making claims of sustainability.

Manufacturing 100% polyester garments from post-consumer plastics saves on average 11 one litre plastic bottles from landfill, but none of these garments have an end of life solution.

The majority of these garments will end up being incinerated so they are in effect just 'burning bottles' at a later point in that products life cycle.

Envirowear is the only product on the market that has a genuine end of life solution as fully recyclable through Project Re:Claim.

BY NOT SUBJECTING END
OF LIFE TEXTILE WASTE TO

OF TEXTILE WASTE

EXTENDED PRODUCER RESPONSIBILITY (EPR)

The UK spends more on clothing than any country in the EU, and sends 336,000 tons of it to landfill or energy incineration each year – a number the UK government would like to see come down. It is consequently exploring the idea of adding textiles to the current list of materials covered by EPR legislation, which already includes packaging, waste electrical and electronic equipment (WEEE) and batteries.

The “producer pays” EPR model organisations are charged a fee to cover the cost of recycling. Often, this includes ‘eco - modulation’ – a reduction in fees for products that are easy to recycle or that contain recycled content. The end goal is to incentivise design for durability and make products last longer.

A textiles EPR system has already been put in place in France, and Sweden and the Netherlands are also planning to now introduce them. With EU regulations earmarked for 2025, it is unlikely that the UK will delay for long.

Textile Waste: Reduce, Reuse, Recycle

The proposed new EU rules on waste will support the separate collection of textile waste, which becomes mandatory in the EU in 2025. They will create:

- Mandatory and harmonised Extended Producer Responsibility for textiles across all Member States with eco-modulation of fees
- Rules to manage textile waste in line with the waste hierarchy: used clothes to be directed as a priority to re-use; more textile waste to be recycled
- Incentives for producers to increase the circularity of products by design, innovate and boost circular economy business models
- Local jobs and larger markets for used textiles and secondary raw materials
- Cost saving opportunities for citizens moving from fast fashion to timeless fashion

European
Commission

The Commission's 2030 Vision for Textiles

All textile products placed on the EU market are:

- durable, repairable and recyclable
- to a great extent made of recycled fibres
- free of hazardous substances
- produced respecting social rights

“Fast fashion is out of fashion” - consumers benefit longer from high quality textiles

Profitable re-use and repair services are widely available

In a competitive, resilient and innovative textile sector producers take responsibility for their products along the value chain

Circular rather than throw-away clothes have become the norm, with sufficient capacities for recycling and minimal incineration and landfilling

EMBROIDERY & BADGING

DTF HEAT SEAL BADGES

Only require a small run of badges, or need a job doing quickly?

Why not enquire about our in-house DTF printing services, utilising direct-to-film technology. We bring your logos to life with our full colour DTF printer, creating pre-production samples before you place your order.

We can then apply your badge to your choice of garment using one of our eight heat press machines.

EMBROIDERY SERVICE

We offer an in-house embroidery service. Our in-house digitiser can convert your company logo into a quality stitch pattern ready for embroidery.

The image you send needs to be of a high resolution, in either Jpeg, EPS or PDF format.

HEAT SEAL BADGES

On certain styles of garments, the option of having a heat seal badge is available.

Prices available on application.
MOQ is 25.

HI-VISIBILITY STANDARDS

High visibility garments issued to employees should conform to all relevant performance standards (EN ISO 20471, European Standard for High Visibility Clothing), and should be worn and maintained correctly for maximum protection.

In order to comply with all UK and European legislation, you need to ensure that the high visibility garments you buy comply with the following: High visibility clothing conforming to Class 1, 2, or 3, which must be worn at all times.

The colour of the background materials should normally be fluorescent yellow or fluorescent orange.

The retro-reflective material enhances your visibility in low light situations. This reflective material returns light to a light source – such as vehicle headlights – creating a bright image that motorists are more likely to see from a distance. As a result, motorists and pedestrians have more time to react.

RIS 3279-TOM

High-visibility clothing is an essential part of personal protective equipment. It makes people working within the railway boundary easily visible to drivers of approaching trains and helps staff in charge of work groups to account quickly for those working under their supervision.

RIS-3279-TOM applies to high-visibility clothing to be worn by persons when on the lineside or on or near the line on the Great Britain (GB) main-line railway. Transport operators may choose to exceed the minimum area requirements for their staff or contractors, but the colour and luminance requirements must be met for any high visibility clothing that exceeds the minimum area requirements.

This standard does not apply to staff on a station platform unless they are carrying out engineering or technical work within 1.25 m of the platform edge.

These requirements ensure that staff are sufficiently visible when on or near the line, allowing train drivers to give an early audible warning. They also assist staff such as look-outs and site wardens to determine if staff are moving to locations where they may not receive the necessary warning or if they are straying into places they should not be.

Hi-Vis garment types are grouped into three classes based on the conspicuity provided, with the classes dictating the minimum quantities of background and retro-reflective materials to be used.

CLASS 3

Highest Protection Level:
Band of retro-reflective material shall not be less than 50mm wide.

Minimum background material 0.80m².
Minimum retro-reflective material 0.20m².

CLASS 2

Intermediate Protection Level:
Band of retro-reflective material shall not be less than 50mm wide.

Minimum background material 0.50m².
Minimum retro-reflective material 0.13m².

CLASS 1

Lowest Protection Level:
Band of retro-reflective material shall not be less than 50mm wide.

Minimum background material 0.14m².
Minimum retro-reflective material 0.10m².
For limited risk/off road purposes only.

DELTIC[®]

OUTERWEAR

DELTIC[®] is our premium EN343 Class 4:4 breathable and water penetration resistant, high visibility trouser and jacket.

Available in saturn yellow/navy, orange/black and plain orange, the garments cover you both for EN ISO 20471 and RIS 3279-TOM (orange only).

The unique ripstop fabric is the base for garments high class ratings but also gives the products higher levels of durability over its competitors.

To receive Class 4 water penetration resistance the fabric and seams must pass a hydrostatic head test of 20,000PA. The DELTIC[®] range was independently tested and achieved 177,000PA, eight times greater than the minimum Class 4 requirement.

To compliment the range, there is an interactive gilet in the same colour styles to support the wearer on those colder days.

RET - is the measurement of the resistance to evaporative heat loss.

The lower the RET value, the less resistance to moisture transfer and therefore higher breathability.

RET 0-6	Very good or Extremely breathable
RET 6-13	Good or Very breathable
RET 13-20	Satisfactory or Breathable
RET 20-30	Unsatisfactory or Slightly breathable
RET 30+	Unsatisfactory or Not breathable

Orange / Black Jacket

BSDJTTORBL
S - 6XL

- 75% Ripstop Polyester with a 25% PU Laminate
- 210gsm fabric weight
- Bird eye mesh liner enables the Level 4 breathability with an RET of 9.55
- Water penetration tested to hydrostatic pressure of 177,000Pa
- Fully taped seams
- 60mm segmented tape for greater visibility
- Segmented tape to shoulders for additional visibility
- Hi-vis accents for added styling
- Detachable concealed 3 panel fully adjustable hood

- Full length heavy duty YKK zip with stud sealed storm flap
- Internal wicking strip to reduce water ingress

A good fit is essential for a professional look and for wearer comfort. Follow these guidelines when choosing your Beeswift garments.

A: Chest or Bust - Measure over the fullest part of the chest under the arms and straight across the back.

B: Waist - Measure around the natural waistline with the tape snug but not too tight.

C: Hips - Measure the fullest part of the body, generally 20cm below the waist.

D: Inside Leg - Measure from crotch to floor to determine your normal leg measurement.

Do's and Dont's before you order

- Do not measure over clothing
- Do not pull the tape too tight
- Take the measurement from the fullest part of your body
- Ask someone else to measure you for greater accuracy
- Use the same unit of measurement when placing your order
- Check whether the garment is sized in inches (") or centimetres (cm)
- Always order the garment to accommodate the largest measurement

The following details are a general guide to product sizing when garments are marked Small, Medium, Large and so on. Each type and style of garment, depending on which layer it is, will have an appropriate ease allowance built into it to enable it to be worn over/under other layers. This may vary from manufacturer to manufacturer but it is generally between 4 and 8 inches (10-20cm) and is referred to as 'over measure'.

*Please note that some countries adopt a different numbering system for their size ranges.

WHAT IS AN ARC FLASH?

An arc flash refers to the light and heat that occur during an arc fault, which is typically a type of electrical explosion that results from a connection through air to ground or another voltage point (phase) in an electrical system.

Where the fault occurs, current flows across instantaneously raising the temperature high enough to vaporize anything that gets in between the fault.

When hit by an arc flash you are hit by “waves”. However these happen so quickly it feels like just one singular incident.

First you are hit by the first wave which is concentrated with convection heat, UV light, IR light and visible light. The incident energy can be anything from 4-100cal/cm².

Secondly you will be confronted with the radiant heat which can move up to 1200km/h.

Finally, you will be struck by debris and vaporised copper. Copper expands 67000 times as it is vaporised creating a pressure wave.

During all of this the temperature can reach up to 20,000°C which means there is a significantly high risk of severe body burns.

PPE should always be a last line of defence when there is no other choice but to send someone into the risk environment.

BEESWIFT®
FOCUSED ON SAFETY

Personal Protective Equipment Regulation (EU) 2016/425

Quality Assurance Certificate

Module D

Manufacturer:

REDACTED INFORMATION
CONFIDENTIAL BEESWIFT SUPPLIER INFORMATION

Scope:

Heat and Flame Resistant, Welding, Anti-static, High Visibility, Waterproof and Arc Flash Protective Clothing

Certificate Number: 54133

Issued by: BTTG™ (Notified Body No. 0338 for Regulation (EU) 2016/425)

Details for this certificate can be obtained through request on our website

Authorised by

C A Butcher
Certification Manager

*Subject to continued compliance and audit.

The attached schedule of approval forms part of this certificate.

Note: The validity of this certificate can be confirmed by contacting the Issuing Office:
BTTG™, Unit 6 Wheel Forge Way, Trafford Park, Manchester, M17 1EH, United Kingdom

Tel: +44 (0)161 876 4211 email: ppe@bttg.co.uk website: www.bttg.co.uk

IEC/EN 61482 SERIES-1-1

This incorporates the “open arc” test method which is used in the US, and it measures the Arc Thermal Performance Value (ATPV) of the fabric in cal/cm².

The end user can select the correct clothing systems by ensuring the ATP value of the fabric is greater than the incident heat energy of the arc.

EN 61482 SERIES-1-2

The “box arc” test method is based on the European method described in ENV 50354, with a heat transfer measurement. Materials are classified as Class 1 (4kA) or Class 2 (7kA).

EN 61482 SERIES-2

Performance requirements for materials, and design requirements for garments.

BUYERS CHECKLIST

WHAT SHOULD YOU BE LOOKING FOR?

1. Where is my garment made? Has the production facility been fully audited to the highest standards?
Is the production facility certified to Article 11B?

Module C2/D of the PPE Regulation 2016/425:-

Requires the manufacturer to evidence using their quality system that consistent production of the certified CAT 3 product is maintained.

Module C2 is a yearly audit where the product is tested by the notified body denoted by the 4 numbers by the CE/UKCA mark. This allows for the notified body to ensure that the product itself still achieves the level of protection it is required to.

Module D is a yearly audit of the entire manufacturing process which is inspected to ensure that no changes have been made to the production of the product, which means that if everything is the same then the product itself should still achieve the same level of protection.

2. What tests have been carried out on the garments, and not just the fabric?
All Beeswift ARC garment styles have been tested individually to the following standards where appropriate:-

Ask for a copy of all current certificates to support the level of protection being offered.

3. Is the garment / item fit for purpose?

Over the past 15 months the Beeswift ARC developers have worked not only on the 3c's - COMPLIANCE, CONFORMITY, CERTIFICATION, but have also added a fourth which is COMFORT. User satisfaction in all areas of the 4c's is paramount to the correct and proper usage of the items provided. Every feature has been thought through from the pocket arrangements to the triple stitching in key stress areas. The fabric has been developed to allow soft flexible comfort without compromising the PROTECTION.

4. Is the item in STOCK?

Absolutely, in many cases up to size 58” chest and short, regular and long leg lengths in some styles.

5. What about waterproof garments?

Testing is virtually complete and the CLICK ARC Team expect salopettes and jackets in solid yellow and orange to all the above standards when applicable plus EN 343 to be available soon.

ARC WORKWEAR RATINGS LAYERING OPTIONS

When you begin to start using combinations of ARC protective garments on top of each other you can gain a new protection factor that can sometimes achieve a greater protective factor than the individual garments.

Working with reputable notified bodies, we have tested combinations of Arc garments to give you more knowledge of what combinations of Bee-swift ARC are more appropriate for your needs.

These combination scores are not as simple as adding each garment's scores together, There are many factors to take into account including factors like layers of insulating air between the garments.

All combination testing results are representative of the minimum protection achieved by the upper torso, unless the test is carried out solely on below the waist combinations.

The Safety Company

V-GARD® 950 CLASS 2 SAFETY HELMET

- Balanced, lightweight and low-profile electrician helmet
- Integrated visor protects against impact, chemical splash, UV radiation, molten metal splash and electrical arc to GS-ET-29 class 2 (4kA)
- Premium anti-fog and anti-scratch coating visor fits over all corrective or safety glasses
- Lift the visor with a simple one handed movement - easy even when wearing gloves
- Delivered with a 4-point chinstrap
- Optional micro-prism stickers available (silver or red)
- Optional ear flaps to protect the ears from arc flash
- Certified according to EN 397: MM, LD, -30°C, 440V AC, EN 50365: 1000V AC, EN 166: 2C-1,2 1 B 3 8-1-0 9 KN, Anti-static

PROTECTIVE CLOTHING FOR USE IN WELDING AND ALLIED PROCESSES

General requirements.
Does not cover clothing worn for special welding jobs.

EN1149-1

PROTECTIVE CLOTHING - ELECTROSTATIC PROPERTIES

Surface resistivity
(test methods and requirements).

EN ISO 14116

PROTECTION AGAINST HEAT AND FLAME:

Limited flame spread materials and material assemblies.

This standard refers only to the materials or material assemblies from which garments with limited flame spread properties are made.

Such information may appear in the manufacturer's literature.

Markings in the form: EN ISO 14116
Flame spread index/Durability.

Flame Spread Index - 1, 2 or 3 -
Limited flame spread index
(3 is best). If index 1 materials are present:

Use only over EN ISO 14116 Index 2 or 3 material and DO NOT use next to the skin.

EN ISO 11612

PROTECTIVE CLOTHING FOR INDUSTRIAL WORKERS EXPOSED TO HEAT: EXCLUDING FIREFIGHTERS AND WELDERS CLOTHING

A - Limited flame spread, and at least one of:
B# - Convective heat resistance (# = 1 to 5)
C# - Radiant heat resistance (# = 1 to 4)
D# - Molten aluminium splash (# = 1 to 3)
E# - Molten iron splash (# = 1 to 3)
F# - Contact Heat (# = 1 to 3)

In all cases, higher number denotes better performance.

If no number is given, no protection is claimed.

EN 343

PROTECTION AGAINST RAIN

Protective clothing is certified to the EN343 standard to withstand precipitation, fog and ground humidity and is tested accordingly. It also accounts for the breathability of the garment in such conditions.

Please note EN 343 certified garments will protect the wearer against these conditions provided that:

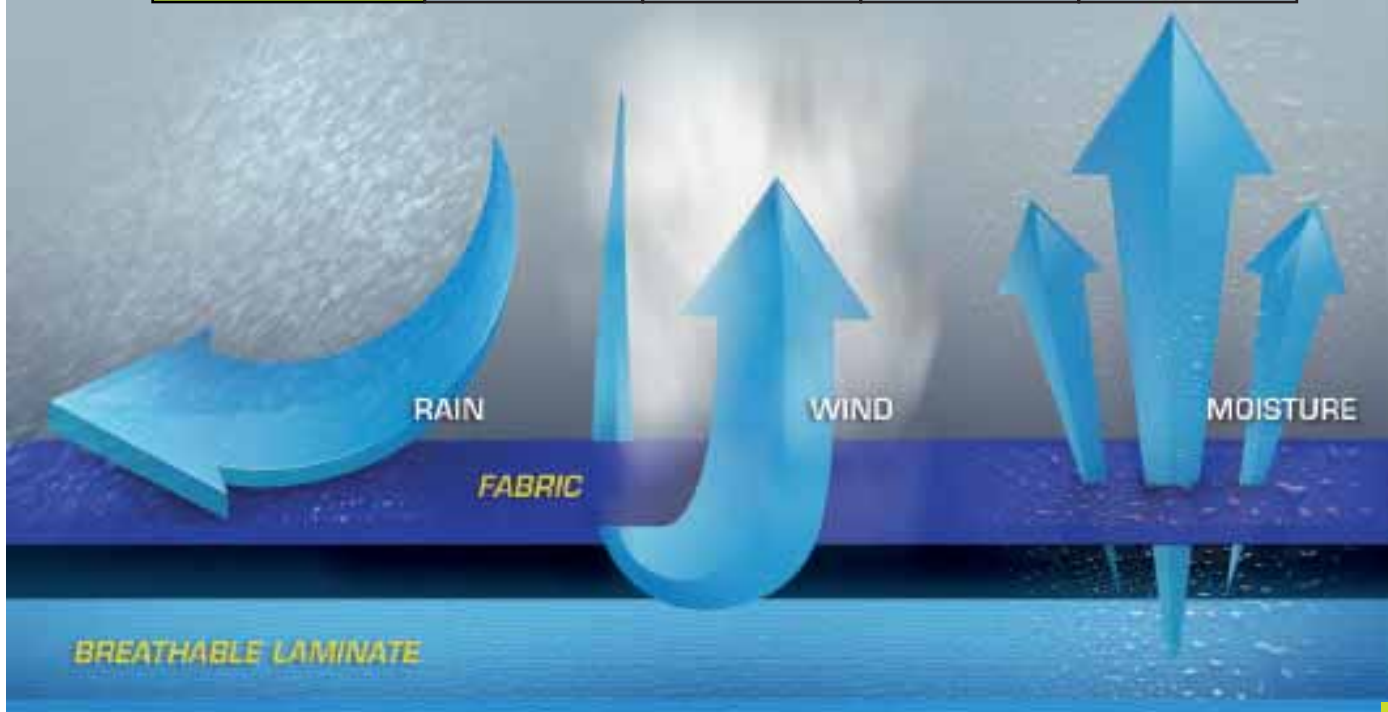

- The garment is fully closed before use to ensure maximum protection.
- The fabric is clean. (If it is dirty its performance may be impaired)
- The protective clothing is stored in a dry and well-ventilated space.
- The garment is cared for according to the washing instructions to ensure maximum protective performance.

Resistance to Water Penetration is split into 4 levels:

Water penetration resistance WP	Class			
	1	2	3	4
Specimen to be tested				
- material before pre-treatment;	WP ≥ 8000 Pa	-	-	-
- material after each pre-treatment;	-	WP ≥ 8000 Pa	WP ≥ 13000 Pa	WP ≥ 20000 Pa
- seams before pre-treatment	WP ≥ 8000 Pa	WP ≥ 8000 Pa	WP ≥ 13000 Pa	-
- seams after pre-treatment by cleaning	-	-	-	WP ≥ 20000 Pa
Note - 1000 Pa approximately 102 (mmH O)				

Breathability is also split into 4 levels:

Water penetration resistance WP	Class			
	1	2	3	4
$\frac{m^2 \cdot Pa}{W}$	40 < Ret	25 < R ≤ 40	15 < R ≤ 25	15 ≥ Ret

SUPER B-DRI COVERALL

- Polyester with PU coating

It is important that you choose the correct industrial footwear for your specific working environment. We would therefore recommend that in the first instance a risk assessment is carried out to ensure that the correct protection level and style of footwear is selected.

Risk Assessment

Assess the risks within the working environment to either remove or protect against the hazards. This must involve defining the job or work area, recognising the risks, and identifying the correct method of reducing them i.e. by removing, controlling, or by choosing suitable safety footwear. Safety features include:

- Impact resistant toe caps
- Pierce resistant midsoles
- Anti-static soles
- Sole resistant to heat
- Resistance to cold
- Water resistance
- Resistance to fuel / oils
- Resistance to chemicals
- Slip resistant sole properties

Materials and Construction

There are various methods of attaching the sole of the footwear to the upper material; this has some considerable influence on product selection depending on the environment in which the footwear will be used.

Direct Injection Moulding

A strong construction method used with either one density of polyurethane (known as single density) or two densities, either polyurethane or an inner density of polyurethane and an outer density of nitrile rubber (known as dual density).

Both types provide reduced weight with improved comfort and flexibility, without any compromise in performance.

Cemented

This is exactly what it suggests; the sole unit is preformed and cemented (glued) onto the upper material creating a strong bond.

Goodyear Welted

A traditional form of construction where the sole is stitched to the upper material. This is a very strong method, which would generally be slightly heavier in use than the above. Suitable for most dry environments.

Wellington Boot

The vast majority of wellingtons in use are direct injection moulded from either raw PVC with varying quantities of nitrile rubber or Polyurethane. Both types provide excellent flexibility and resistance to chemicals.

MARKING CODES ON CE CERTIFIED FOOTWEAR

Additional protection may be provided and is identified on the product by its marking as below:

Footwear that feature slip resistance, are tested according to a set of European standards written into EN ISO 20345: 2011. Footwear which has passed this test will be marked with one of the codes below.

A ANTI-STATIC	AN ANKLE PROTECTION	C CONDUCTIVE	CI INSULATION AGAINST COLD	CR CUT RESISTANT UPPER	E ENERGY ABSORPTION OF THE SEAL REGION
FO FUEL OIL RESISTANT OUTSOLE	HI INSULATION AGAINST HEAT	HRO HEAT RESISTANT OUTSOLE COMPOUND SHALL WITHSTAND 300°C FOR 60S	I INSULATING	M METATARSAL PROTECTION: 100 JOULE IMPACT ENERGY	P PENETRATION RESISTANT OUTSOLE

Material Recommendation

Nitrile rubber sole - For higher temperatures, oil and solvent resistant.

PVC, PVC nitrile, rubber and polyurethane uppers - Where there is long term exposure to water and certain chemical applications.

Polyurethane soles - For general purpose use, oil and solvent resistant.

Water repellent leather uppers - Where there is an occasional exposure to water.

Selecting the correct materials is critical, especially when contaminants are present. By choosing the correct material the maximum lifespan of footwear can be achieved.

HEAD PROTECTION

Identifying Hazards

A safety helmet is required where there is a risk of being injured by falling objects. Bump caps are not a substitute for safety helmets and must not be used to protect the head from falling objects.

Identifying Materials

Shells are primarily made using UV stabilised high density polyethylene (HDPE) or ABS (Acrylonitrile Butadiene Styrene). Harnesses are made using low density polyethylene or terylene webbing.

Shelf Life

All helmets are marked with the quarter or month and year of manufacture. Helmets stored in boxes in which they were supplied and do not experience environmental extremes, the shelf life of a helmet is not limited. However, it is not recommended that a helmet should be in use 5 years after date of manufacture.

Accessories

Some helmets have sweatbands and chinstrap already fitted. Either can be purchased separately. Safety helmets can be fitted with hearing protection through clip on ear defenders.

Care and Maintenance

Helmets may be cleaned with soap and water, drying with a soft cloth. Do not use abrasive substances or solvents and do not store in direct sunlight or in contact with chemicals. Inspect a helmet regularly. Replace if the shell shows more than superficial abrasions/scuffing.

EN 397 specifies physical and performance requirements of industrial safety helmets. Certain tests are mandatory if the product is to receive EN 397 approval.

These cover: • Shock Absorption • Resistance to penetration • Flame resistance • Chinstrap anchorage

A manufacturer can choose to submit his products to additional optional tests. Such tests could lead to one or more of these markings appearing on a helmet.

-20°/-30°C

The helmet will provide some protection when worn in an environment at or above this temperature.

440V a.c.

Protects against short term, accidental contact with live electrical conductors up to this voltage.

LD

The helmet will provide some protection from lateral compressive loads.

MM

Molten Metal splash test.

SAFETY EYEWEAR INFORMATION

CHOOSING SAFETY EYEWEAR

To help choose safety eyewear best suited to your needs, the following information may be useful. Whilst every effort should be made to remove hazards as the result of a Workplace Risk Assessment, if Safety Eyewear is necessary as a last resort, the following selection criteria should be considered:

Type of protection

Both employee and employer have a responsibility to keep all eye protection in good order. User instructions are provided and give cleaning and maintenance information. We provide a full range of products to help keep eyewear in optimum condition.

1. Goggles -

Can provide protection for many types of hazards. May be worn over spectacles.

2. Spectacles -

Comfortable and available in a variety of styles. Will not keep out dust, gas or molten metal.

Type of lens

1. Clear -

Suitable for general use.

2. Anti-Glare -

Suitable for use in high glare situations such as finished concrete slabs in bright sun light.

3. Yellow -

Suitable for those moving from light to dark environments.

Type of hazard

Hazards fall into 4 main categories:

1. Mechanical -

Flying Debris, Dust or Molten Metal.

2. Chemical -

Fumes, Gases or Liquid Splash.

3. Radiation -

Heat (Infrared), Ultraviolet light or Glare.

4. Laser Light -

Over a wide spectrum of wavelengths from Ultraviolet to Infrared.

EN169 - Welding Filters • EN170 - Ultraviolet Filters • EN171 - Infrared Filters • EN172 - Solar Protection Filters for Industrial Use
EN175 - Welding Work Equipment • EN207 - Laser Protection Eyewear • EN208 - Laser Adjustment Eyewear

IDENTIFYING EYEWEAR MARKINGS

To assist you in your understanding of markings on eye protection products covered by this standard, this chart should be of help. You should note:

OPTICAL STANDARD:	FRAME	LENS	MECHANICAL PROPERTIES:	FRAME	LENS
Class 1: For continuous work	-	1	High energy impact (190m/sec)	A	A
Class 2: For intermittent work	-	2	Medium impact energy (120m/sec) Grade 1	B	B
Class 3: For occasional work, but must not be worn continuously	-	3	Low energy impact (45m/sec) Grade 2	F	F
			Increased robustness - General purpose impact - Performance at extreme temperature	-	S
			Tested to extreme temperatures	T	T
AREAS OF USE:	FRAME	LENS	OPTIONAL:	FRAME	LENS
Liquids (chemical)	3	3	Resistance to misting/fogging	-	N
Large dust particles	4	4	Resistance to mechanical damage (Anti-Scratch)	-	K
Gas and fine dust particles	5	5	*NB: The "A", "B", "F" and "S" markings on frame and lens represent tests carried out on each component and therefore may be different - in which case the lower level must be assigned to the complete unit when making an assessment.		
Short circuit electrical arc	8	8			
Molten metals and hot solids	9	9

HEARING PROTECTION

Levels of Protection Physical Agents (Noise) Directive - 2003/10/ECA

This Directive is now in place and became law in early 2006. It requires that persons working in noise levels between 80dBA (Lower Action Level) & 85dBA must be provided with suitable hearing protection on request. Where noise levels are at or above 85dBA (Upper Action Level, suitable hearing protection **MUST BE SUPPLIED AND WORN**. In addition, the new "Exposure Limit Value" requires that no worker may be exposed to more than "87dBA 8 Hour Equivalent" under any circumstances, taking into account any hearing protection worn, (the 87dBA level is that **INSIDE** the Hearing Protector). There are also new "Action Values" for IMPACT NOISE and the requirement for Risk Assessments in the workplace is reinforced by Article 4 of the new Directive.

Noise Meters

As part of risk assessment, noise meter readings should be taken by a competent person to monitor sound level.

Electronic Hearing Protection

The latest in sound technology - hearing protectors which amplify weak sounds while attenuating loud noises.

Ear Muffs

A traditional method of ear protection. Today's range of muffs cope with a very wide spectrum of industrial hazards. It is important to study the attenuation characteristics of each model as they do vary in performance across the range of sound frequency.

Helmet Mounted Ear Muffs

Popular with safety officers, head and ear protection in one. Today's models are styled to be sensibly 'parked' when not in use.

SNR (Standard Noise Reduction)

SNR (Standard Noise Reduction) is only a general means of comparing different ear muffs. Generally the higher the SNR number, the better the performance of the ear muff across a range of noise frequencies. Example: a SNR of 30 may not give a 30 decibel attenuation at all frequencies. The figures associated with H, M and L indicate the level of protection within the range of High, Medium or Low frequency noise. Examples: For the wearer of an ear muff where H=35 a high frequency noise of 100 decibels will drop to 65 decibels. Wearing the same ear muff, where M=25, a medium frequency noise of 100 decibels will drop to 75 decibels.

HEARING PROTECTION TYPES

Communication head sets

For people covering large areas within a noisy environment, ear muffs that incorporate communication systems.

Plugs

Can be worn conveniently with all other PPE items. Easy to use, with attenuation provided often exceeding that of ear muffs, whilst disposable they provide excellent protection with long term comfort.

Flex and Corded Plugs

These versions are favoured for carrying around the neck when not in use. Most plugs are also available in a corded version.

European Standards

Ear muffs and plugs are tested to the relevant European Standards and are CE marked

RESPIRATORY PROTECTION

Assigned Protection Factors: The higher the factor, the greater the protection

Selecting a Respirator

Workplace conditions such as temperature, humidity and work rate affect wearer comfort and the relevance of the different respirator features that are available. A respirator must allow you the freedom to communicate easily with colleagues and fit well with the rest of your safety equipment.

Achieving a good fit is essential to the level of protection. A leaking respirator could be perceived as comfortable, but is not much better than using no respirator at all.

Always select a respirator that meets the European Standard, is CE Marked and offers you the right level of comfort and protection and ensure that you fit it correctly.

Nuisance Dust Masks

Many types of masks and respirators seem similar but there are significant differences in the use of materials, design technology and protection levels. Make sure you always use an approved respirator to protect your health.

Nuisance Dust Masks vs. Disposable Respirators

Nuisance Dust Masks and Gauze Pads do NOT meet the European Standard (EN149:2001) for respirators and are not CE marked so they don't have any of this information printed on the mask. They do not provide protection against fine lung damaging dusts and cannot be used as personal protective equipment.

Disposable Respirators are typically white face masks with two straps and often an exhalation valve for improved comfort. They are also printed with 'EN149:2001', the 'CE' mark and they are designed to provide effective protection against fine respirable dusts, mists and metal fumes.

Fit Testing

Checking that a respirator with a tight fitting facepiece provides an adequate seal to the wearer's face has long been considered best practice as part of a general Respiratory Protective Equipment (RPE) programme. Fit testing has been a mandatory requirement under the UK Asbestos Regulations and now, with the introduction of the Control of Substances Hazardous to Health Regulations 2002 (COSHH) and the supporting Approved Codes of Practice, fit testing is an industry wide requirement. Respirators with tight fitting facepieces include disposable respirators, half masks and full face masks.

Fit testing should be carried out:	• On all wearers of RPE with fitting facepieces where fit testing has previously not been performed • During initial selection RPE
Fit testing should be repeated at appropriate times such as:	• If the RPE wearer significantly loses or gains weight, has major dental work or sustains a major facial injury • If a different size or model of RPE is specified • If specified by the company policy eg. repeated with annual health surveillance check Fit testing is an addition to the requirement to perform a pre-use fit check

Two main methods of fit testing are available:

Quantitative fit testing

Quantitative fit tests give an objective measure of the quality of the seal between the wearer's face and the facepiece. A fit factor number is produced. These tests will usually be carried out by a consultant.

For more information or advice contact your safety advisor.

Qualitative fit testing

Qualitative fit tests provide a pass or fail result based upon the wearer detecting a test agent. They provide a subjective measure of the quality of the seal of the facepiece to the wearer's face. These tests may be carried out by a suitably trained company Safety Advisor.

- Polypropylene (PP) outer layer provides smooth lining and avoids loose fibres
- Embossed fringe seal avoids fluffy open layers around the edges
- Latex free synthetic rubber head strap
- Contour design ensures the compatibility of glasses / goggles and reduces fogging
- Soft close-cell nose foam and adjustable nosepiece ensures custom shape and increases the worker comfort and acceptance

P.P.E. ACCESSORIES

CE APPROVED ANTI-SLIP KNEE PAD

- Heavy duty nylon construction to resist abrasion and tear
- Adjustable clip buckle with hook and loop closure
- Hard shell cap to aid swivelling
- Gel foam centre to cap for even weight distribution when worn for long periods
- An all round superior knee pad
- Fully CE approved

CE UK EN 14404: 2004 Type Level 1

BBKP05

P.P.E. ACCESSORIES

RIVETED CAP KNEE PAD

- Protects knees against injuries often sustained in rigorous working conditions when kneeling for long periods
- Lightweight pads with hard riveted caps produced from abrasion resistant plastic
- Soft foam padding and adjustable straps ensure hours of comfortable productive work

BBKP02

POLY RIDGED KNEE PAD

- Deluxe model offers excellent knee protection
- Made using non-marking material
- Rubber-like surface and grip ridges help prevent against sliding and slipping
- Hook and loop adjustable straps

BBKP03

STANDARD KNEE PAD

- Our most economical knee pads
- Protects knees against the rigours inherent in kneeling on hard or rough surfaces
- Impact resistant
- Adjustable knee straps

BBKP01

FOLDING KNEE PAD

- Universal sizing
- Ergonomic design
- Easily moulds around knee and can be trimmed to size
- For use with all knee pad type work trousers (sold separately)

1.8 METRE LANYARD & SCAFF HOOK

CE UK

EN 355

HSFA3030418

- Shock absorbing webbing lanyard
- 1.8m (Model: FA 30 304 18)
- 30mm wide webbing lanyard
- 35mm webbing shock absorber
- Karabiner at one end and scaffold hook at the other end
- Loops protected by abrasion resistant tubular webbing
- Conforms to EN 355: 2002 and tested as per VG 11 of P.P.E Directive 89/686/EEC

1.5 METRE LANYARD & SCAFF HOOK

CE UK

EN 355

HSFA30303

- Energy absorbing lanyard with scaff hook
- Length - 1.5 metres
- 44mm wide polyester webbing which reduces the impact of fall to less than 6kN
- Loops protected by an abrasion resistant tubular webbing
- Conforms to EN355: 2002 and tested per VG11 of P.P.E Directive 89/686/EEC

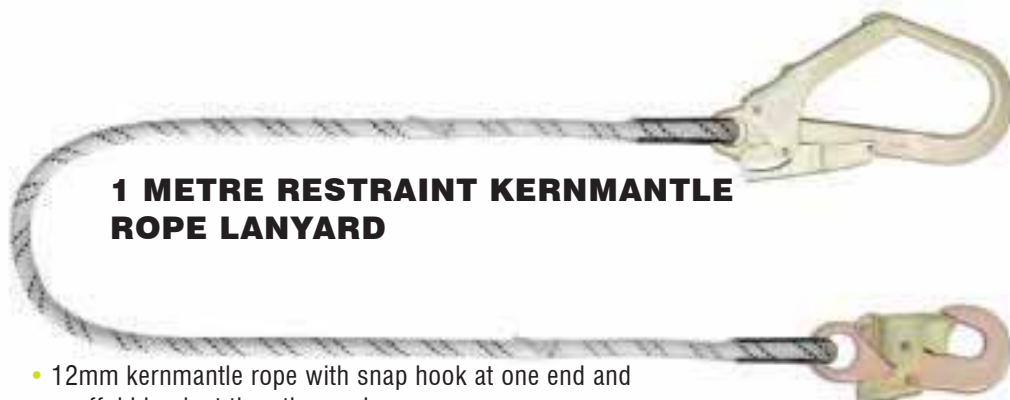

STEEL KARABINER

- Steel screw-locking karabiner
- Material/Composition: alloy steel
- Gate opening: 17mm
- Minimum breaking strength: 25kN

CE UK

EN 362: 2004 Class B

HSFA50101

1 METRE RESTRAINT KERNMANTLE ROPE LANYARD

- 12mm kernmantle rope with snap hook at one end and scaffold hook at the other end
- Loops protected by abrasion resistant thimbles
- Stitching protected by strong transparent sleeve
- Minimum breaking strength 22kN as per EN 354: 2002

CE UK

EN 354

HSFA40503

2.5 METRE FALL ARREST BLOCK

- Fall arrester
- Retractable fall arrest with 50mm webbing
- Maximum length: 2.5 metres
- Incorporating a protective casing and Energy Absorber (45mm)
- Minimum breaking strength >15kN

CE UK

EN 360

HSFA20301

FALL ARRESTER ON KERNMANTLE ROPE 10 METRE

- Fall Arrester on kernmantle rope 10 metre with energy absorber
- Material: Rope grab Stainless Steel; Anchorage line: Polyester kernmantle rope
- Length of the rope: 10 metres
- Breaking strength: > 15 kN
- Connector: 1 steel screw-locking karabiner FA 50 101 17

CE UK

EN 352-2: 2002

HSFA2010210

1.5 METRE LANYARD Y-SHOCK ABSORB

HSFA3080015

- 44mm wide elastic webbing
- 35mm wide shock absorber
- Karabiner at one end and scaffold hook at the other
- Loops protected by an abrasion resistant tubular webbing
- Energy absorber in 35mm wide webbing which reduces the impact of the fall less than 6kN
- 44mm wide polyester expandable elasticated webbing lanyard
- Expanded length: 1.5m
- Relaxed length: 1m

1 METRE RESTRAINT LANYARD

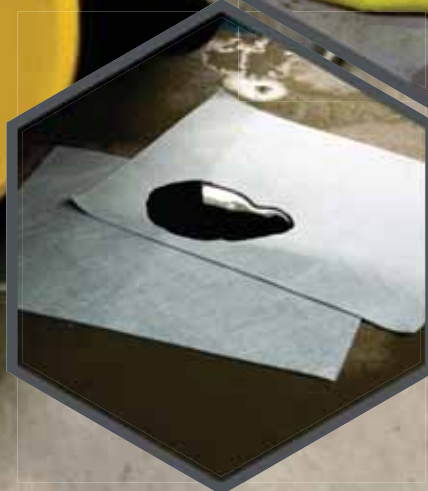

- 1 Metre restraint webbing lanyard
- Made from 30mm wide polyester webbing
- Loops protected by an abrasion resistant tubular webbing
- Break strength is 22kN

GENERAL PURPOSE SPILL KIT 125 LITRE

- For quick response to non-hazardous liquids
- Contents include absorbent socks and absorbent pads
- Disposal bags and zip-ties, caution tape

Contents:

- 6 x Absorbent socks 8cm x 3m
- 50 x Absorbent pads 40cm x 50cm
- 1 x Roll of caution tape
- 3 x Disposal bag & tie
- 1 x Instruction and contents sheet

BESGPSK125

OIL ONLY SPILL KIT 125 LITRE

- Suitable for oils, fuels, petroleum, petrol based solvents
- Contents include absorbent socks and absorbent pads
- Disposal bags and zip-ties, caution tape

Contents:

- 6 x Absorbent socks 8cm x 3m
- 50 x Absorbent pads 40cm x 50cm
- 1 x Roll of caution tape
- 3 x Disposal bag & tie
- 1 x Instruction and contents sheet

BESOSK125

CHEMICAL SPILL KIT

- Absorbs acids, caustics and strong chemicals.
- Fast acting sorbent pads and socks.
- Fine-fibre finish for minimal linting.
- Bonded and perforated for strength and economy.
- Handy, resealable, clip-top bag.

20 Litre:

- 12 x double weight chemical absorbent pads
- 2 x 120cm chemical socks
- 1 x disposal bag and tie

BESCSK20

OIL ONLY SPILL KIT

- Suitable for oils, fuels, petroleum, petrol based solvents
- Fast acting absorbent pads and socks
- Conforms to BS7959

20 Litre:

- 12 x Premier oil & fuel absorbent pads
- 2 x socks x 1.2m
- 1 x hazardous waste bag and tie

40 Litre:

- 20 x Premier oil & fuel absorbent pads
- 4 x socks x 1.2m
- 1 x hazardous waste bag and tie

- Vinyl Bag
- 25 x Premier oil & fuel absorbent pads
- 2 x socks x 3m
- 1 x hazardous waste bag and tie

GENERAL PURPOSE SPILL KIT 20 LITRE

- Suitable for coolants, solvents, oils, mild acids, mild alkalis
- Fast acting absorbent pads and socks
- Absorbs up to 20 litres

BESGSK20

CHEMICAL ABSORBENT SOCKS

- Spunbound outer skin
- Treated hydrophilic absorbent filling
- Safely absorbs acids, alkalis and strong chemicals
- Use to surround a spillage to prevent further spreading
- Absorbency 4.5 Litres per sock
- Size 7.5cm x 1.2 metres

BESCS20

BESCP100

CHEMICAL ABSORBENT PADS

- 100% Polypropylene single sided, laminated with a sonic-bonded core and a spun-bond top layer
- Meltblown absorbent pads ideal for recovery of spills across a larger area or as a versatile option to pads
- An ideal solution to the regular maintenance and soaking up of small spills and leaks in the workplace
- Absorbency: 80 litres

OIL ONLY PADS

- Double sided coverstock
- High absorbency of up to 1L per pad
- High strength when saturated
- Extreme low lint capabilities compared to normal meltblown absorbents
- Units in Pack: 200
- Size: 50cm x 40cm
- Absorbency 1L Per Pad
- Absorbs: Oils

EN ISO 21420: 2020

GENERAL REQUIREMENTS

FOR GLOVES

This standard defines the general requirements for all protective gloves in terms of construction, fitness of purpose, safety, etc.

- The gloves themselves should not impose a risk or cause injury
- The pH of the gloves should be as close as possible to neutral
- Leather gloves should have a pH value between 3.5 - 9.5
- The highest permitted value for chromium is 3 mg/kg (Chrome VI)
- Specific details of any substance used in the glove which is known to cause allergies must be listed
- Sized by reference to an agreed common European hand size, for example, minimum length
- AZO colourants which release carcinogenic chemicals should not be detectable in any glove

Size Chart for EN ISO 21420: 2020		
Hand Size*	Hand Circumference (mm)	Hand Length (mm)
4	101	< 160
5	127	< 160
6	152	160
7	178	171
8	203	182
9	229	192
10	254	204
11	279	215
12	304	> 215
13	329	> 215

* This code is a conventional designation of hand size corresponding to the hand circumference expressed in inches.

EN 511: 2006

PROTECTIVE GLOVES AGAINST THERMAL COLD

Resistance to Convective Cold:

This is measured based on the transfer of cold through the glove via convection. A model hand heated to body temperature is subjected to a cold room; the resistance to the room's climatic temperature and also the energy required by the hand to maintain a constant temperature are both measured to arrive at a final score.

Resistance to Contact Cold:

This measures the how protective the garment is when put into direct contact with a cold object or source. The sample is placed between a warm plate and a cold plate before an extractor fan is used to cool both plates further, the results are then compared to a reference standard and a final level decided.

Resistance to Water Permeability:

These tests ensure that your hands will be completely safe from water seeping in and is simply a pass (1) or fail (0) (X= not been tested) - if the glove cannot withstand water permeating its fabric after 30 minutes of exposure it will fail. Recieving a Level 0 on this test does not necessarily mean these gloves do not perform highly in the other two areas and can still earn them accreditation. All gloves that achieve this standard must also pass at least level 1 of the EN 388 abrasion tests.

EN 388: 2016

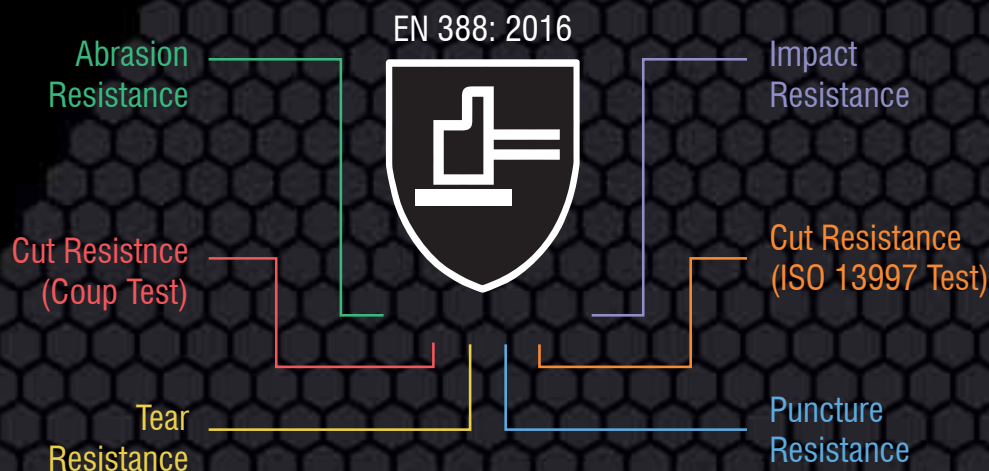

PROTECTIVE GLOVES AGAINST MECHANICAL RISKS (1)

After EN ISO 21420:2020, this standard is the most common found amongst protective gloves. It is tested to multiple different risks, these include Abrasion, Cut, Tear, Puncture and Impact. Gloves, once tested, are given either a marking or a label which has the standards it has been tested to on, including the scores it achieved.

The below is an example of the markings you will find either printed onto the glove or sewn inside, but what does it all mean?

For each standard there are pictograms and scores, the pictogram for EN388 is:

EN 388: 2016

PROTECTIVE GLOVES AGAINST MECHANICAL RISKS (2)

Abrasion Resistance:

Samples are cut from the palm of the glove and rubbed against a 180 grit abrasive paper using a “Martindale” type abrasion machine. The number of cycles for the samples to hole is measured.

Number of Cycles	100	500	2000	8000
Level	1	2	3	4

Cut Resistance (Coup Test):

Samples are taken from the palm of a glove and the number of cycles to cut through the full thickness of the test sample by a circular rotating blade, with 5 Newtons of pressure, is recorded. Blade sharpness will vary and is assessed by using the cut test machine to cut through a standard reference fabric. This test is known as the ‘Coup Test’. The cut resistance of the glove is based on a relative index that compares the number of cycles to cut through the glove when compared with the standard fabric.

Cut Index	1.2	2.5	5	10	20
Level	1	2	3	4	5

Tear Resistance:

Samples are taken from the palm of a glove and are torn apart using a standard tensile test machine. The score is based off the Newtons of force required to tear the sample apart.

Newtons of Force	10	25	50	75
Level	1	2	3	4

Puncture Resistance:

Samples are taken from the palm of a glove and the force required to penetrate the sample with a defined stylus using a tensile test machine is measured. The score based off the Newtons of force required to penetrate through the sample.

Newtons of Force	20	60	100	150
Level	1	2	3	4

Cut Resistance (ISO 13997 Test):

The ISO 13997 test runs a straight blade over the sample, replacing the blade after each cut, the Newtons of force applied to the blade is adjustable so that it can give a more accurate level of cut resistance for gloves that naturally blunt blades.

Newtons of Force	≥2	≥5	≥10	≥15	≥22	≥30
Level	A	B	C	D	E	F

Impact Resistance:

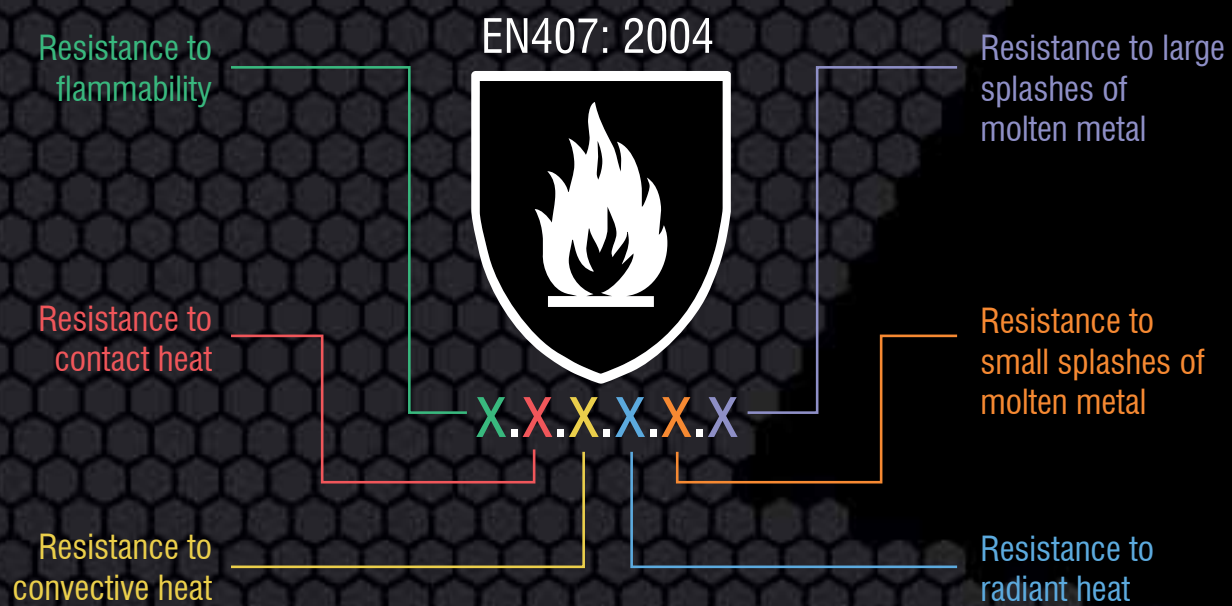

Other than the fingers, each area where impact protection is claimed shall be tested for impact attenuation by measuring the peak transmitted force. To test the glove, the area of protection is secured over a domed anvil and is impacted at an energy of 5J.

	Pass	Fail	Not Tested
Level	P	X	No Marking

EN 407: 2004

PROTECTIVE GLOVES AGAINST THERMAL HAZARDS

Resistance of Flammability:

The gloves material is stretched and lit with a gas flame. The flame is held against the material for 15 seconds. After the flame is extinguished, the length of time it takes for the material to stop burning or glowing is measured.

Test	Measured in:	Level 1	Level 2	Level 3	Level 4
After-burn time	Seconds	≤20	≤10	≤3	≤2
After-glow time	Seconds	Infinity	≤120	≤25	≤5

Resistance to Contact Heat:

The gloves material is exposed to temperatures between +100°C and +500°C. The length of time it takes the material on the inside of the glove to increase by 10°C from the starting temperature (25°C approx), is then measured. The minimal amount of time accepted is 15 seconds.

Test	Measured in:	Level 1	Level 2	Level 3	Level 4
Contact Heat	Temp in °C after 15 seconds	100°C	250°C	350°C	500°C

Resistance to Convective Heat:

The length of time is measured for the heat from a gas flame to increase the temperature of the gloves inside material by 24°C.

Test	Measured in:	Level 1	Level 2	Level 3	Level 4
Convective Heat	Seconds	≤4	≤7	≤10	≤18

Resistance to Radiant Heat:

The gloves material is stretched in front of a heat source with an effect of 20-40 kw/kvm. The average time is measured for the heat penetration of 2.5 kw/kvm.

Test	Measured in:	Level 1	Level 2	Level 3	Level 4
Radiant Heat	Seconds	≤5	≤30	≤90	≤150

Resistance to small splashes of molten metal:

The test is based on the total number of drops of molten metal required to increase the temperature by 40°C between the inside of the glove and the skin.

Test	Measured in:	Level 1	Level 2	Level 3	Level 4
Drops of Molten Metal	Number of Drops	≥5	≥15	≥25	≥35

Resistance to Large splashes of molten metal:

Simulated skin is attached to the inside of the glove material. Molten metal is then poured over the glove material. The total number of grams is measured of how much molten metal is required to damage the simulated skin.

Test	Measured in:	Level 1	Level 2	Level 3	Level 4
Molten Metal	Gram	30	60	120	200

EN 374

PROTECTIVE GLOVES AGAINST CHEMICALS AND MICRO-ORGANISMS

For a glove to be resistant to micro-organisms, it must successfully undergo the penetration test under EN 374-2:2014. The penetration test consists of the air leak test and the water leak test. For the Air leak test the glove is immersed in water and the interior of the glove is filled with pressured air. Leaks are detected if air bubbled emit from the glove. For the water leak test, the glove is filled with a minimum of 1L of water and hung with the fingers facing down. Leaks are detected by any water droplets appearing on the outside of the glove. For a glove to be resistant to viruses, an additional test (ISO16604:2004) is conducted to ensure no detectable transfer of the challenge bacteriophage. The word "VIRUS" is to be displayed beneath the symbol to indicate resistance to virus.

EN ISO 374-5:2016

EN ISO 374-5:2016

Resistance to permeation is assessed by measuring the length of time it takes for a chemical to permeate the glove's material. There are 18 chemicals which are each given a corresponding letter. Depending on whether the glove material can resist permeation for a single chemical level 1, or 3 or 6 chemicals on the list to at least Level 2. It is awarded either the type A,B or C pictogram and the corresponding letters for the chemicals are placed beneath. Other chemicals can be tested but will not have a corresponding letter.

Measured Breakthrough Time	Performance Level
>10 Minutes	Level 1
>30 Minutes	Level 2
>60 Minutes	Level 3
>120 Minutes	Level 4
>240 Minutes	Level 5
>480 Minutes	Level 6

EN 407: 2004 // X.2.X.X.X.X

Glovezilla Titan armour comprises of 2 finely threaded layers of steel mesh, with a further 2 layers of tightly woven high cut resistant para-aramid liner.

Thanks to the technology allowing these layers to be so thin we are able to retain a high level of flexibility and dexterity without compromising on protection.

These protective layers are then attached to a high comfort liner and then palm dipped into a highly visible green latex coating which acts as the first line of defence against all external dangers.

ASTM F2878 14.4 NEWTONS OF PUNCTURE PROTECTION (HYPODERMIC NEEDLE)

Please note:

There is no European standard for needle resistance.

Current industry practice is to utilise the

American Standard ASTM F2878

as a guide, and to allow comparisons between different products.

These products are not needle proof.

Your own risk assessment therefore needs to be undertaken to decide the suitability of this product.

PREMIUM WATER RESISTANCE

HAND PROTECTION INFORMATION

CE Implies that the gloves comply with the basic requirements laid down by the EU Regulation 2016/425: Personal Protective Equipment.

Simple Design

For areas of 'minimal risk' where the effects of not wearing a glove are easily reversible or superficial. Such products are self-certified.

Intermediate Design Category 2 (CAT II)

For areas of specific risk, i.e. mechanical risks. Such products will have been EC type tested against European test methods and certified by a notified body.

Complex Design Category 3 (Cat III)

For areas/applications that can seriously or irreversibly harm the health. In addition to the CE type test, products will also have to be either produced under an approved quality system OR be type tested annually.

GLOVE MARKINGS

EN 388 - This standard applies to all kinds of protective gloves giving protection from mechanical risks, in respect of physical problems caused by abrasion, blade cut, puncture or tearing.

Mechanical Hazards EN 388

Performance Level

(a) Abrasion Resistance	0 - 4
(b) (COUP)-Cut Resistance	0 - 5
(c) Tear Resistance	0 - 4
(d) Puncture Resistance	0 - 4
(e) (TDM)-Cut Resistance	A - F

EN 374 - This standard specifies the capability of gloves to protect the user against chemicals and/or micro-organisms.

EN 511 - This standard applies to gloves which protect the hands against convective and contact cold.

Cold Hazards EN 511

Performance Level

(a) Convective Cold	0 - 4
(b) Contact Cold	0 - 4
(c) Water Penetration	0 - 1

EN 407 - This standard specifies thermal performance for protective gloves against heat and/or fire.

Thermal Hazards EN 407

Performance Level

(a) Burning Behaviour	0 - 4
(b) Contact Heat	0 - 4
(c) Convective Heat	0 - 4
(d) Radiant Heat	0 - 4
(e) Small splashes of Molten Metal	0 - 4
(f) Large splashes of Molten Metal	0 - 4

EN 659 - This standard defines performance requirements for gloves designed to protect fire fighters against heat and flames.

EN 421 - This standard lays down test methods and performance criteria for gloves offering protection against ionising radiation and radioactive contamination.

If a glove is to be used for food handling, it is required to carry either the words: 'For Food Use' or this symbol.

- Heavy duty double palm rigger style glove
- Generous hand size
- Robust yet supple
- Part fleece lined
- Cotton drill back
- Knuckle strap
- Pasted cuff with vein patch

SITE SAFETY AND FIRST AID COMBINATION BAG

The Site Safety and First Aid kit is a combination bag and first aid kit. It's ideal for everyone from the lone worker to site offices in changing locations and has the following features:

- Highly transportable and transferable from site to site or vehicle
- Large individual compartments for all your safety essentials
- Match the safety essentials to your precise requirements
- Roll out compartments allowing you to carry more important safety or first aid items
- Helmet lanyard for attaching your safety helmet to the bag
- Refills available for each individual kit
- Excellent cover for all your first aid needs

CM1925 (Bag only)

CM1920 - Site First Aid Kit

CM1921 - Site First Aid Kit c/w essentials

Internal kits comprise of:

CM1926

Burns first aid kit:

- 1 x Hydrogel dressing 10 x 10cms
- 1 x Hydrogel dressing 20 x 20cms
- 5 x Low adherent dressing 5 x 5cms
- 5 x 20ml eyewash pods
- 1 x 59ml bottle hydrogel
- 1 x tough cut scissors
- 1 x microporous tape 2.5cms x 5m
- 2 x Pairs of nitrile gloves
- 3 x 3.5gm sachets, pain relieving gel
- Bag not included

CM1927

Biohazard and sharps kit:

- 1 x Body Fluid spill kit
- 1 x 0.6 litre sharps bin
- 1 x Yellow plastic tweezers
- 2 x Pairs of nitrile gloves

CM1928

Personal issue First Aid:

- 10 x Sterile saline wipes
- 2 x Eye pad dressings
- 1 x HSE large dressing
- 2 x Triangular bandage
- 5 x Eyewash 20ml pods
- 1 x Set of 6 safety pins
- 2 x Pairs of nitrile gloves
- 1 x Pair scissors
- 20 x Assorted plasters
- 1 x Resusciate
- 3 x Sterile Low Adherent Dressing 8 x 6cm
- 1 x Sterile Skin Closure Strip 3mm x 75 pack of 3
- 1 x finger dressing
- 2 x Conforming bandage (75cm x 4m)

CM1929

Critical injury pack refill:

- 2 x Foil blankets
- 1 x 10x10cm Cuteeze haemostatic dressing
- 1 x 10cm x 1M Cuteeze haemostatic dressing
- 1 x Medium trauma dressing
- 1 x STAT tourniquet
- 2 x Pairs Nitrile gloves
- 1 x Russell chest seal
- 2 x Conforming bandage 7.5cm x 4M
- 1 x Scissors

Kit supplied without safety items, make your own bespoke kit of safety essentials.

Kit suitable to take coveralls, vests, goggles, masks, earplugs and a wide range of products necessary and essential to your site and safety requirements. Can also be used to add further medical and first aid products to meet your first aid risk assessment.

Safety essentials -

- 2 x Surgical masks
- 1 x P3 mask
- 1 x Clear anti-mist spectacles
- 1 x Executive vest
- 5 x Ear plugs
- 1 x Multi-purpose gloves
- 1 x Nitrile palm coated gloves

EY3155

Individual items:

- Hard hat lanyard

ELECTRIC VEHICLE FIRST AID KIT

Many of the injuries that could occur from an accident or fire can be met by the contents of a BS 8599-2 : 2014 compliant first aid kit.

However, in the case of the an electric vehicle fire a number of dangerous substances can be released of which Hydrogen Fluoride is the most dangerous as when mixing with moisture of water will produce Hydrofluoric acid, which in addition to being a highly corrosive liquid, hydrofluoric acid is also a powerful contact poison.. Because of the ability of hydrofluoric acid to penetrate tissue, poisoning can occur readily through exposure of skin or eyes, or when inhaled or swallowed.

The treatment of these burns include cleansing of the skin or wound with water and the use of calcium gluconate gel to neutralize hydrofluoric acid.

We include in this kit :

- 1 x C Gel (Calcium Gluconate Gel)
- 2 x 250 ml sterile wound and eyewash

- 1 x Triangular bandage
- 2 x Burn Dressings 10 x 10cms
- 1 x Adhesive dressing pad
- 1 X Trauma dressing 15x18
- 1 x HSE medium dressing
- 1 x Foil Blanket(adult)
- 2 x Pairs of nitrile gloves
- 1 x Guidance leaflet
- 20 x wash proof plasters
- 1 x resuscitation face shield
- 1 x Tuffcut scissors
- 10 x Cleansing wipes

CM2203 (Small) CM2204 (Medium) CM2205 (Large)

ACID ATTACK KIT

- The kit contains items for washing chemicals from the skin
- It contains a bottle shower which allows for longer decontamination
- Also included are items for treating burns and irrigating the eyes
- In addition the kit contains safety equipment to protect the rescuer such as goggles, face mask and glove
- Supplied in a heavy duty first aid bags
- 1 x Chemical Goggle
- 1 x Premium fold flat P2CV mask
- 1 x Eyewash bottle 500ml
- 1 x Nitrile gloves 6 pairs in a carton
- 3 x Foil blanket
- 2 x Burns dressing 20 x 20cm
- 1 x Tuffcut scissors 6"
- 1 x Mckinnon economy face shield
- 1 x Gauze swabs 7.5 x 7.5cm - pack of 5
- 1 x Black heavy weight rubber gloves
- 1 x Bottle shower 2L
- 10 x Single eyewash pod 20ML
- 6 x bottle water 500ML

CM1770

HYDROFLUORIC ACID ANTIDOTE KIT

- The National Poisons Information Service (NPIS) advise that for responsive patients, immediate decontamination is the priority for individuals exposed to hydrofluoric acid.
- Even relatively low strength hydrofluoric acid is toxic and has the potential to cause serious tissue damage and death when contaminated individuals are not treated swiftly.
- C-Gel is a high performance calcium gluconate gel.
- C-Gel combines with and neutralises the fluoride ion present in HF acid. This helps to prevent pain and tissue damage caused by HF acid whilst a patient is in transit to hospital.
- C-Gel is an easy to use cream, which can be self-administered or applied by a suitable first aider, available as a 40g tube

Some examples where Hydrofluoric acids may be encountered are industrial chemistry, mining, refining, glass finishing, silicon chip manufacturing, and sanitation.

Kit contains:

- 3 x C- Gel 40g
- 6 x Nitrile gloves in a carton

CM0209

HSE KITCHEN FIRST AID KIT

CM0308 (Small) CM0309 (Medium) CM0310 (Large)

The BSI catering first aid kit complies to BS8599-1: 2019 for food industry environments.

Available in small, medium and large depending on requirements.

BIOHAZARD Kits

Our range of Body Fluid Spill kits and Sharps handling kits are designed to enable any worker to deal with the problems of body fluids such as blood and vomit and the problem of discarded needles and syringes.

These kits are easy to use and address all the issues that are caused by cross contamination and infections caused by Bio Hazards.

The HSE give guidance on 'Blood – borne viruses in the workplace' (leaflet INDG342) and there is a provision under COSHH that employers have a legal duty to assess the risk of cross infection for employees and others affected by your work.

Carrying a Click Medical spill or sharps handling kit, will help meet these requirements and increase the confidence of employees, knowing that you as the employer are dealing with the risk attached to biohazards and their control.

All our body fluid spill kits are multiples of either the single application kit, which includes all the items to deal effectively with one incident of biohazard, either vomit or blood, all you have to do is decide how many you may require, one, two, five, ten or above, remembering we also stock the replacement kits as and when required.

We also have a full range of sharps handling kits and sharps bins for dealing with needles and a range of combination kits for handling all types of biohazard.

BODY FLUID BULK SPILL KIT

- Supplied in a large protective carrying case
- 5 x Single Application Clean UP Pack (**CM0620**)
- 1 x Trigger Disinfectant Spray (**CM0625**)
- 1 x 100gms Super Absorbent Powder (**CM0630**)
- This larger kit designed for medium risk areas for body fluid spills, with extra powder and disinfectant to help with a major clean up

CM0635

RESPONSE BIOHAZARD COMBINATION KIT

- Supplied in a large protective carrying case
- 2 x Single Application Sharps Disposal Kit (**CM0610**)
- 5 x Single Application Clean UP Pack (**CM0620**)
- 1 x Trigger Disinfectant Spray (**CM0625**)
- 1 x 100gms Super Absorbent Powder (**CM0630**)
- For use anywhere that you have a reasonable risk of having to deal with Body Fluid Spill and/or incidents where you may come across used syringes and needles

CM0640

SMALL SHARPS & BODY FLUID SPILL KIT

- 1 x Single Application Body Fluid Spill Kit (CM0615)
- 1 x Sharps disposal container, 0.1ltr
- 1 x Pair soft vinyl gloves
- 1 x Biohazard bag
- 1 x Disinfectant wipe
- 1 x Sharps handling forceps
- Ideal for small businesses, offices, shops, pubs, restaurants and lone workers where occasional risk may be encountered

CM0610

2 APPLICATION BODY FLUID SPILL KIT

- 2 x Single Application Body Fluid Spill Kit (CM0615)
- Ideal for small businesses, offices, shops, pubs, restaurants and lone workers where occasional risk may be encountered

CM0605

ONE APPLICATION BODY FLUID SPILL KIT

This one application kit is designed to deal with any single application to handle body fluids and can be bought singularly or in bulk as a refill for your kits or as a backup for large, multiple or continuing risks.

- 1 x Instructions
- 1 x Pair soft vinyl gloves
- 1 x Pair polythene oversleeves
- 1 x Polythene apron
- 1 x Polypropylene scoop and scrape
- 1 x Biohazard bag
- 1 x Non woven wipe
- 1 x 50ml disinfectant spray
- 1 x Super absorbent powder sachet (10g)

CM0615

ONE APPLICATION BODY FLUID SPILL KIT

- 1 x Instructions
- 1 x Pair soft vinyl gloves
- 1 x Pair polythene over sleeves
- 1 x Polythene apron
- 1 x Polypropylene scoop and scrape
- 1 x Biohazard bag
- 1 x Non woven wipe
- 1 x Disinfectant wipe
- 1 x 30ml disinfectant spray
- 1 x Super absorbent powder sachet (10gms)

CM0660

BEESWIFT
MEDICAL

SHARPS DISPOSAL KIT IN GRIP SEAL BAG

- 1 x Sharps disposal container
- 1 x 50ml disinfectant spray
- 1 x pair large vinyl gloves
- 1 x Biohazard bag
- 1 x Disinfectant wipe
- 1 x pair polypropylene forceps

CM0611

SHARPS DISPOSAL KIT

- 1 x Disposable gloves
- 1 x Self seal yellow waste bag large
- 1 x Bioguard disinfectant wipe
- 1 x Yellow tweezers
- 1 x 0.25 ltr sharps bin
- 1 x instruction card

CM0667

100GMS SUPER ABSORBENT POWDER

- Deodorising effect can be up to five times more effective than other brands
- Can absorb up to 300 times its own weight in water
- Significantly reduces unpleasant odours
- Makes body fluids easy to clean up, unlike others which can leave a nasty sludge which is difficult to clear up, especially carpets

CM0630

SINGLE APPLICATION CLEAN UP KIT

- Supplied in grip seal bag
- 1 x Instructions
- 1 x Pair soft vinyl gloves
- 1 x Pair polythene oversleeves
- 1 x Polythene apron
- 1 x Polypropylene scoop and scrape
- 1 x Biohazard bag
- 1 x Non woven wipe
- 1 x Disinfectant wipe
- This is the basic clean up pack that should be used in conjunction with disinfectant spray and our super absorbent powder

CM0620

SHARPS BIN 0.2 - 30 LITRE

sharp safe[®]

CM0641 (0.2 Litre)

CM0642 (0.6 Litre)

CM0646 (7 Litre)

CM0647 (13 Litre)

CM0648 (24 Litre)

CM0649 (30 Litre)

- Welded construction for added strength
- In-mould label - offers permanent audit trail which cannot be removed
- Flip top lid for temporary and final closure
- Choice of openings - Non-return 'petal opening'
- Scalpel blade remover opening
- Insulin pen needle removal feature and unobstructed opening for large syringes and blood collection holders
- Puncture resistance base for added safety
- Class leading leak resistance

SHARP SAFE NPSP TRAY FOR 2/3 LITRE BIN

- The Sharpsafe Tray forms an important part of the Sharpsafe Near Patient Sharps Disposal System (NPSP) and has been designed to provide a large, easy to clean procedure tray

*Bin not included

CM0651

YELLOW SHARPS FORCEPS

- Ideal for holding and disposing of all small needles and syringes

CM0662

DISPOSABLE PAPER KIDNEY DISH 700ML

- General purpose receptable
- Ideal for holding a variety of medical items including dressings, wipes or surgical instruments

CM1717

DISPOSABLE PAPER GENERAL PURPOSE BOWL

- Ergonomically shaped, graduations for measuring liquid
- Can be used as a vomit bowl
- Also used as a child's potty when used together with a plastic support

CM1719 (Pack of 10) 104AA200 (Pack of 200)

SELF SEAL WASTE BAG

- Highly visible printed bags for disposal of medical and clinical waste
- Heavy duty bags in 205mm x 305mm size
- Compact self-seal bags are an ideal supplement to first aid kits

CM1710

VOMIT BAGS

- Strong, lined paper bags are compact
- Highly recommended to be provided in mini-buses, coaches, or any passenger carrying vehicle

CM1769

SELF SEAL WASTE BAG

- 711 x 990mm, 45mu
- Printed and certified to hold up to 30kg
- 1% slip / 1% anti-static
- Virgin Grade PE
- 10 bags per roll / 100 bags per box (10 rolls)

CM0657

EMESIS VOMIT BAG 1500ML CAPACITY

- 'Hard to miss', rigid plastic wide opening
- Twist 'n' seal lock - avoid spills and contain odours
- Made from recycled plastic

CM1923

MEDICAL

WoodSafe®

The only, truly environmentally friendly,
non plastic sharps bin in the World.

WoodSafe® is a new range of biocomposite hazardous waste containers, manufactured in Sweden from a by-product of the forestry industry.

- 80% renewable wood-composite material - optimised to replace fossil polymers
- 66% reduction of CO2 emissions – instant impact – low CO2 footprint
- Superior CO2 savings of 61.8% against recycled plastic or Eco products
- Wood fibres are sustainable with high tensile strength
- Cost effective solution approved to UN3291, ISO 23907-1, ADR and REACH (EC/1907/2006)
- Measurable results
- Exact calculation for CO2 reduction – independently verified – no greenwashing
- Easy to implement
- Simply replaces current sharps bins – no high-end upfront investment
- Autoclavable and solvent safe
- Same workflow and handling as current systems – but with real CO2 emission reduction

Standards and Certifications

- UN 3291
- ISO 23907-1:2019
- ISO 14001:2015
- ADR and ADR-S approved
- IPCC standard - GWP 2021 100
- REACH EC/1907/2006 (Registration, Evaluation, Authorization and Restriction of Chemicals)
Smaller (0.5L – 6L) and larger (12L – 50L) sizes integrated with reusable solutions
- Life Cycle Analysis (LCA) independently verified to IPCC standard - GWP 2021 100 and to ISO:14040-44 (Series 3 LCA)

CUT-EEZE HAEMOSTATIC DRESSINGS and Kits

First aid training and regulations now include the use of haemostatic dressings and tourniquets for workers who are in high risk environments where serious trauma injuries and bleeding are a possibility.

Our haemostatic (or wound clotting) dressings comprise of a white knitted fabric which is made primarily from sodium carboxymethyl cellulose.

The new 8599-1 : 2019 standard from the BSI also includes a new critical injury pack designed to meet industry's need for a first aid kit designed specifically to deal with major trauma injuries and other bleeding problems faced in the workplace. Every working environment is different, so we have introduced a low, medium and high risk version of this kit, to deal with the office, small business or high risk industry.

When Cuteeze gauze comes in contact with the bleeding area it quickly absorbs the water contents in the exudates to form a viscous gel which fills the wound and stops the bleeding. This process includes joining with the bloods platelets and the clot to plug the wound and close off the blood vessels.

Being a natural product the gauze converts into a gel then dissolves to saline and glucose. We have developed a range of products from our island dressings to large Z-fold gauze rolls which can deal with a range of injuries from serious finger cuts and nose bleeds right up to major lacerations and trauma wounds.

Includes a range of tourniquets and kits to cover a wide variety of needs and injuries.

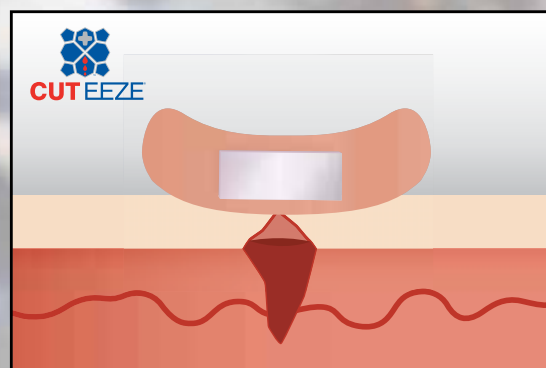

We also supply the full range of Celox haemostatic products, developed for high risk trauma environments.

CUT EEZE®

What are the advantages of Cut-eeze?

- Instant reaction with blood, stops bleeding fast
- No residue in the wound site
- No secondary bleeding
- No adverse reactions
- Ease of use and application with no pain on removal
- Safe, with no side effects
- Works with people using blood thinning medications or bleeding disorders, including haemophiliacs

HAEMOSTATIC SPRAY 70ML

- Our Cut-Eeze Haemostatic spray is a wound congealant which is ideal for small cuts and grazes
- Spray on to a bandage or dressing, and apply to the wound
- Can also be sprayed direct to the wound area
- When the wound heals, remove residual powder and dress with plaster or bandage as usual

CM0565

HAEMOSTATIC DRESSING Z FOLD

- This is a 10cm x 1m haemostatic gauze dressing used to stop the bleeding of larger cuts and lacerations
- Used to pack and seal larger wound areas
- Can be cut to size to use on smaller wounds
- Supplied in vacuum sealed foil pouch

CM0562

SOLUBLE DRESSING

- A 10cms x 10cms gauze dressing used to stop surface bleeding and to pack smaller wounds and lacerations
- Can be cut to size
- Supplied in individual peel pouch

CM0568

HAEMOSTATIC DRESSING KIT (QUICK KIT)

- 1 x quick release tourniquet
- 1 x 1m x 10cms Z fold dressing
- 2 x 7.5 conforming bandages
- 1 x tough cut scissors
- 1 x Bag
- 1 X Microporous tape 1.25cm x 5m
- 2 x Cuteeze haemostatic dressing 10 x 10cm
- 2 x Adhesive wound dressing 7 x 6cm
- 2 x Adhesive wound dressing 8.6 x 6cm

CM0566

BLEED CONTROL CABINET

- Highly impact resistant polycarbonate cabinet suitable for indoors or outdoors
- Double skin clamshell design with full IP66 EN60529 rating (dust and water tight)
- UV stabilised; will not be affected by sunlight
- Fire retardant to UL94 V0 standard
- Plastic wing handle for ease of opening
- Lightweight construction; only 10kg
- Fully recyclable material
- External Dimensions 465mm (H) x 435mm (W) x 240mm (D)
- Manufactured in the UK

CM1240

EMERGENCY TRAUMA BANDAGE

- Israeli style trauma wound dressing
- Designed for a fast response to severe bleeding
- It combines a thick – non adherent dressing, elastic bandage, pressure applicator and closure clip in one sterile unit
- Pressure applying bar
- Quick and easy to apply without the need for tape, safety pins, or other bandages.

CM0558 (4") CM0559 (6")

BLAST BANDAGE

- Large non-adherent wound pad and integral elastic bandage
- Quick and simple
- Large, removable occlusive dressing
- Multipurpose e.g. to cover eviscerated bowel; as a robust burns dressing; as an occlusive dressing for multi-penetrating chest wounds
- Velcro® 'Control' strips to help prevent accidental unrolling of the elastic wrap during application, especially helpful during the dressing of amputations

CM0387

4 IN 1 BLOODSTOPPER

- Pressure pad for heavy bleeding
- Protective dressing for superficial wounds
- Burn dressing with special wound protecting surface
- Temporary support dressing
- 1 x Special pad (14x23cm)
- 2 x Disposable elastic bandages (10x3cm)
- 1 x Set of instructions

Mini version contains:

- 1 x Pad (8 x 12 cm)
- 1 x Elastic bandage (6 cm x 3 m)

CM0735 (Standard) CM0736 (Mini)

HAEMOCAP MULTISITE / MINIVAC PUMP

- Rapid application - simple and easy to use
- Can be applied by a single person and non - trained medical staff to various sites, Head, Neck, Limbs, Axilla.
- Semi- transparent so that the wound is visible
- Unlike fabric bandages, it does not draw blood from the wound
- Simple to remove and reapply after wound inspection
- Will not exceed 50mmHg of pressure - reducing the risk of necrosis
- Compatible with all suction devices

- Minivac pump is a suction device to be used with the Haemocap multisite
- Easy to use hand pump
- Capable of achieving 250mmHG to evacuate air from the device until it constricts

CM1864 (Multisite) CM1865 (Pump) CM1866 (Kit)

OLAES MODULAR BANDAGE

- Latex free
- Elastic wrap with built in 'Control Strips' to prevent inadvertent unraveling
- 3 meters of sterile 4 ply gauze
- Plastic occlusive sheet included in dressing pocket
- Transparent pressure cup that focuses pressure on the wound site and allows for visual inspection of uncontrolled hemorrhage

CM0385 (4") CM0386 (6")

BLEED CONTROL KIT - KNIFE CRIME

- 2 x large Trauma Dressing first aid dressing
- Haemostatic dressing for the external, temporary control of severely bleeding wounds*
- Russell Chest Seal™ Designed for the immediate management of an open chest wound and to minimise the risk of developing tension pneumothorax
- SOF Tactical tourniquet wide for control of severe bleeding
- Nitrile gloves
- Tuffcut scissors
- Foil blanket
- Red, portable first aid bag

*Kit comes with 3 Cuteeze 1m x 10cm haemostatic dressing

*Kit comes with Celox rapid haemostatic dressing

CM0072 (Cuteeze Dressing)

CM0073 (Celox Dressing)

PUBLIC ACCESS TRAUMA KIT

- 4 x Pairs of Nitrile gloves
- 2 x Disposable face mask
- 2 x Disposable glasses
- 2 x Tuff cut scissors
- 2 x Non-woven triangular bandage
- 4 x Large trauma dressing
- 2 x Combat Application Tourniquet
- 2 x Faceshield
- 2 x Indelible marker pen
- 2 x PACT first aid kit Aide Memoire
- 2 X Foil blanket
- Contents available in a box, bag or haversack

CM0183 (Refil Pack)

CM0181 (Bag)

CM0180 (Box)

CM0182 (Haversack)

TACTICAL MILITARY FIRST AID KIT

- Celox Rapid Z fold haemostatic dressing
- Nasopharyngeal Airway(17cms)
- 10cms emergency bandage
- C-A-T Gen7 tourniquet
- Resuscitation faceshield
- Pair of nitrile gloves
- 11cms Tuffcut scissors
- Russell Chest Seal
- Allows you to deal with all trauma injuries including stab wounds, body and limb injuries and breathing difficulties, all held in neat, compact, accessible pouch
- Pouch can be purchased separately

CM3001

TACTICAL MILITARY FIRST AID BAG

- Military style first aid bag
- In durable, waterproof codura material
- Colour drab green
- Marked with black first aid cross
- Designed with Molle system connections
- Full double zip closure opens out for easy access
- Includes internal straps and pockets to hold a variety of product
- Size : 17cms x 14cms x 7cms

CM3000

SMART TACTICAL APPLICATION TOURNIQUET (S.T.A.T)

timestrip

- Can be used on adults, children and dogs
- Fine tune application in millimeter increments
- Waterproof built in-timer (no battery required)
- Automatic self-locking mechanism
- Compact design & Molle compatible
- Latex free, single use
- Pull hole assists application and can be used to hook multiple devices for mass casualty incidents
- Use to make splints, hold dressings in place, bind patient's limbs during transport, or carry equipment

CM1924

TOURNIQUET WITH BUCKLE

- Easy to use tourniquets provide maximum comfort for the patient
- Perfect for use during routines such as drawing blood and insertion of cannula
- Simply tighten the tourniquet around the patient's upper arm and use the quick release buckle for rapid removal
- Contains latex

CM0570

SPECIAL OPERATION FORCES TOURNIQUET (S.O.F)

- A true constricting band for increased constricting pressure and patient comfort
- Quick-connect, snap-lock buckle design, allowing rapid re-routing of the band around trapped limbs without re-threading
- Lower-profile, lighter weight alloy components, providing the required strength and durability only metal can offer
- Single application method regardless of location
- Controls life-threatening extremity haemorrhage

CM0571

RUSSEL CHEST SEAL

- Fast, easy and intuitive to apply
- Patented hydrogel base 'Sticks and Stays Stuck!'
- 4 large peripheral apertures allow drainage of air and blood
- Large central hole in base material allows quick accurate placement with reduced risk of obstructing the wound opening
- Low profile and highly flexible
- Compact: easy to pack into medical kit

CM0576

TOURNIQUET DNIPRO GEN 2

- New fastening of the belt (easy removal and increased rigidity)
- Reinforced internal sling (strong enough to not break from twisting, but it is easy to rotate the handle)
- External buckle lock (fixes the buckle when tucking in the belt)
- Duralumin handle of a new shape (comfortable and reliable in use, with tactical gloves and without)
- Wide velcro on the platform with the cutout (completely closes and securely holds the collar, perforation allows you to quickly find it even by touch)
- Lower fixation from the outer belt under the platform (does not interfere with the rotation of the turnbuckle on the platform and reinforces the platform underneath)
- Metal single-slot buckle (convenient and quick belt filling)
- Platform with six holes and softener (reliable and flexible)
- A soft base between the platform and the buckle (protects the skin and muscles of the limbs between the buckle and the mould form from pinching)

CM0185 (Tourniquet) CM0186 (Pouch)

CAT GEN 7 TOURNIQUET

- Single routing buckle
- Decreased blood loss, effective slack removal, fewer windlass turns, simplified training with single protocol application standards
- Windlass strap
- New reinforced strap, grey colour for tactical considerations
- Stabilization plate
- Reinforced, bevelled contact bar, improved comfort
- Windlass rod
- Increased diameter, enhanced strength, aggressive ribbing improves grip
- Free-moving internal band
- Patented band within band, truly even distribution of circumferential pressure
- Windlass clip
- Bilateral bevelled entry, rapid windlass lock, bilateral buttress and added strength

CM0573 (Black) CM0579 (Orange)

HAEMOSTATIC BLEEDING KIT

- 1 x Quick release tourniquet
- 1 x Tactical tourniquet
- 1 x 1m x 10cms Z fold dressing
- 2 x 7.5 conforming bandage
- 2 x Large trauma dressing
- 1 x Tough cut scissors
- 1 x Eclipse box
- 1 x Foil blanket
- 2 x Pairs nitrile gloves
- 4 x 10 x 10cms Cut-eeze dressing

CM0572

HAEMOSTATIC GAUZE Z-FOLD VERSION 5 FOOT

CELOX

- Gauze has proved itself in the most challenging environments when rapid control of severe bleeding is required
- The new compact design for Celox Z-Fold (14mm thick, 34g weight) allows multiple packs to be carried, makes for easier handling and reduces application time
- Celox Gauze Z-Fold is available as a 10 foot z-fold, ideal for the medic or vehicle kit
- The gauze is especially useful in challenging conditions, in wind, rain or poor visibility

CM1913

RAPID HAEMOSTATIC GAUZE Z-FOLD

CELOX

- Celox RAPID Gauze removes the delay by speeding up packing time and reducing compression time to just 60 seconds while using the proven haemostat technology of Celox.
- Saves valuable time in an emergency as well as reducing blood loss
- Independent testing showed 100% success in achieving haemostasis and reduced blood loss compared to other treatments
- The key users of CELOX RAPID are professionals exposed to situations where traumatic blood loss can occur, including Military, special forces, tactical units, law enforcement, first responders and emergency services personnel

CM1914

HAEMOSTATIC GRANULES 15G

CELOX

- Works independently of normal blood clotting factors
- Simple and safe to use
- Not Exothermic; will not burn the victim or caregiver
- Works in hypothermic conditions and clots Heparinized blood
- Safe to use for the entire body including, head, neck and chest wounds
- Suitable for the military, first responders, hospitals, industrial first aid, emergency services, wilderness medicine, adventure pursuits, professional and amateur sports

CM1910

HAEMOSTATIC GAUZE ROLL 56G

CELOX

- Highly effective Celox granules bonded on to the surface of a stable gauze which will not compact under pressure
- The unique, patented and natural formula, works independently of the body's normal clotting mechanisms to clot blood even where normal clotting is slow or impaired
- Made with chitosan. Chitosan is broken down by lysozyme, a human enzyme, to leave glucosamine, a sugar which is normally found in the body
- It is suitable for severe high pressure bleeding, arterial & venous bleeding, bullet, blast, knife & shrapnel wounds, wound packing

CM1911

TRAINING GAUZE

CELOX

- Gauze strip 3in x 5ft trainer for Celox rapid gauze
- 5ft z-fold and Celox gauze 5ft z-fold

CM1917

HAEMOSTATIC APPLICATOR 6G PLUNGER

CELOX

- Specifically designed delivery system that gives you an easy, safe and effective way to stop life-threatening bleeding from difficult to treat penetrating trauma
- For knife, bullet and any other penetrating wound

CM1915

CRITICAL INJURY QUICK RELEASE EMERGENCY KIT

Designed for single person operation when facing a major trauma injury when working on their own or in a difficult working position
The kit can fit on belt, a bag or other form of webbing
Quick release cord, which when pulled brings the contents to the top

- 1 x Pair of 17.5cm Tuffcut clothing shears
- 1 x Rescue Whistle
- 1 x PHC cutter for safely releasing webbing or clothing
- 1 x SOF Military Tourniquet (CAT Tourniquet available as an option)

Kit comes with 1 x 6" Emergency Bandage which can apply significant pressure to the wound to prevent excessive bleeding

CM0070

Kit comes with 2 x Cuteeze 1m x 10cm Haemostatic Dressing, for those trained in the use of Haemostatic dressings, ideal for all major trauma injuries

CM0071

BS 8599-1: 2019 CRITICAL INJURY PACK

	Low	Medium	High
Guidance note	1	1	1
Large Trauma dressings	2	2	2
Foil blanket	1	1	1

GERMAN WORKPLACE FIRST AID KIT DIN 13157 UP TO 50 EMPLOYEES

CM1831

- Designed to meet DIN 13157-2009, which details the requirements for the contents and box for a workplace of up to 50 employees
- All contents supplied with multilingual descriptions
- Kit supplied in Orange ABS box complete with integral handle and supplied with wall bracket

- Designed to meet DIN 13157-2009, which details the requirements for the contents and box for a workplace of up to 50 employees
- All contents supplied with multilingual descriptions
- Kit supplied in Orange ABS box complete with integral handle and supplied with wall bracket

GERMAN FIRST AID KIT DIN STANDARD 13169

CM1832

- Designed to meet DIN 13169-2009, which details the requirements for the contents and box for a workplace of up to 100 employees
- All contents supplied with multilingual descriptions
- Kit supplied in Orange ABS box complete with integral handle and supplied with wall bracket

GERMAN VEHICLE FIRST AID KIT DIN 13164 IN TRAVEL BAG / BOX

CM1828

- Designed to meet DIN 13164-2014 which details the requirements or the contents of a vehicle first aid kit
- All contents supplied with multilingual descriptions
- This kit is supplied in either a convenient travel bag or box

GERMAN FIRST AID KIT DIN STANDARD 13169

CM1830

CM1829

- Designed to meet DIN 13164-2014 which details the requirements or the contents of a vehicle first aid kit
- All contents supplied with multilingual descriptions
- Kit supplied with foldaway hazard warning triangle and hi-viz vest
- Supplied in a black, slimline combination kit bag

BURNS KITS

FIRST AID KIT FOR BURNS

- 1 x Sterile burn dressing 5cm x 15cm
- 1 x Sterile burn dressing 10cm x 10cm
- 1 x Sterile burn dressing 20cm x 20cm
- 3 x Sachets pain relieving gel 3.5gm
- 1 x Bottle pain relieving gel 59ml
- 2 x Conforming bandages 5cm x 4m
- 6 x Safety pins
- 2 x Pairs disposable vinyl gloves

CM0320 (Kit) CM0315 (Refill Pack)

BURN CARE KIT

NOTE:

* A burn dressing cools the burn injury without any pre-cooling with water or any other medium.
The dressing does not dry out within one hour of application

- G1 x Sterile burn dressing 10cm x 10cm*
- 3 x Sachets pain relieving gel 3.5gm
- 1 x Bottle pain relieving gel 59ml
- 4 x Alcohol free wipes
- 2 x Low adherent dressing 5cm x 5cm
- 2 x Low adherent adhesive dressing
- 1 x Conforming bandage 5cm x 4m
- 1 x Microporous tape 2.5cm x 5m

CM0311

BURNFREE PERSONAL KIT

- 1 x Burns dressing 5cm x 15cm (CM0331)
- 1 x Burns dressing 10cm x 10cm (CM0332)
- 1 x Gel bottle 59ml (CM0340)
- 3 x 3.5gmd gel sachets
- 1 x Burnfree personal box

CM0321

BURNFREE MULTI-PURPOSE KIT

- 1 x Gel bottle 118ml (CM0341)
- 3 x Burns dressing 5cm x 15cm (CM0331)
- 3 x Burns dressing 10cm x 10cm (CM0332)
- 2 x Burns dressing 20cm x 20cm (CM0333)
- 1 x Box of 20 x 3.5gm gel sachets (CM0342)
- 3 x Conforming bandages
- 1 x Burnfree multi-purpose box

CM0322

BURNFREE EMERGENCY KIT

- 1 x Gel bottle 118ml (**CM0341**)
- 2 x Burns dressing 5cm x 15cm (**CM0331**)
- 2 x Burns dressing 10cm x 10cm (**CM0332**)
- 1 x Box of 20 x 3.5gm gel sachets (**CM0242**)
- 3 x Conforming bandages
- 1 x Emergency burns box

CM0323

BURNFREE DRESSING

- All BurnFree dressings are designed for first aid use on all types of burn injuries
- The dressings are constructed of a special soft, open cell foam and are elastic enough to allow possible swelling or the need to flex joints
- BurnFree dressings are non-adherent and the inert foam will not shed threads, strands or fibres that could get embedded in the wound
- The pliable foam holds 50 times its weight in gel, meaning the gel will always stay in contact with the burn

CM0330 (5 x 5cm) **CM0331** (5 x 15cm) **CM0332** (10 x 10cm)

CM0333 (20 x 20cm) **CM0334** (30 x 30cm)

HYDROGEL BURNS DRESSINGS 10 X 10CM

- Gel soaked burn dressings
- Helps prevent contamination
- Suitable for treating superficial and partial thickness burns

CM0351

BURNFREE HYDROGEL 3.5GMS/59ML/118ML

- Pain relieving gel
- BurnFree gel is designed to be viscous enough to remain on the burn wound and not run off (like cheaper alternatives)
- Simultaneously draws the heat out and up into the gel

CM0340 (59ml) **CM0341** (118ml) **CM0342** (3.5gms)

BURNFREE TRAUMA BLANKET

- BurnFree blankets are for emergency and industrial use
- During transport to the medical facility the blanket will soothe the victim
- Reduces physiological and psychological trauma
- Made up of pure virgin wool which holds up to 14 times its weight in gel to prolong trauma relief during transport

CM0327 (244 x 152cm) **CM0328** (183 x 152cm)

HYDROGEL BURNS DRESSINGS 20 X 20CM

- Gel soaked burn dressings
- Helps prevent contamination
- Suitable for treating superficial and partial thickness burns

CM0353

EYEWASH

PLUM iBOX BOTTLES

Available with the following eyewash combinations:

- Clearly visible eyewash bottles
- Quick and efficient overview of expiry dates
- Grab from the wall bracket and quickly bring to injured person
- Spacious design lets you grab bottles fast and easily
- Easily opens - mounted on the wall or standing on the floor
- Strong and durable material with wall bracket.
- Quick access to eyewash is crucial because seconds decide the impact of an accident.

plum
Safety

CM0747

- Quick and effective eyewash is key.
- Plum Eyewash pH Neutral 4.9% phosphate will quickly and effectively neutralize strong acids and alkali and provide effective protection against serious eye injuries.
- The liquid consists of phosphate salts that are present in the body.
- The hydrogen phosphate buffer is effective against acids, whereas the dihydrogen phosphate buffer reacts against alkali.

- 0.9 % sterile sodium chloride is similar to the eye's natural fluid
- Effective eyewash for removal of dust, dirt, and contamination in the eyes
- Easily manageable bottles
- Ergonomic eyecups for effective flow
- User-friendly design allows the bottles to be quickly opened with a single hand

EYEWASH POD STATION

- 10 x 20ml pods
- 2 x No 16 eye pad dressings
- Mirror

CM0715

EYEWASH STATION

- 2 x 500ml solution bottles
- 2 x No16 eye bandages
- Mirror

CM0720

EYEWASH FIRST AID KIT

- 2 x 500ml sterile eyewash bottles
- 8 x 20ml sterile eyewash pods
- 2 x boxed eyepad dressings
- Eyewash kit can be wall mounted or be carried to any incident

CM0721

WALL MOUNTABLE EYEWASH STATION

- 2 x 500ml eye wash solution
- 2 x eye bandages
- Clear plastic carry case
- Wall mountable bracket

CM0700

EYEWASH STAND SINGLE / DOUBLE

- Drill points for securing to the wall
- Supplied with clip-on clear cover
- For use with 500ml Eyewash Bottle (CM0710)

(1) CM0701 (2) CM0702 (3) CM1009 (4) CM1010

500ML SODIUM CHLORIDE BP 0.9% EYEWASH BOTTLE

- Sterile emergency eye wash solution
- 500ml bottle
- Sodium chloride BP 0.9%w/v.
- For irrigation only

CM0710

20ML SODIUM CHLORIDE 0.9% EYEWASH PODS

- 20ml Solution
- Sterile Sodium Chloride 0.9% w/v Ph.Eur
- Packed in 25's [25 x 20ml]
- For irrigation only
- Selling unit = 1 pack of 25
- Outer carton quantity 10 packs of 25

CM0705

SELF CONTAINED EYEWASH STATION

- Easy to transport and ideal for use where a continuous supply of water is not available
- Wide fill opening enables quick inspection, cleaning and filling
- For use as a wall-mounted or table top unit
- Provided with one bottle of water preservative
- Station should be cleaned and refilled every 120 days, when using the water preservative

CM1764

CEDERROTH EYE WASH STATION

- The world's smallest eye emergency department
- Hygienic door
- Buffered liquid increases the chance of saving your eyes
- Plaster dispenser and extra compartment
- An eyewash instruction is included

CM0726

EYEWASH STATION WATER ADDITIVE

- An 8 Fl oz (236ml) bottle of water preservative for use with the portable self-contained eye/face wash stations
- It preserves from 15-76 litres of water and comes free when purchasing a CM1764 eye/face wash station

CM1768

CEDERROTH 500ML BOTTLE / BOTTLE BRACKET

- Cederroth eyewash is buffered, which means that parallel to dilution and rinsing the eyewash also has a neutralising effect on alkalis and acids
- The eye cup is also designed to keep the eye open and maximise the flow ensuring the rinsing is efficient
- The wall bracket opens the bottle automatically when the bottle is rotated and released from the eyewash stand
- Can be used singularly or in a bank of several units.

First Aid ESSENTIALS

Dressings

Our standard first aid dressings include an absorbent dressing pad with a low adherent film fully stitched on to a high quality, high stretch polyamide conforming bandage for excellent wound sealing and bandaging. Sterile.

HSE, HSM, HSL, ambulance dressings, 1, 2, 3, 4, Trauma Dressing

Plasters

Our range of plasters are manufactured from the highest quality materials and adhesives to ensure the best protection and adhesion, but whilst being completely Latex-Free and Hypo-Allergenic.

Low Adherent Dressings

A highly absorbent pad with low adherent film, supplied sterile in its own individual peel pouch. 5 x 5, 7.5 x 7.5 and 10 x 10cms.

Low Adherent Adhesive Dressings

A highly absorbent, low adherent pad with a high stretch adhesive film which is Latex Free and Hypo-allergenic. These practical dressings act like a big plaster and are ideal for handling a range of minor wounds. Supplied in their own individual peel pouch. Sterile.

Skin Closure Strips

Quick and convenient alternative to stitches, preventing minor wounds from reopening and bleeding. Supplied in peel pouch. Sterile. Two sizes.

Gauze Swabs

Available sterile in peel pouch or non-sterile, in packs of 100.

Tapes

Our range of quality tapes are ideal for dealing with a range of uses for securing dressings and bandages.

Wipes

Our diverse range of wipes include alcohol free and sterile saline wipes for use in first aid kits and a full range of Clinell, Bioguard and Azo wipes for hand, surface and personal use.

Bandages

We have a comprehensive range of conforming, crepe, triangular, cohesive and tubular bandages.

Other Essentials

We have a range of other essential items, including scissors, tweezers, fingercots, fingerbobs, fingerstalls and alcohol free hand sanitisers.

NITRILE GLOVES PACKED IN MINI GRIP BAG

CM1720

NITRILE GLOVES 6 PAIRS IN CARTON

- Compact carton allows them to fit in virtually any size of first aid bag or box
- Ideal for anyone with a Type 1 allergy
- High resistance to a wide range of chemicals, especially to hydrocarbons, oils and fats
- Commonly used in hospitals, the nursing sector, medical practitioners in surgeries and the dental sector

CM1721

ALCOHOL FREE WIPES PACK OF 100

- Individually wrapped
- Ideal for cleaning area around cuts and grazes prior to dressing
- Consists of 0.5% Cetrimide and 0.2% Chlorhexidine Gluconate
- Meets the HSE First Aid regulations for use in a first aid kit
- Wipe size: 20cm x 10cm for a large surface area

CM0800

ALCOHOL FREE WIPES PACK OF 10

- Individually wrapped
- Ideal for cleaning area around cuts and grazes prior to dressing
- Consists of 0.5% Cetrimide and 0.2% Chlorhexidine Gluconate
- Meets the HSE First Aid regulations for use in a first aid kit
- 20cm x 10cm for a large surface area
- Supplied in grip seal bag

CM0801

STERILE SALINE WIPES PACK OF 100

- Individually sterile wrapped
- Ideal for cleaning areas around cuts and grazes prior to dressing
- Impregnated with a 0.9% sodium chloride solution for gentle wound cleansing
- Safe for use on broken skin
- Safe to use on children
- Meets the requirements for first aid kits conforming to BS8599-1 and BS8599-2

CM0805

PRE-INJECTION WIPES

- Reduce bacteria preceding injections
- Individually wrapped wipes
- Impregnated with Isopropyl alcohol
- Bactericidal alcohol will kill 90% of bacteria on skin surface
- Ideal for pre-operative skin cleansing and preparing the skin prior to injections
- 70% Isopropyl alcohol

CM1718

DISINFECTANT SURFACE WIPES

- Compliant to EN1276 and EN13727
- Pseudomonas aeruginosa, Staphylococcus aureus, MRSA, VRE, E.coli
- EN14476 Norovirus, HIV, Hepatitis C, MERS Coronavirus, Influenza A H1N1
- EN1650/EN13624 Candida albicans
- Fast contact times from 15 seconds
- Wipes are non-smearing

CM0817

CLINELL SPILL WIPES

- Including one super absorbent spill pad and two disinfectant wipes
- Patented revolutionary new product specifically developed to deal with bodily fluid spills in a quick and efficient manner
- Replacement for current blood spill kits which consist of chlorine tablets and granules, diluters and scoopers
- It is proven to kill all known micro-organisms associated with blood, vomit, urine and faecal spills. This includes hepatitis B & C, HIV, Clostridium difficile and Norovirus

CM1904

CLINELL UNIVERSAL WIPES

- Patented antimicrobial formula they can be used as a skin friendly, disinfectant and detergent wipe - replacing the need for multiple wipes and surface cleaners
- Proven to kill at least 99.999% of germs
- This revolutionary formula contains a mix of different biocides
- Each biocide has a different mechanism of action

CM1902 (200) CM1907 (100)

CLINELL ANTI-BACTERIAL HAND WIPES

- Clean and disinfect in one easy step
- They work in 10 seconds, killing at least 99.999% of germs
- Great to keep close-by in your bag, car, home or office
- Dermatologically tested, containing aloe vera and moisturisers to help maintain healthy skin

CM1903

CLINELL ALCOHOL WIPES CAW150L

- Resealable flip top
- Ultra-quick drying, smear-free disinfection wipes
- High-quality 70% isopropyl alcohol kills 99.999% of pathogens on surfaces and non-invasive medical devices including MRSA, E. coli, Pseudomonas and Enterococcus
- Wipes contain 25gsm non-woven spun bond, meaning fewer are needed to clean the same area

CM1960

CLINELL BIODEGRADABLE SURFACE WIPES

- Designed for cleaning & disinfecting surfaces and high-touch points
- Antibacterial wipes which kill 99.99% of bacteria and viruses, including E. coli, salmonella, MRSA, norovirus, adenovirus, coronaviruses and flu in 30 seconds
- Dermatologically tested to be kind to skin and safe to use on hard, non-porous surfaces.
- Biodegradable within active landfill conditions and complete with recycle-ready packaging

CM1961

CLINELL BIODEGRADABLE HAND & SURFACE WIPES

- Plastic-free wipes designed for convenient cleaning and disinfecting on-the-go in an easily transportable cup size tub
- One step cleaning and disinfecting wipes which kill 99.99% of bacteria and viruses in 30 seconds, offering a fast acting solution that is ideal for use whether at home or on-the-go
- Dermatologically tested to be kind to skin and safe for everyday use
- Plastic-free and complete with recycle-ready packaging
- Effective against all enveloped viruses and limited non-enveloped viruses
- No bleach, no taint
- Suitable for use around babies & pets
- Dermatologically tested

CM1962

CLINELL 500ML UNIVERSAL DISINFECTANT SPRAY

- For surface disinfection and cleaning of non-invasive medical devices

CM1909

CLINELL UNIVERSAL DISPENSER

- Clinell Universal Dispenser - Suitable for the 100 and 200 pack

CM1908

BIOGARD 200 SOFT PACK HAND & SURFACE WIPES ALCOHOL FREE

- Easy to use, unique industry-leading formulation that cleans and disinfects in the toughest of conditions
- Use on hands and surface
- Large wipe size to maximise coverage and clean larger surface areas
- Fast acting contact time as short as 30 seconds, speeds up cleaning and disinfectant
- High quality cloth makes wipes more durable and longer lasting
- Suitable for use on hands and body, work surfaces, floors and walls, fabric and furnishings, equipment and utensils, Medical equipment and supplies
- Effective against 99.99% of bacteria, fungi, viruses, spores and mycobacteria including ESKAPE pathogens

CM2300

BIOGARD ABSORB POWDER 100G SHAKER TUB

- Designed to be used in any environment where you need to quickly, hygienically, and safely clean up fluids
- Safe to use as it contains a bactericide to assist in deactivating harmful organisms
- Super absorbent as it can absorb up to 300 times its own weight in liquid
- Economical in use as it requires less powder to clean
- Product is easy to use: sprinkle powder on spill, leave to absorb, then scoop up
- Suitable for use on all surface

CM2302

BIOGARD HAND & SURFACE SANITISER 10ML PEN

- Hygiene on the go
- For use on contact surfaces within IVF clinics
- MEA Tested
- VOC Free
- Alcohol Free
- Hospital grade protection independently tested to the highest European standards (EN1276, EN1500, AFNOR, EN14476, EN12504, EN13727)
- Protect against 99.9% of bacteria, viruses and spores tested
- Non-hazardous – Conform to the latest health and safety legislation
- Convenient – use as a standalone hand decontaminant in situations where clean water is not available for washing
- Alcohol free, PH neutral and dermatologically tested so gentle on skin
- No sticky or greasy residue left on hands
- Effective in under 30 seconds and long lasting residual efficacy

CM2303

BIOGARD 500ML ALCOHOL FREE FOAM

- Alcohol free
- Protects against 99.9% of bacteria, viruses, and spores tested
- Independently tested to the highest British and European standards (EN1276, EN1500, AFNOR, EN14476, EN12504, EN13727)
- Non-hazardous and non-toxic and has been MEA tested
- Use as a standalone hand decontaminant in situations where clean water is not available for washing
- pH neutral and dermatologically tested, so gentle on skin
- No sticky or greasy residue left on hands
- Effective in under 30 seconds and long lasting residual efficacy

CM2304

BIOGARD 40 GRAM SACHET

- A fast activating powder that quickly absorbs all types of body fluid and chemical spillages
- Economical in use, requires less powder to clean up than some alternative brands
- Product can absorb up to 200 times it's own weight in liquid
- Powerfully effective, contains a bactericide to assist in inactivating harmful organisms
- Product is easy to use, sprinkle powder on spill leave to absorb then scoop up

CM2305

- Wall fixing and carry handle
- Can hold accident or first aid book
- Security loop for security seal

CM1029

DEFIBRILLATORS & RESUSCITATION KITS

There are 30,000 out of hospital cardiac arrests every year and having access to an AED (Automated External Defibrillator) will save lives.

It is now widely considered that 'All businesses shall provide an AED for anyone on site' and 'an AED shall be accessible within two minutes from any location on the site'.

The two minute rule is important as if you can begin resuscitation with an AED within two minutes there is a 90% chance of survival, which decreases 1% for every minute thereafter.

Time and accessibility are crucial to survival.

We have a wide range of AEDs cabinets, bags and accessories, which can sometimes be confusing in choosing the right defibrillator for your business.

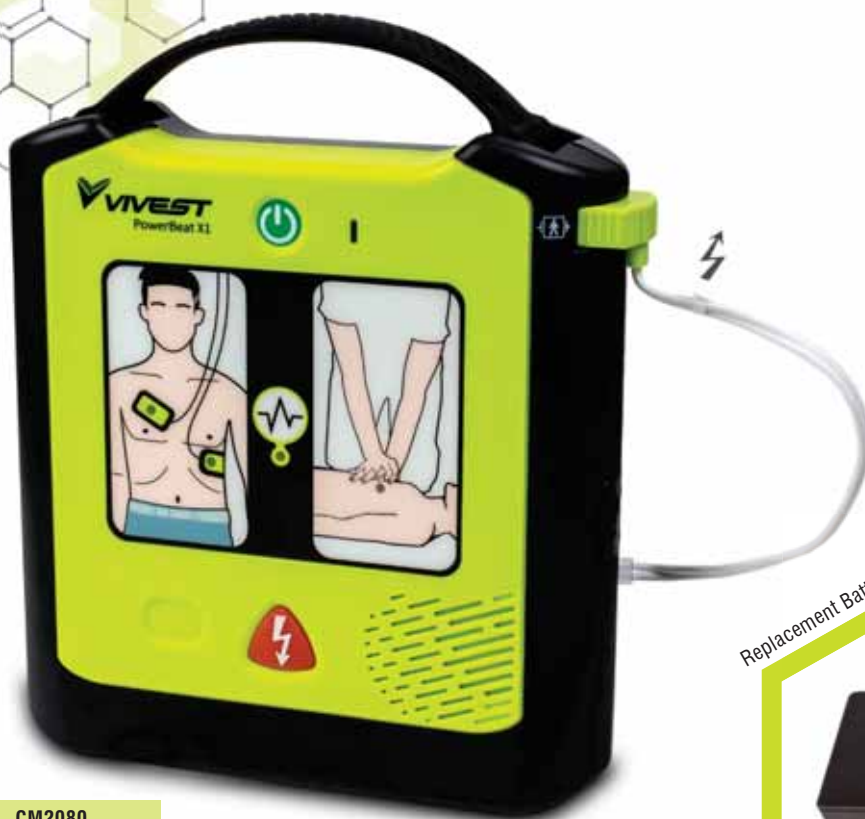

Defibrillators and other resuscitation equipment are becoming essential parts of all first aid requirements as increased training and an increase in the general understanding that the availability of defibrillators in the workplace make a real difference to saving lives.

VIVEST POWERBEAT X1 SEMI-AUTOMATIC AED

The Power Beat X1 Semi-Automatic AED is a slimline and lightweight device making it ultra-portable to any location. A clear instructional pictogram display and loud verbal commands guides the user making it one of the easiest to use on the market even with no previous training. With complete reliability, daily self-testing ensures device is ready to use and with a protection grade IP55 and no need for a carry case.

CM2080

- Semi-Automatic AED
 - IP55 protects against dust and wet environments
 - Daily self-testing ensures device is ready to use
 - Battery life of 4 years and capable of up to 200 shocks
 - Time to shock 7 seconds
 - Smart Pads life of 4 years which allow for biphasic shock
 - CPR features with metronome
 - Algorithm capable of detecting implants such as pacemaker and internal defibrillator
 - Can withstand free fall damage from a height of 1.5M onto hard surfaces
 - Automated ECG recording of up to 8 hours
 - Shock button has built in failsafe button to alleviate risk of failure
 - Able to identify a pulse and make the decision not to shock
 - Other language options available
- Size (H X W X D) cms 23.2 x 20.9 x 5.9
 - Lightweight 1.5kg
 - Energy selection – Adult – 150 Joules
 - Warranty 8 years on unit

Replacement Battery & Pads (sold separately)

CM2082

CM2083

VIVEST POWERBEAT X3 SEMI-AUTOMATIC AED

The Power Beat X3 Semi-Automatic AED is a slimline and lightweight device making it ultra-portable to any location. Semi Automated

CM1935

DEFIBRILLATOR POLYCARBONATE CABINET

- Highly impact resistant polycarbonate outdoor cabinet
- Fire retardant to UL94 VO (will not support fire)
- UV stabilised; will not be affected by sunlight
- Double skin clamshell design with full IP66 rating
- Thermostatically controlled heater
- Motion sensor LED light
- Lightweight construction, only 10kg
- Fully recyclable material
- Cabinet dimensions 465x435x240mm
- 10 Year limited guarantee
- Made in the UK

c/w Locker Heater Light

CM1235

Unlocked Heater Light

CM1237

DEFIBSAFE 2 EXTERNAL CABINET

- Tough Polyethylene body
- Polycarbonate Door
- Metal hinges with security fixings
- Double Skin Construction
- Low Energy – Low Voltage
- 3 Bolt fixing to wall
- Protection against the elements
- IP66 rated against dust and water ingress
- Thermostatically controlled heater prevents freezing
- Air circulation fan prevents condensation
- Safety cut out
- LED Lighting
- Unique location code
- Stainless steel mechanical lock (CM1238 version)

c/w Lock

CM1238

No Lock

CM1239

DEFIBRILLATOR MILD STEEL CABINET INTERNAL

- Professional defibrillator cabinet for indoor use
- Made from powder coated steel with large Perspex viewing window
- Includes strobe light and alarm that can be set to activate on door opening -this is used to alert people that the cabinet has been opened for security purposes or to raise the alarm that a defibrillator is required
- External dimensions are 450 x 450 x 200mm
- This item is shipped directly from the manufacturer, please allow 7 days for delivery.

CM1217 (White)

CM1218 (Yellow)

INDOOR DEFIBRILLATOR CABINET

- Provides safe and visible storage for AEDs
- Clear door allows the visual inspection of the AED
- Incorporated shelf allows for storage of additional items
- Available with either a key lock or thumb lock
- Provided with a spare key
- Dimensions 30 x 14 x 46 cms

CM1225

INDOOR ALARMED DEFIBRILLATOR CABINET

- AED safety cabinet
- Magnetic Closing for easy access
- White powder coated
- Audio alarm to raise awareness of emergency and call for assistance in noisy environments
- Acrylic Window for easy viewing and visual inspection
- Suitable for all defibrillators
- Power supply 3X AA Batteries

Dimensions:

- Width - 370mm/14.6 inches
- Height - 370mm/14.6 inches
- Depth - 170mm/6.7 inches
- Weight - 4kg/9lbs

CM1243

AIVIA DEFIBRILLATOR CABINET WITH HEATING AND ALARM

CM1219

CM1220

- Perfect indoor or outdoor solution to protecting and storing your defibrillator
- Designed with two sections providing amazing shock resistance properties
- Combines a Polycarbonate cover with an ABS chassis as 2 distinct parts
- Internal heating to keep your defibrillator at optimum performance temperature
- Defibrillator also protected by coated seals and LEDs installed for day/night lighting
- 105db audible alarm triggered once the cabinet is opened in an emergency
- IP rating 44
- Ideal with all AED (automated external defibrillator) models
- 2 year warranty period for the cabinet

CM1219 (No Lock)

CM1220 (With Lock)

NF 1200 BATTERY

- Replacement battery for the NF1200 I Pad Saver Defibrillator

CM0485

G5 DEFIBRILLATOR REPLACEMENT BATTERY

- Powers the Cardiac Science Powerheart G5 defibrillators

CM1206

HS1 BATTERY

- Long-life (4 year) disposable lithium battery for use with Philips HS1 & FRx Defibrillators

CM1230

SP1 DISPOSABLE BATTERY

- Disposable battery is for use with the iPAD SP1 defibs

CM1228

G3 AED BATTERY

- The Intellisense battery is the power behind the Powerheart G3 AED

ADULT DEFIBRILLATOR PAD SET (DDP-100)

defibtech

- Replacement adult defibrillation pads for use with the LifeForce AED

CM1737

PAEDIATRIC DEFIBRILLATOR PAD SET (DDP-200P)

defibtech

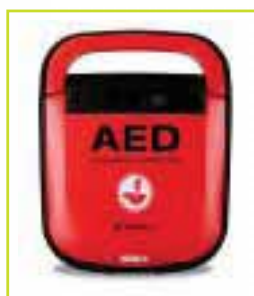

- For use on children over the age of 1 years old up to 8 years of age

CM1932

MEDIANA A15 PAEDIATRIC PADS

MEDIANA
HEARTON
AED A15

- Adult/Paediatric pads for Mediana A15 Heart On Defib

CM0972

HEARTSINE ADULT PAD PACK

HeartSine

- HeartSine PAD-Pak combined battery & electrodes

CM1260

ADULT PADS LIFELINE VIEW DEFIB

defibtech

- Pad package has a two-year shelf life
- Pads should be stored connected to the AED
- Extra pads can be stored with the defibrillator

CM1938

HS1 ADULT PADS (1 PAIR)

- Adult Defibrillation pads for use with Philips Heartstart HS1 Defibrillator

CM1229

G3 AED PADS (1 PAIR)

- These pads are compatible with all Powerheart G3 series AEDs

CM1221

SET OF GUEDAL AIRWAYS

- Used to prevent the tongue from obstructing the airway during resuscitation
- Suitable for use on unconscious patients
- Bite block in their design to prevent biting of tongue and airway occlusion
- Come in different sizes and are colour coded for easy identification of sizes
- Set of 8 airways

CM0476

G5 STORAGE BRACKET

- For storing the Cardiac Science Powerheart G5 defibrillators
- Helps identify the correct storage location

CM1207

DEFIBRILLATOR WALL HANGER

- Suitable for all defibrillators

CM1223

AED DEFIBRILLATOR WALL BRACKET

- Increases visibility of the defibrillator unit
- Keeps the AED easily accessible
- Ideal for our full range of AED units

CM1210

AED RESCUE READY/PREP KIT

- P1 x CPR Facemask
- 2 x Sterile Saline Wipes
- 1 x Pack of 5 x 5 cm Sterile Gauze Swabs
- 1 x pair tuffcut scissors
- 1 x prep razor
- 1 x biohazard bag
- 1 x pair nitrile disposable gloves
- 1 x Foil blanket
- Supplied with either a deluxe bag or a standard bag
- Bag can be own branded with customer logo (min order 50 kits)

CM1113 (Deluxe Bag)

POCKET FACE MASK

- One way valve with membrane to prevent cross infection
- Replacement valves available
- Comes in a compact hard case

CM0471

FACESHIELD

- Prevent direct contact with mouth, nose and face
- Plastic sheet and hydrophobic filter helps prevent possible contact with victim's saliva or blood
- Bi-directional filter

CM0472

REVIVE AND RESUCITATION DEVICE

- Blue Dot Revive-Aid comes complete with a one way valve and assists in minimising the risk of cross infection when administering mouth to mouth.

CM0473-23

RESUSCIADE IN POUCH

- Handy resuscitation kit
- Shield and one way valve reduces risk of cross infection
- With non-sterile pre-powdered vinyl gloves for total protection
- Stored in a handy hook and loop closing key fob for convenience

CM0474

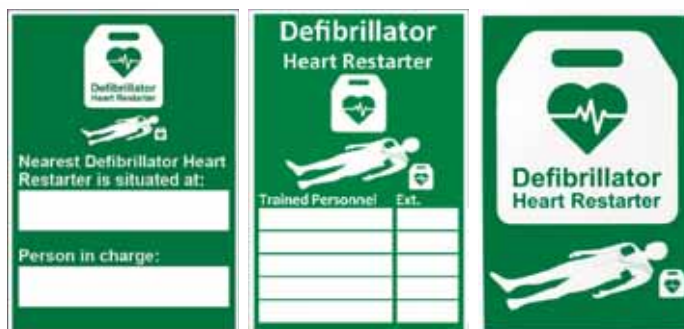

VENTAID

- A one-way valve type resuscitation device which allows the user to give lifesaving artificial respiration, in all conditions whilst at the same time providing a hygienic barrier protection

CM0475

AED AUTOMATED EXT DEFIB SIGN

- Complies with BS 5499 Part 1, Part 4, Part 5 and The Health & Safety (Safety Signs & Signals) Regulations 1996
- 20 x 30cm
- Rigid plastic

SPORTS FIRST AID

Actually designed with the sportsman in mind, our range of three kits are full of product, developed to treat injuries received in a wide range of sporting events and teams from the individual to the school team, to the large multi participant event.

Click Medical provides a wide range of sports related first aid products to deal with bruises, bumps, cuts and minor injuries that occur on the sporting field.

Hot and Cold Therapy

We have a wide range of instant ice packs of varying sizes, resusable hot and cold packs, an instant heat pack and freeze sprays to deal with bumps and bruises giving instant and long term relief for these sporting injuries.

We also supply a range of other products to help with dealing with sports field injuries including:

Blister Plasters – for protection of feet and hands and protect against abrasion

Wound Wash – for quick cleansing of the wound

Spray Plasters and Bandages – create a barrier to prevent further injury and infection to the wound area.

FOOTBALL FIRST AID KIT

Ideal for football teams as well as general sports first aid applications. Contains all of the items needed to treat a minor injury on the playing field. Includes bandages, sterile wound dressings, sterile eyewash & water spray bottles.

HYPAGUARD CELLULAR BLANKET

- Provides warmth and comfort to patients
- For general use
- Washable

CM1701

SECA 213 MEASURING ROD WITH CARRY CASE

WEIGHING SCALES WITH HEIGHT MEASURE

Height Measure

- At only 2.4 kg, the Seca 213 measuring rod is especially suitable for use in the field but also ideal for doctors' practices and paediatric hospitals
- The measuring rod can be dismantled into several pieces and set up easily and quickly
- The spacer keeps the rod straight and stable without any fittings
- As the scale is printed along the side of the measuring rod, it's easy to read off the result while measuring, thus guaranteeing precise results - up to a height of 205cm
- Measuring range: 20 - 205 cm
- Graduation Length: 1 mm
- Weight: 2,4 kg. Dimensions: 337 x 2130 x 590 mm / 337 x 177 x 624 mm when folded
- Functions: Mobile measuring scale

Scales

- Lightweight, compact design
- Durable and stylish glass plate scale
- Select between Kg/lb
- 180Kg/400lb capacity
- SENSE ON technology step on automatic activation to start weighing auto off 4 to 6 seconds after use
- Measures from 0.1Kg to 180Kg
- Increments 0.1Kg/0.2lb
- Drawing on A&D's industry leading measuring accuracy
- Uses 1 x CR2032 Button Cell battery
- 5 year warranty

A clear step towards a healthy lifestyle, the A&D UC-502 Precision Health Scale uses high-precision sensors to instantly deliver accurate results. This highly accurate, stylish, convenient, home use scale is accurate to:

0-50.0kg: ± 0.4 kg

50.1-100.0kg: ± 0.5 kg

CM1947

LIGHTWEIGHT TRANSIT WHEELCHAIR

- Ideal for general use on flat surface
- Lightweight wheelchair with puncture proof hard tyres
- Padded vinyl seat and half folding back canvas
- Quick release foot and arm rests
- Folds to 32cm width

CM1126

LIGHTWEIGHT TWO FOLD STRETCHER

- Cost effective casualty movement for minor accidents
- Lightweight folding stretchers manufactured from high-grade aluminium for maximum strength
- PVC coated, polyester bed is anti-bacterial, stain, chemical and crack resistant
- Rubber handles offer excellent grip
- Includes carry bag

CM1124

THREE CURTAIN PRIVACY SCREEN

- Powder coated steel construction
- Sturdy frame made from a powder coated tubular steel
- Wipe down non-laundry panel curtain, making it a hygienic option for use in hospitals and care homes
- 2 smooth running non-marking castors, making the frame incredibly sturdy
- Can be folded away, with the interlocking legs providing further stability when standing freely
- Quick and easy to assemble
- Length: 55 inches/139.7cm
- Height: 66.5 inches/168.9cm and panel height: 47 inches/119.4cm

CM1711

AIR FOR LIFE

PERSONAL EVACUATION KITS

AIR FOR LIFE

- The AirForLife Evacuation Kits are designed to enable the evacuation from fire or other emergency situations including, high rise living and commercial buildings, tunnels, mining, rail or anywhere escape, or rescue might be a risk
- The kits include:
 - Patented AirForLife emergency escape device
 - Universal Goggles - designed to improve visibility and protect the eyes from smoke and debris
 - Cyalume Lightstick - to help light up the evacuation path, or signal to potential rescuers
 - Cooling Towel - simply dampen and the unique towel formulation, retains water and can be used to keep head, neck and arms cool
 - Holster - the unique AirForLife holster is designed to quickly throw over your shoulder and hold the AirForLife cylinder close to your side, keeping your hands free

CM1991 (1 Person) CM1992 (2 Person)

ESCAPE DEVICE

HOLSTER

CM1995

CM1990

OXYGEN FIRST RESPONSE KIT

- AirForLife is a patented emergency escape device that provides the user with a self-contained oxygen supply (22 litres)
- It gives the user a valuable oxygen supply in a situation where their oxygen supply has been significantly reduced or has become contaminated, for example during a fire, gas leak or terrorist attack
- The AirForLife device enables the user to breathe for a more prolonged period of around 10 - 12 minutes, giving them time to escape or to be rescued and reducing any potential respiratory damage or failure, thus reducing the loss of life
- This product is for anybody who works or lives in a confined area, where access to the outside world in the event of an emergency may not be a quick process, for example, workers/residents who work/live in high rise blocks or staff or commuters working/traveling underground
- AirForLife would also benefit those less able or unable to evacuate themselves from an emergency situation

CM1989

PRO2 OXYGEN

- High-purity, breathable oxygen to aid in the recovery
- Revitalizes during periods of physical or mental lethargy
- Stimulates the body at times when peak performance is required
- The canister comes a blue inhaler cup-adaptor for the user to place around the mouth, press down and inhale
- Specially designed to store a much larger volume of oxygen
- Delivers up to three times the quantity of similar container volume products
- PRO2 contains 20 litres of oxygen in a 650 ml canister

CM2000

PRO2 OXYGEN AND MASK

- Holds more than 3 x more oxygen than can be contained in a similar pressure canister
- Canister is filled with 22 litres of high purity (99.5 %) oxygen and comes equipped with a high concentration, comfortable and lightweight oxygen mask and tubing designed for optimal flow, giving a more efficient and pleasurable experience
- Mask is designed to reduce environmental impact and the can's aluminium construction is lightweight and more durable for outside use
- Contains an adsorbent specially designed to store a much larger volume of oxygen than could be otherwise stored using compression alone
- Delivers up to three times the quantity of similar container volume products
- Owing to the new technology, the can may still feel full when all of the oxygen has been used
- Contains 22 litres of oxygen in a 750ml aluminium can (Dimensions: diameter 66 mm, height 218 mm).

CM2002 (2 Canisters) CM2003 (1 Canister)

PRO2 OXYGEN REFILLS X 2

- PRO2 Oxygen is an unrivalled product which holds more than 3 x more oxygen than can be contained in a similar pressure canister
- The ALL NEW PRO2 canisters are filled with 22 litres each of high purity (99.5 %) oxygen
- What makes the PRO2 brand special is that it contains an adsorbent which is specially designed to store a much larger volume of oxygen than could be otherwise stored using compression alone
- For this reason the device contains and delivers up to three times the quantity of similar container volume products, offering by far and away the best value breathing oxygen on the market
- Owing to the new technology, the can may still feel full when all of the oxygen has been used
- Contains 22 litres of oxygen in a 750ml aluminium can (Dimensions: diameter 66 mm, height 218 mm).

CM2004

EMERGENCY EVACUATION

All our evacuation equipment and kits are there to use at a moment's notice to aid in the event of a first aid emergency or evacuation.

For safe evacuation in the event of an emergency, if you have anybody with mobility impairments you need to be able evacuate the building safely.

We offer a full range of evacuation chairs to negotiate stairs to assist in an emergency and training in order to operate a chair competently.

EV-7000 EVACUATION CHAIR

SAFETY CHAIR

- Single person operation up to 200kg (441lbs)
- Easy to open, ready to operate in seconds
- Provides a rapid solution for safe emergency upstairs and downstairs evacuation
- Simple to operate
- Lightweight construction
- Minimal moving and handling required
- Allows small operators to transport passengers larger than their size
- Foldable for easy storage
- Fire retardant material
- Wall mountable
- Low maintenance

CM7000

EV-2000 EVACUATION CHAIR

SAFETY CHAIR

- Single person operation up to 159kg (350lbs)
- Easy to open, ready to operate in seconds
- Provides a rapid solution for safe emergency upstairs and downstairs evacuation
- Simple to operate
- Lightweight construction
- Minimal moving and handling required
- Foldable for easy storage
- Fire retardant material
- Wall mountable
- Low maintenance

CM7002

EV-4000 EVACUATION CHAIR

SAFETY CHAIR

- Single person operation up to 200kg (441lbs)
- Easy to open, ready to operate in seconds
- Provides a rapid solution for safe emergency upstairs and downstairs evacuation
- Simple to operate
- Lightweight construction
- Minimal moving and handling required
- Allows small operators to transport passengers larger than their size
- Foldable for easy storage
- Fire retardant material
- Wall mountable
- Low maintenance

CM7004

EV-5000 EVACUATION CHAIR

SAFETY CHAIR

- Simple to operate
- Single person operation in descent
- Easy to open, ready to operate in seconds
- Robust and compact in size
- Lightweight construction
- Provides a rapid solution for safe emergency evacuation
- Minimal moving and handling required
- Allows small operators to transport passengers larger than their size
- Foldable for easy storage
- Wall mountable
- Low maintenance

CM7005

EV-8000 EVACUATION CHAIR

SAFETY CHAIR

- Weight carrying capacity up to 227kg (500lbs)
- Easy to open, ready to operate in seconds
- Simple to operate
- Single person operation up to 200kg (441lbs)
- Lightweight construction
- Provides a rapid solution for safe emergency evacuation
- Minimal moving and handling required
- Allows small operators to transport passengers larger than their size
- Foldable for easy storage
- Fire retardant material
- Wall mountable
- Low maintenance

CM7006

EVACUATION CHAIR STAND

SAFETY CHAIR

- A self-standing support suitable for mounting the safety chair
- Avoids the need for wall mounting brackets

CM7001

EVACUATION SAFETY MAT

SAFETY CHAIR

- Dual inner foam provides protection and comfort for patient
- Maximum carrying weight 300kg
- 2 Safety belts and foot pocket to hold the patient safely and securely in place
- Tough slippery coated underside to assist transfer over floor surfaces and stairs
- Complete with storage pouch which can be wall mounted for rapid deployment (fixings not included)
- Dimensions (L x W x D) - 1900 x 600 x 40mm
- Manufactured in the UK

CM7003

EVAC + CHAIR 1-700H EVACUATION CHAIR

- Telescopic extendable handle
- Stainless steel frame construction
- Adjustable brake
- Quick and easy to open
- Compact storage
- Detachable seat and backrest
- Adjustable patient straps
- Wall securing brackets
- Made in the UK
- Payload capacity 159kg

- Height 1140mm (folded)
- Width 400mm (folded)
- Depth 360mm (folded)
- Weight 14.5kg

CM1132

EVAC+CHAIR 1-200 CARRY LITE CHAIR

- The chair unfolds in one swift movement for immediate use
- Lightweight aluminium construction
- Quick & easy to use
- Lifting handles for effective grip
- Large wheels for stability over rough terrain
- Unique locking system
- Includes patient restraints
- Made in the UK
- Payload capacity 200kg
- Height 770mm (folded)
- Width 435mm (folded)
- Depth 270mm (folded)
- Weight 6.0kg (unladen)

CM1128

EVAC+CHAIR 1-300H-MK4 EVACUATION CHAIR

- Lightweight
- One person operation
- Easy to use
- No heavy lifting required
- Includes patient restraints
- Made in the UK
- Payload capacity 182kg
- Height 1050mm (folded)
- Width 520mm (folded)
- Depth 200mm (folded)
- Weight 9.5kg

CM1129

EVAC+CHAIR 1-500 EVACUATION CHAIR

- Bariatric capability
- Increased payload capacity 500lbs/227kg
- Large rear wheels fitted as standard for prolonged use
- Easy to use- one/two person operation
- Fold away grip handles
- Foot Rest/Restraint Strap
- Extension strap
- Enhanced patient restraints
- User guide
- Made in the UK
- Payload Capacity 227k
- Height 1150mm folded)
- Width 520mm (folded)
- Depth 220mm (folded)
- Weight 13Kg (unladen)

CM1130

EVAC+CHAIR 1-600H EVACUATION CHAIR

- Retractable rear and front grab handles
- Suitable for 2 to 4 operators to carry
- Easy to use
- Lightweight
- Two additional handles
- Patient restraints
- Made in the UK
- Payload capacity 182kg
- Height 1030mm (folded)
- Width 600mm (folded)
- Depth 270mm (folded)
- Weight 11kg (unladen)

CM1131

TRI-WHEEL TRANSIT WHEELCHAIR

Ideal for use on routes with several stairs to the exit point for organisations that have minimum staff available, the innovative tri-wheel system can assist the operators in reducing the manual handling required to ascend or descend the stairs. Note: A minimum of 2 operators are required to carry the chair but additional may be necessary depending on the weight to be lifted. The Tri-wheel Transit Wheelchair will make a super addition to those needing transport at home, as well as in hospitals and care homes.

- Minimum 2 person operation
- Sturdy, lightweight construction
- Seatbelt
- Carrying/lifting points
- Comfortable seat and back support
- Arm and footrests
- 3 wheeled ascent/descent mechanism

- Lighter compared to other similar chairs making lifting easier
- Acts like a wheelchair for easy manoeuvrability when on level ground
- The client feels secure once the safety belt fastened
- Flat seat, arm, and footrest help to relax the client
- Integrated handles ensure the chair is carried in the correct position
- Handle and the seat can be folded down to minimize the size
- Rear tri-wheels help reduce manual handling

Chair Height 128cm
Seat Height 47cm
Load capacity 130Kg

CM7200

TRANSIT WHEELCHAIR FOLDING 4-WHEEL

Primarily used to transport persons across level surfaces to a place of safety, our 4 Wheel Transit Chairs are similar to those used by hospitals and ambulance services and they can be used to carry patients either up or down the stairs. Note: A minimum of 2 operators are required to carry the chair but additional may be necessary depending on the weight to be lifted.

- Weighs under 10Kg
- Sturdy construction for ultimate safety
- 4 wheels for easy manoeuvrability
- Quick-release seatbelt
- Padded seat
- Footrest
- Enhanced sure-grip handle
- Built-in carry handles
- Folds down to compact size

- Helps reduce total weight when a person is in the chair
- Acts like a wheelchair for easy manoeuvrability when on level ground
- The client feels secure once the safety belt is fastened
- Flat seat and footrest help to relax the client
- Integrated handles ensure the chair is carried in the correct position
- Handle and the seat can be folded down to minimise the size

Width 520mm
Weight 9.6kg
Load Capacity 120kg

CM7201

EVACUATION CHAIR EXCEL

The Excel model with its 227kg weight capacity offers enhanced features as standard to extend its potential operating use for any organization. Be it, staff, visitors or members of the public who may require assistance, the Excel chair can do the job. This is our top-selling evacuation chair.

- 4 permanently deployed wheels with safety brake on the rear
- Wide flat seat, fully open
- Weight-bearing armrests
- Footrest
- Padded head cushion
- 3-point client support harness
- Anti-slip operator handles
- Integrated carry handles
- Additional leg strap
- Fold-flat for wall mounting

- 4 wheels aid manoeuvrability on any level ground
- Open seat and weight-bearing armrest make self-transfer for wheelchair users easier
- Flat seat provides a familiar and comfy seating position
- The cushion offers support of head during the descent
- Over-shoulder harness helps those with weak core strength and offers additional safety over a single belt
- Extra handling grip for the operator during use
- Option to ascend stairs or over obstacles via integrated handles
- Extra safety strap to secure legs of persons with minimal to zero control
- Takes up minimal wall space

Weight 13.6Kg
Load Capacity 227Kg
Length in use 1430mm

CM7202

10 PERSON EVACUATION KIT

- Emergency holdall
- Wind up torch
- 5 x Safety light stick
- Wind up radio
- Compact megaphone
- Emergency phone charger
- Hi-visibility vest
- Hazard barrier tape
- 10 x Foil blankets
- Notebook with pencil
- Transparent A4 grip seal bag
- Transparent grip seal bag – large
- 2 x Sterile burn dressing

First aid kit, comprising of:

- 1 x Guidance note
- 4 x Non woven triangular bandages
- 2 x Large sterile dressing (180 x 180mm)
- 6 x Medium sterile dressing (120 x 120mm)
- 2 x Sterile eye pad dressing
- 20 x Assorted sterile waterproof plasters
- 6 x Alcohol free cleansing wipes
- 1 x Pair of disposable vinyl gloves
- 6 x Safety pins

CM1798

100 PERSON EVACUATION KIT

- Emergency holdall
- Incident controller armband
- Compact megaphone 8 watt with batteries
- Wind-up LED torch
- 100 x Emergency foil blanket
- 10 x Safety whistle
- 2 x Hand sanitizer 60ML
- 10 x Safety light stick
- 1 x Hazard barrier tape 100M x 7.5cm

First response first aid kit, comprising:

- 1 x Microporous tape 2.5cm x 10m
- 1 x HSE guidance leaflet
- 4 x Sterile eye pad bandages
- 6 x Clinical waste bags
- 2 x Pair medium latex gloves
- 1 x First aid scissors
- 1 x Tuff cut paramedic scissors

- 10 x Alcohol-free wipes
- 3 x Large standard dressings
- 8 x Medium sterile dressings
- 5 x Sterile eye wash 20ml
- 1 x Foil blanket
- 20 x Stretch fabric plasters
- 20 x Washproof plasters
- 2 x Burn gel sachet
- 2 x Resuscitation face shield
- 6 x Triangular bandages
- 1 x Eye wash bottle 500ml
- 1 x Bag of safety pins
- 1 x Instant ice pack
- 1 x Shoulder carry bag

CM1758

FIRE HORN ALARM STATION

- Can be portable or fixed with a wall hanger
- Warn people in danger with 120 decibel air horns
- No need for batteries, electricity or external power
- Use this station as a temporary fire alarm solution or as a stand-alone fire alarm option in portable buildings, marquees, barns etc
- The station consists of a wall mountable box with translucent front door and an emergency air horn

CM1760

120 DECIBEL AIR HORN

- On site alarm system
- Back-up alarm system for any company
- Primary alarm system for smaller companies
- Emergency signalling system for workers on manufacturing floors
- Confined space alarm system
- Personal protection

CM1759

MULTI-FUNCTION SOLAR RADIO

- USB charging/hand crank /solar charging
- FM/AM radio
- LED flashlight
- External emergency charging

CM7047

SAFETY WHISTLE

- CE EN394 ISO12402 approved
- Capable to produce 100+ decibel sound
- Non-corrosive and buoyant in seawater
- Suitable for either belt or lanyard/cord attachment
- New enhanced ergonomic feel
- Finger grip area makes whistle easier to hold

CM1738

HANDHELD COMPACT MEGAPHONE

- Folding handle and wrist strap for portability
- Voice or siren switch
- Sliding volume control

CM1754

EMERGENCY BLANKET

- Protection from cold, wind and rain
- Effective aid in the prevention and treatment of hypothermia
- Seals with self-adhesive strip, re-opens to allow access

CM1735

RED/WHITE BARRIER TAPE

- Non-adhesive economy tape designed for marking out-of-bound and hazardous areas
- Length: 500M

CM1753

2 LED ABS DYNAMO TORCH

- The dynamo mechanism that allows it to be easily recharged, without the need for new batteries or an external power source
- Electrical energy is generated through mechanical transmission
- The torch is also equipped with an easy-to-use on/off switch.
- Equipped with a practical hook that makes it easy to hang it

CM7053

CYALUME 12 HOUR 6" LIGHT

CYALUME
12 HOUR 6" LIGHT

- 12 hours of 360 degree illumination per stick
- Guaranteed 4 year shelf life, no maintenance necessary
- Individually foiled for easy, safe storage
- Nontoxic, non-flammable and waterproof
- Red - danger, Orange - cautionary, Green - safe

CALCIUM GLUCONATE GEL 40G

- High performance gel for Hydrofluoric acid burn
- Combines with and neutralises the fluoride ion present in HF acid
- Helps to prevent pain and tissue damage caused

CM1708

SAVLON ANTISEPTIC CREAM 30G

Savlon

- Gently soothes and helps prevent infection
- Aids the natural healing of cuts and grazes as well as insect bites and stings, blisters and minor sunburn
- Ideal application prior to the use of plasters or dressings

CM1400

CARE PLUS ANTI-INSECT DEET SPRAY 40% 60ML

care
PLUS

- The strongest insect-repellent product for the skin
- Suitable for tropical destinations (malaria, dengue and yellow fever risks) and European regions
- Effective against biting or stinging insects and against ticks
- Effective against (malaria) mosquitoes and horseflies, effective against ticks, and reasonably effective against large horseflies, gnats and midges
- Must be applied to the uncovered skin

CM2704

60ML CITRIDIOL SPRAY

care
PLUS

- Based on natural lemon eucalyptus extracts
- Effective against mosquitoes, ticks and midges
- Suitable for children aged three months and older
- Suitable for sensitive skin
- Suitable for all destinations
- Offers up to six hours protection
- Does not damage plastics

CM1705

REUSABLE PREMIUM COOL & WARM GEL BREAST PADS

RAPID AID

- Temperature: Delivers approximately 42°C/108°F of warm therapy when heated in a microwave, and approximately 1.5°C/34°F of cool relief when stored in the freezer. Temperature adjustable based on user's preference
- Contour-Gel technology allows the pad to gently contour to the body area being treated and remain flexible when frozen
- Can be placed directly against the skin without the need for a wrap or towel, and can even be placed inside the bra
- Direct-to-skin application with Gentle Touch™ technology

Warm Therapy Relief:

- Relieve engorgement, plugged ducts, mastitis or to encourage let-down
- Use with breast pump to encourage let-down and reduce the time spent pumping
- Blocked ducts and mastitis

Cold Therapy Relief:

- Relieve pain and swelling due to engorgement
- Help alleviate blocked ducts and mastitis pain

- Dimension: 5" x 16" / 13cm - 41cm

RA1137

INFANT HEEL WARMER

RAPID AID

- Immediately upon activation, this product provides consistent temperature and contours to the baby's heel to increase blood flow, making it easier to find the infant's veins
- Temperature: Delivers approximately 39.5°C/103°F heat when activated at room temperature
- Adhesive strip that holds the product in place
- FTP™ (fold-to-pop) technology, allowing the user to activate the heel warmer simply by folding it in half
- Compact packaging allows them to be taken anywhere, for use at any time
- Direct-to-skin application

Instant Cold Therapy Relief:

- The heel warmer is designed to increase an infant's blood flow, so caregivers can get an accurate heel stick the first time

- Dimension: 3.75" x 5.5" / 9.5cm - 14cm

RA94235

INSTANT WARM PERINEAL COMPRESS

RAPID AID

- Quickly delivers soothing warmth, helping to encourage relaxation of tissues and increased blood circulation in the perineal area prior to childbirth, providing maximum patient comfort with minimal nursing intervention
- Temperature: Delivers approximately 45.6°C/114°F of warm therapy when activated at room temperature
- Extra absorbent compress comes with an adhesive strip to keep it firmly in place
- Longer front-to-back area provides greater coverage and protection from leakage
- FTP™ (fold-to-pop) technology, allowing activation of the cold compress simply by folding it in half
- Direct-to-skin application

Instant Warm Therapy Relief:

- Encourage relaxation of tissues prior to childbirth
- Start the healing process after childbirth and vasectomy procedures (usually 72 hours after the use of cold therapy)
- Muscle tension and menstrual cramps

- Dimension: 5" x 16" / 13cm - 41cm

RA94640

INSTANT COLD PERINEAL COMPRESS

RAPID AID

- Delivers cold therapy to ease pain and reduce swelling of the perineal area, providing maximum patient comfort with minimal nursing intervention
- Temperature: Delivers approximately 4.4°C/40°F of cold therapy when activated at room temperature
- Extra absorbent with an adhesive strip to keep it firmly in place
- Longer front-to-back area provides greater coverage and protection from leakage
- FTP™ (fold-to-pop) technology, allowing activation of the cold compress simply by folding it in half
- Tri-lingual packaging (English, Spanish and French)
- Direct-to-skin application

Instant Cold Therapy Relief:

- Pain and inflammation of the perineal area after childbirth and/or vasectomy procedures

- Dimension: 5" x 15" / 13cm - 38cm

RA95640

BLOOD PRESSURE MONITOR

- The ideal home use monitor
- One button control with latest 3rd generation fully automatic measurement technology
- Unique A&D latex-free and metal-free SlimFit Cuff (22-32cm)
- Irregular Heart Beat (IHB) indicator
- World Health Organisation (WHO) Blood pressure classification indicator for easy and clear understanding of Blood Pressure readings
- 30 reading memory function for recording trending
- Average memory reading function
- Clinically validated to the world recognised European Hypertension Society (ESH) 2010 protocol
- Pack contains free batteries
- 5 year warranty for complete peace of mind (based on normal home usage)

CM1722

DIGITAL THERMOMETER

- Water resistant sensor, it is robust and reliable
- 60 second reading, measurement time will vary by individual and method used
- For Oral, Underarm or Rectal use
- Beeps when measurement complete
- Last temperature reading memory
- Water-resistant sensor
- Auto power off
- °C / °F conversion

CM1727

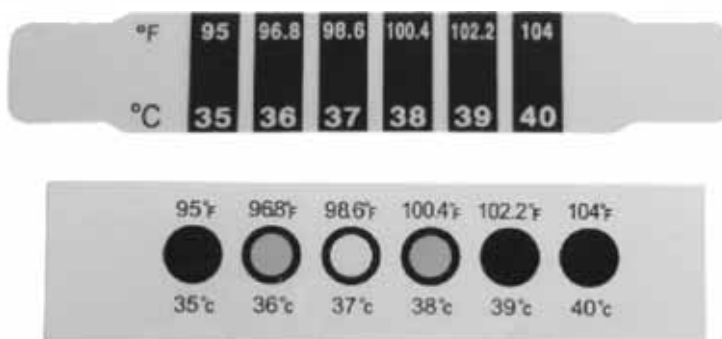

SP300 FINGER PULSE OXIMETER DE/228

- SpO2%, PR and Pleth waveforms are displayed on screen
- The display can be easily rotated to display in 4 directions
- Simple and convenient operation OLED display
- Extremely compact weighing only 50g including batteries
- Low power consumption, two AAA batteries can be continuously operated for 20 hours
- Adjustable background brightness
- Range: 30-235 BPM
- Accuracy: +/- 2 BP <
- Latex free

CM0967

FOREHEAD THERMOMETER

- Provides a quick and easy way of measuring body temperature
- Hold the strip against the forehead and read off the temperature
- Temperature range : 35C(95F) - 40C(104F)
- Temperatures shown in Celcius and Farenheit
- No batteries required
- Bendable
- Easy to use
- Short time to wait for results
- Non-toxic
- Ideal for use at home or pocket sized for use when traveling
- The forehead thermometer reads temperatures in increments of 1 degree and comes with instructions.
- Use the thermometer at room temperature between 15°C and 30°C

CM1778

INFRARED THERMOMETER FOREHEAD AND EAR

- Product Dimension: 152 x 44 x 30mm
- LCD Size: 31.4 x 30.2mm
- Temperature measurement range: 32.0°C - 42.9°C
- Body temperature measurement range: 32.0°C - 42.9°C
- Temperature measurement range: 0°C - 100°C
- Accuracy: Body Temperature: 0.2°C, object temperature: 1°C
- Operating conditions: 16°C - 35°C
- Storage conditions: -20°C - 55°C
- Measure time: 1s
- Measuring mode: Ears, Forehead
- Memory function: Memorable 20 measurement values
- Battery: DC 1.5V 2 AAA Battery (not included)
- Advantages: Sound reminder, temperature alarm, temperature measurement memory, person/object switch, automatic shutdown, C/F switch, three-colour backlight reminder, forehead temperature/ear temperature one-key switch

CM1779

STANDARD DUAL HEAD STETHOSCOPE

- Aluminium Diaphragm and bell chest piece for a wide frequency response
- Chrome plated brass inaurals

WORK SMARTER PLAY *Energise your day!* HARDER

VOOM HYDRO WORX® is a unique 'Smart hydration' drink, exclusively available from Beeswift.

When mixed and diluted with water it provides rapid hydration, to improve your cognitive functions of memory, attention and alertness, whilst boosting your body's energy-yielding metabolism to reduce tiredness and fatigue. The formula adds essential vitamins and electrolytes.

PRODUCTIVITY | ENERGY | WELLNESS | STAMINA | FOCUS | HEALTH

23% faster at responding to information

**After a busy night shift:
25% felt 'improved'
47% felt less tired**

**Hydration
improved by 39%**

**Incident call
concentration
improved by
up to 39%!**

**After a morning shift,
31% felt less tired**
*Over 50% of adults are
deficient in winter months
and when working inside*

THE HYDRO WORX COGNATIVE FORMULA™:

Health &
Medicine

CONTRIBUTES TO...

- reduction of tiredness and fatigue
- maintenance of normal vision
- normal energy-yielding metabolism
- normal functioning of the nervous system
- normal psychological function
- normal function of the immune system

GIVE YOUR WORKFORCE THE BOOST THEY NEED TO PERFORM BETTER

No added sugar,

FOCUSED ON SAFETY

CERTIFICATE

THIS IS TO CERTIFY THAT

by using Carbon Balanced Paper from 01/04/2024 to 30/04/2024

Beeswift Ltd

has balanced through World Land Trust the equivalent of

9,714kg of carbon dioxide

This support will enable World Land Trust to protect

1,855m² of critically threatened tropical forest

Issued on 10/04/2024 - Certificate number CBP024344

Presented by Go Inspire Eclipse

World Land Trust's Carbon Balanced project sites offset emissions through the protection of tropical forest under imminent threat of deforestation and degradation. For further information on the land areas protected through your use of Carbon Balanced Paper please visit: www.carbonbalancedpaper.com and www.worldlandtrust.org/what-we-do/carbon-balanced

A worker in full PPE, including a helmet with a clear face shield, earplugs, and heavy gloves, is using a power tool to grind metal in a factory setting. Sparks are flying from the tool. The background shows industrial equipment and a warehouse-like environment.

3M Personal Safety Solutions.

3M safety solutions work as hard as you do. From the most basic to the most specialised of needs, get the protection you and your workers need with 3M PPE.

3M Disposable Respirators

3M™ Aura™ Particulate Respirator, FFP2, Valved, 9322+

- ▶ Original 3-panel design allows for greater facial movement
- ▶ Low resistance filter technology helps you breathe more easily
- ▶ Sculpted upper panel conforms to the nose and contours of the face for an effective seal
- ▶ 3M™ Cool Flow™ Valve helps reduce heat build-up in hot and humid conditions
- ▶ Easy to store away with flat-fold design and individual wrapping

Maximum usage level: up to 10 x WEL

Product code: 3M9322PLUS / 3M9322BULK

3M™ Aura™ Particulate Respirator, FFP2, Valved, 9322+ Gen 3

- ▶ Original 3-panel, flat-fold design fits a wide range of face shapes and sizes
- ▶ The 3M™ Cool Flow™ Comfort Valve allows a greater percentage of warm, exhaled air to escape, helping to increase your comfort
- ▶ 3M™ Advanced Electret filter material helps you breathe easier
- ▶ Braided headbands are colour-coded (blue for FFP2) for quick and easy identification

Maximum usage level: up to 10 x WEL

Product code: 3M9322PLUSGEN3

3M™ Particulate Respirator, FFP2, Valved, 8822

- ▶ Traditional cup-shaped disposable respirator
- ▶ The 3M™ Cool Flow™ Valve reduces heat build-up inside the respirator – even in hot and humid conditions
- ▶ Durable, collapse resistant inner shell
- ▶ Headbands are colour-coded for quick and easy identification, yellow for FFP1, blue for FFP2 and red for FFP3

Maximum usage level: up to 10 x WEL

Product code: 3M8822 / 3M8822SP

3M™ Particulate Respirator, FFP3, Valved, 8833

- ▶ Disposable FFP3 respirator offering reliable, effective protection against higher levels of fine dust, mists and metal fume
- ▶ The cup shape, twin strap design, nose foam and nose clip ensure comfortable wear over a range of face sizes
- ▶ 3M™ Advanced Electret filter material helps wearers to breathe easily through the respirator for more comfortable protection
- ▶ The super-soft, cushioned inner lining helps workers stay comfortable

Maximum usage level: up to 10 x WEL

Product code: 3M8833SP

3M™ Aura™ Particulate Respirator, FFP3, Valved, 9332+

- ▶ Original 3-panel design allows for greater facial movement
- ▶ 3M™ Cool Flow™ Valve helps reduce heat build-up in hot and humid conditions
- ▶ Embossed top panel helps reduce eyewear fogging
- ▶ Colour-coded headbands for easy identification; red for FFP3 (APF 20)
- ▶ Chin tab designed for ease of positioning and adjustment

Maximum usage level: up to 20 x WEL

Product code: 3M93332PLUS / 3M9332BULK

3M™ Aura™ Particulate Respirator, FFP3, Valved, 9332+ Gen 3

- ▶ Original 3-panel, flat-fold design fits a wide range of face shapes and sizes
- ▶ The 3M™ Cool Flow™ Comfort Valve allows a greater percentage of warm, exhaled air to escape, helping to increase your comfort
- ▶ 3M™ Advanced Electret filter material helps you breathe easier
- ▶ Braided headbands are colour-coded (red for FFP3) for quick and easy identification

Maximum usage level: up to 20 x WEL

Product code: 3M9332PLUSGEN3

3M Welding

3M™ Speedglas™ Heavy Duty Welding Helmet G5-01

Helps protect the wearer's eyes and face from sparks, spatter, harmful ultraviolet radiation (UV) and infrared radiation (IR) resulting from certain arc gas welding processes. The welding helmet also protects against certain airborne contaminants when used with an approved air delivery unit. 3M™ Speedglas™ Heavy-Duty Welding Helmet G5-01 has more adjustable features than ever:

- ▶ Adjustable air flow distribution
- ▶ Attachment system for additional protective accessories
- ▶ Class TH3 CE, NPF 500
- ▶ APF 1000, APF 25, USA NIOSH
- ▶ Flip-up welding helmet suitable for grinding
- ▶ Robust solution
- ▶ Task light as an accessory, powered by 3M™ Adflo™ Battery

3M™ Adflo™ Powered Air Purifying Respirator System with 3M™ Speedglas™ G5-01 Welding Helmet, with Welding Filter G5-01VC, with consumable kit and bag, 617839

3M Maintenance Free and Half Face Masks

3M™ Maintenance Free Gas Vapour and Particulate Respirator 4000+ Series

- ▶ An enhanced valve assembly helps to reduce exhalation breathing resistance for improved breathing comfort
- ▶ Integrated cartridge and filters mean it's ready to use and maintenance free
- ▶ Centrally-positioned exhalation valve helps reduce heat and moisture build-up in hot and humid conditions

Accessories

3M 400 Over-spray Guard

3M 105 Face Seal Cleaner

Product codes:

3M4251+

FFA1P2 R D protects against organic vapours, with a boiling point greater than 65 °C, up to 10 x WEL or 1000 ppm (whichever is lower); 10 x WEL for particulates.

Product codes (continued):

3M4255+

FFA2P3 R D protects against organic vapours with a boiling point greater than 65 °C, up to 10 x WEL or 5000 ppm (whichever is lower); 20 x WEL for particulates.

3M4277+

FFABE1P3 R D provides protection against organic vapours with a boiling point greater than 65 °C, inorganic vapours, and acid gases up to 10 x WEL or 1000 ppm (whichever is lower); 20 x WEL for particulates.

3M4279+

FFABEK1P3 R D provides protection against organic vapours with a boiling point greater than 65 °C, inorganic and acid gases and ammonia up to 10 x WEL or 1000 ppm (whichever is lower); 20 x WEL for particulates.

3M™ Reusable Half Face Mask, Quick Latch, 6500 Series

- ▶ Ideal for intermittent use
- ▶ Proprietary quick latch design allows the respirator to be removed and re-fitted quickly and easily, without disturbing other items of PPE
- ▶ Comfortable in tough environments – the textured silicone facepiece not only conforms to the shape of your face, but also helps to minimise slippage in hot workplaces
- ▶ 3M™ Bayonet Connection offers a flexible system for connection to a wide range of 3M™ gas, vapour and particulate filters

Product code: 6501QL (small), 6502QL (medium), 6503QL (large)

3M™ Reusable Half Face Mask, 7500 Series

- ▶ Extremely pliable, soft silicone facepiece offers exceptionally high levels of user comfort and a good fit over a broad range of face shapes and sizes
- ▶ The 3M™ Cool Flow™ Valve reduces heat build-up inside the respirator – even in hot and humid conditions
- ▶ Built to last: durable construction and a wide range of spare parts
- ▶ 3M™ bayonet connection offers a flexible system for connection to a wide range of 3M™ gas, vapour and particulate filters
- ▶ Adjustable head harness enables the user to obtain a balanced, secure fit. Drop-down feature for easy removal during breaks

Product code: 7501 (small), 7502 (medium), 7503 (large)

3M™ Reusable Half Face Mask and A2P3 Combination Filter Kit HF-3024

- ▶ This handy, ready-to-use kit has been designed with user comfort and convenience in mind. The kit includes a 3M™ Reusable Half Face Mask, HF-302 (size medium) and a 3M™ Combination Filter CF32 A2P3 R D DT-4041E, all in a reusable storage box.

Product code: 3MHF3024

3M™ Fit Test Kit, Qualitative, Bitter, FT-30

- ▶ Qualitative fit test kit including hood, collar, 2 nebulisers, bitter tasting sensitivity solution, bitter tasting fit test solution and laminated user instructions
- ▶ FT-30 uses a test solution of denatonium benzoate to produce a very bitter tasting spray
- ▶ Spare hoods, nebulisers and solutions are also available
- ▶ 3M™ recommends users are face-fit tested before using a respirator and repeated regularly as part of their occupational respiratory protection program.

Product code: 3MFT30

3M Half and Full Face Masks

3M™ Secure Click™ Half Mask Reusable Respirator, HF-800 Series

- ▶ Greater breathability and comfort provided by the world's first quad flow cartridge system
- ▶ Push button to seal check helps bolster confidence that the respirator is properly sealed to the face
- ▶ Confidence that filters and cartridges are installed properly provided by all new 3M™ Secure Click™ connection
- ▶ Low profile half mask design offers a wide field of view and compatibility with certain shields

Product code: 3MHF801 (small), 3MHF802 (medium), 3MHF803 (large)

3M™ Secure Click™ Reusable Full Face Masks, FF-800

- ▶ The quick, easy, one-touch positive pressure push button seal check helps provide improved confidence in respirator fit
- ▶ Two dual-flow gas and vapour filters on each respirator combine to create the world's first quad flow gas and vapour filter system with four airflow paths providing easy breathing and comfort
- ▶ Large lens for excellent field of vision, and treated with Scotchgard™ Protector for improved paint and stain resistance

Product code: 3MFF800

3M™ Reusable Half Face Mask, 6000 Series

- ▶ Twin-filter design for even distribution of weight and minimal obstruction to field of vision
- ▶ 3M™ bayonet connection offers a flexible system for connection to a wide range of 3M™ gas, vapour and particulate filters
- ▶ Can be used with 3M™ Supplied Air Systems for your increased convenience and flexibility
- ▶ Low-profile design minimises interference with field of view

Product code: 3M6100S (small), 3M6200M (medium), 3M6300L (large)

3M™ Reusable Full Face Mask 6000 Series

- ▶ Offers lightweight protection and ease of use
- ▶ Wide-view visor provides excellent visibility and high speed, medium energy (B) impact protection
- ▶ 3M™ Bayonet Connection offers a flexible system for connection to a wide range of 3M™ gas, vapour and particulate filters
- ▶ Can be combined with the 3M™ Supplied Air Regulator S-200+

Product code: 3M6700S (small), 3M6800S (medium), 3M6900S (large), 3M6885VC (lens cover)

3M Powered and Supplied Air

3M™ Versaflo™ Powered Air Respirator Starter Kit, TR-315E+

- ▶ Simple starter kit with all the component parts to get you up and running – simply add the headtop required
- ▶ The 2 selectable flow rate options – 185l/m and 205l/mn – offer more comfort to the user
- ▶ Highly efficient filter captures hazardous dust, mist and fume plus options for nuisance level gases and vapours
- ▶ Intelligent lithium ion battery quickly charges, has no memory effect and incorporates useful charge indicator

Product code: 3MTR315EPLUS

3M™ Versaflo™ Battery, High Capacity, TR-332

- ▶ High capacity, lightweight lithium ion battery pack
- ▶ Charges quickly and has no memory effect
- ▶ Estimated 8-12 hours operating life when used with new filter and fully charged battery
- ▶ Incorporates useful charge indicator

Product code: 3MTR332

3M™ Versaflo™ Powered Air Respirator Starter Kit, TR-619E

- ▶ Simple starter kit with all the component parts to get you up and running. Simply add the headtop required
- ▶ Easy to use, versatile respiratory protection against dusts, mists, fumes and organic vapours
- ▶ Kit includes Turbo Unit TR-602E, A2P filter, filter cover, pre-filters, spark arrestors, easy clean belt, high capacity battery, single station battery charger kit, BT-30 length adjusting breathing tube and airflow indicator

Product code:
3MTR609E

3M™ Versaflo™ Filter, Particulate, Nuisance Level, Acid Gas, TR-3822E

- ▶ Particulate P and nuisance level acid gas (including hydrogen fluoride) filter for 3M™ Versaflo™ Powered Air Respirator TR-300+
- ▶ CE approved to EN 12941
- ▶ For use with 3M™ TR-300+ Powered Air Respirator

Product code: 3MTR3822E

3M™ Versaflo™ Single Station Battery Charger, UK, TR-341UK

- ▶ Charges in under four hours
- ▶ Designed for use with 3M™ TR-332 high capacity battery
- ▶ Charges one battery at a time
- ▶ Store fully-charged batteries on charger, ready for immediate use
- ▶ CE approved

Product code: 3MTR341UK

3M™ Versaflo™ Intrinsically Safe Powered Air Turbo Starter Kit, TR-819E

- ▶ Convenient ready-to-use kit
- ▶ Approved for use with a wide range of 3M™ Versaflo™ Soft Headtops S Series and Rigid Headtops M Series
- ▶ Includes a rechargeable standard capacity lithium ion battery

Product code: 3M819E

3M Powered and Supplied Air

3M™ Versaflo™ Breathing Tube, Self-adjusting, BT-30

- ▶ Length-adjusting breathing tube
- ▶ Compatible with all 3M™ Versaflo™ Headtops and Air Delivery Units
- ▶ Connects the air source to the headtop for reliable, unrestricted clean airflow
- ▶ Features quick release swivel for one handed connection and release
- ▶ A disposable cover is available for cleaning and decontamination operations
- ▶ Additional sleeve is available for increased service life and protection from flying sparks

Product code: 3MBT30

3M™ Versaflo™ S-Series Head Cover, S-133S

- ▶ Entry-level, general-purpose head cover for powered and supplied air respiratory protection
- ▶ Integrated head suspension provides head and face coverage
- ▶ Provides face and eye protection from liquid splash and low energy flying particles and dust (Grade F)
- ▶ No assembly required; ready to use out of the box
- ▶ Weighs 100g
- ▶ Rated to EN 166:2:F:3, EN 14594 3A and EN 12941 TH3

Product code: 3MS133S (S/M) 3MS133L (M/L)

3M™ Versaflo™ Faceshield with Comfort Faceseal M-200 Series

- ▶ Lightweight, compact and well-balanced faceshield with a comfortable faceseal for dusts, spraying and chemical processing
- ▶ Highly versatile – integrated protection from a range of respiratory, face, bumpcap, eye and hearing hazards
- ▶ Increased control and comfort with the deflector which allows users to direct the airflow inside the headtop
- ▶ Coated polycarbonate visor provides added chemical and scratch resistance

Product code: 3MM206

3M™ Versaflo™ Pre-filter, TR-3600

- ▶ Pre-filter designed for use with 3M™ Versaflo™ Powered Air Respirator TR-300+
- ▶ Captures large particles that would otherwise clog the filter
- ▶ Can help to extend the filter life of your powered air respirator

Product code: 3MTR3600

3M™ Versaflo™ S-Series Hood with double shroud, S-657

- ▶ Provides head, hair, neck and shoulder coverage
- ▶ Protects eyes and face from liquid splash and low energy flying particles and dust (Grade F)
- ▶ Double shroud design allows the inner shroud to be tucked into a shirt or coverall so excess air can be channelled over the body
- ▶ Reusable premium inner head suspension can be a cost-effective solution for high disposal rate environments
- ▶ CE approved with EN 12941 TH3, EN 166:2:F:3 and EN 14594 3A ratings

Product code: 3MS657

3M™ Versaflo™ helmet with comfort faceseal, M-300 Series

- ▶ Highly versatile, integrated protection from a range of respiratory, head (EN 397), eye and face (EN 166 medium energy impact), and hearing hazards
- ▶ Lightweight, compact and well-balanced helmet
- ▶ Fully-adjustable suspension that includes textile harness for correct fit and weight distribution
- ▶ Deflector allows users to direct the airflow inside the headtop for increased control and comfort

Product code: 3MM306 (general purpose), 3MM307 (fit purpose)

3M Hearing Protection

3M™ E-A-R™ Classic™ Earplugs

- ▶ Reduces noise levels up to 28 dB (uncorded) and 29 dB (corded)
- ▶ Soft energy absorbing foam provides a low equilibrium pressure making it one of 3M's most comfortable earplugs
- ▶ Moisture resistant making them less likely to swell through moisture absorption
- ▶ Proprietary slow recovery polymer foam helps achieve good acoustic properties

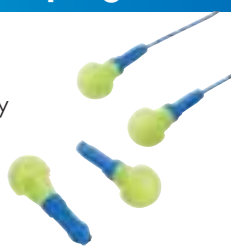

Attenuation

Uncorded: SNR=28dB, H=30dB, M=24dB, L=22dB
Corded: SNR=29dB, H=30dB, M=26dB, L=23dB

Product code: 3MPP01002 (pillow pack), 3MCC01000 (corded), 3MPD01001 (One Touch refill bottle), 3MPD01009 (One Touch refill bag)

3M™ E-A-R™ Push-Ins Earplugs

- ▶ Reduces noise levels up to 38 dB
- ▶ Unique 3M™ E-A-Rform™ tip shaped and sized to fit comfortably in most ears
- ▶ Flexible stem makes them easy and hygienic to use as you don't need to touch the foam tip
- ▶ Recognisable yellow and blue stems for easy identification
- ▶ Available with or without cord

Attenuation

SNR=38dB, H=37dB, M=36dB, L=34dB

Product code: 33MEX01021 (uncorded), 3MEX01020 (corded)

3M™ E-A-R™ E-A-Rsoft™ Yellow Neons™ Earplugs

- ▶ Reduces noise levels up to 36 dB
- ▶ Brightly-coloured, neon-yellow earplugs are easy to identify in compliance checks
- ▶ Soft foam helps provide low pressure inside the ear canal
- ▶ Tapered design provides a good fit on a wide range of ear canal sizes
- ▶ Compatible with the 3M™ E-A-Rfit™ Dual-Ear Validation System

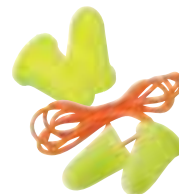

Attenuation

SNR=36dB, H=34dB, M=34dB, L=31dB

Product code: 3MES01001 (uncorded), 3MES0100SN (corded), 3MPD01002 (One Touch refill bottle), 3MPD01010 (One Touch refill bag)

3M™ E-A-R™ E-A-Rsoft™ FX Earplugs

- ▶ Reduces noise levels up to 29 dB
- ▶ Tapered design provides a good fit on a wide range of ear canal sizes
- ▶ Features super soft slow recovery PU foam providing a reliable seal
- ▶ Dependable hearing protection comfortable enough for extended periods of wear

Attenuation

SNR=29dB, H=39dB, M=35dB, L=34dB

Product code: 1/3MES01020, 2/3MES01020

3M™ Earplugs, 1100

- ▶ Reduces noise levels up to 37 dB
- ▶ Tapered design provides a good fit on a wide range of ear canal sizes
- ▶ Soft hypoallergenic foam softens with body temperature once inserted for comfortable extended wear
- ▶ Compatible with the 3M™ E-A-Rfit™ Dual-Ear Validation System

Attenuation

SNR=37dB, H=37dB, M=34dB, L=31dB

Product code: 3M1100 (uncorded), 3M1110 (corded), 3M1100R (dispenser refill pack)

3M™ One Touch™ Pro Earplug Dispenser

- ▶ Accurately dispenses one earplug at a time
- ▶ Dispenses earplug directly into hand
- ▶ Durable ABS plastic for tough environments
- ▶ Free-standing or wall-mounted, could be positioned inside or outside
- ▶ Shields earplugs from sun, wind and rain, when dispensing earplugs outside
- ▶ Easy to know when to refill – the level monitor is front and centre, ensuring you won't run short
- ▶ Refill in an instant – refilling the dispenser is simple and takes just moments to complete

Product code: EAR17PD

3M Hearing Protection

3M™ E-A-R™ Ultrafit™ X Earplugs

- ▶ A unique one size earplugs which fits most ear canals comfortably and provides a high level of attenuation
- ▶ Reusable plug is comfortable, hygienic and economical as it can be washed
- ▶ Triple-flange design preformed to fit the ear

Attenuation

SNR=35dB, H=35dB, M=32dB, L=30dB

Product code: 3MUFO1014

3M™ E-A-R™ Ultrafit™ Earplugs

- ▶ Reduces noise levels up to 32 dB
- ▶ Patented tri-flange design in pre-moulded material makes them a fit for most ear canals
- ▶ Firm, long stem for easy insertion and removal
- ▶ Made from soft and durable material
- ▶ Separate cord which can be removed and reinserted for optional uncorded or corded wear
- ▶ Compatible with the 3M™ E-A-Rfit™ Dual-Ear Validation System

Attenuation

SNR=32dB, H=33dB, M=28dB, L=25dB

Product code: 3MUFO1015

3M™ E-A-R™ Tracer™ Earplugs

- ▶ Reduces noise levels up to 20 dB
- ▶ Patented tri-flange design in pre-moulded material makes them a fit for most ear canals
- ▶ Firm, long stem for easy insertion and removal
- ▶ Made from soft and durable material
- ▶ Separate cord which can be removed and reinserted for optional uncorded or corded wear
- ▶ Compatible with the 3M™ E-A-Rfit™ Dual-Ear Validation System

Attenuation

SNR=20dB, H=25dB, M=17dB, L=10dB

Product code: 3MTR01100 (storage case), 3MTR01001

3M™ E-A-Rcaps™ Banded Earplugs

- ▶ Reduces noise levels up to 23 dB
- ▶ One of the lightest banded hearing protectors on the market
- ▶ Flexible and durable band that can be washed and reused multiple times
- ▶ Soft foam pod shaped caps to block the ear canal
- ▶ Ideal for intermittent wear, the band can be easily stored around the neck when not in use

Attenuation

SNR=20dB, H=25dB, M=17dB, L=10dB

Product code: 3MEC01000,
3MES01300 (replacement pods)

3M™ PELTOR™ WorkTunes™ Pro AM/FM Radio Headset

- ▶ Protect your hearing from harmful noise while enjoying FM or AM-Radio
- ▶ Built-in antenna prevents snagging on equipment
- ▶ Store up to 5 of your favourite stations
- ▶ 3.5 mm stereo audio input plug allows you to connect to separate devices
- ▶ Auto power-off saves battery life
- ▶ Low-battery indicator tells you in advance when replacements are needed
- ▶ To reduce the corrosion caused by sweat the electronics are located in the outer part of the cup

Attenuation

SNR = 32dB

Product code: HRXS221A

3M™ PELTOR™ Electronic Earplug, EEP-100

- ▶ Wireless earplugs for protection against loud noises
- ▶ Designed to help improve situational awareness and communication
- ▶ Comes with a compact storage box for USB charging, offering 16 hours operating time
- ▶ Intuitive one-button operation
- ▶ Replaceable ear tips to ensure comfort and adjust the level of protection
- ▶ Available in two versions, one for industrial use and one for shooting and forestry use
- ▶ Attenuation up to 38 dB

Product code: 3MEP100

3M Hearing Protection

3M™ PELTOR™ XI Ear Defenders

- ▶ Reduces noise levels up to 27 dB
- ▶ Wide flat headband is electrically insulated making the earmuffs electrically resistant or 'dielectric'
- ▶ Colour-coding makes it easy to identify the level of protection being worn
- ▶ Slim cups offer improved compatibility with other safety equipment

Attenuation

Headband: SNR=27dB, H=32dB, M=24dB, L=16dB

Attachment: SNR=26dB, H=30dB, M=23dB, L=15dB

Product code: X1A (headband), X1P3 (helmet attachment), HYX1 (hygiene kit)

3M™ PELTOR™ X3 Ear Defenders

- ▶ Reduces noise levels up to 33 dB
- ▶ Wide flat headband is electrically insulated, making the earmuffs electrically resistant or 'dielectric'
- ▶ Colour-coding makes it easy to identify the level of protection being worn
- ▶ Newly designed spacer improves performance without adding any excess bulk or weight
- ▶ Wide soft ear cushions help workers stay comfortable

Attenuation

Headband: SNR=33dB, H=35dB, M=30dB, L=25dB

Attachment: SNR=32dB, H=34dB, M=30dB, L=24dB

Product code: X3A (headband), X3P3 (helmet attachment), HYX3 (hygiene kit)

3M™ PELTOR™ X5 Ear Defenders

- ▶ Reduces noise levels up to 37 dB
- ▶ Wide flat headband is electrically insulated making the earmuffs electrically resistant or 'dielectric'
- ▶ Large cups are still lightweight
- ▶ Specially formulated foam in the earcups and cushions with an innovative spacer and cup design makes the 3M™ PELTOR™ X Series X5 the highest attenuating earmuff on the market

Attenuation

Headband: SNR=37dB, H=37dB, M=35dB, L=27dB

Attachment: SNR=36dB, H=36dB, M=34dB, L=25dB

Product code: X5A (headband), X5P3 (helmet attachment), HYX5 (hygiene kit)

3M™ PELTOR™ X2 Ear Defenders

- ▶ Reduces noise levels up to 31 dB
- ▶ Wide flat headband is electrically insulated making the earmuffs electrically resistant or 'dielectric'
- ▶ Colour-coding makes it easy to identify the level of protection being worn
- ▶ Slim cups offer improved compatibility with other safety equipment
- ▶ Wide soft ear cushions help workers stay comfortable

Attenuation

Headband: SNR=31dB, H=34dB, M=29dB, L=20dB

Attachment: SNR=30dB, H=33dB, M=26dB, L=19dB

Product code: X2A (headband), X2P3 (helmet attachment), HYX2 (hygiene kit)

3M™ PELTOR™ X4 Earmuffs

- ▶ Reduces noise levels up to 33 dB
- ▶ Wide flat headband is electrically insulated making the earmuffs electrically resistant or 'dielectric'
- ▶ Colour-coding makes it easy to identify the level of protection being worn
- ▶ Innovative sealing ring and new ear cushion technology provides excellent protection against low frequencies in a streamlined design
- ▶ Wide soft ear cushions help workers stay comfortable

Attenuation

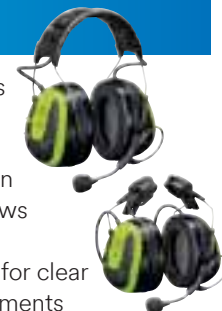

Headband: SNR=33dB, H=35dB, M=30dB, L=22dB

Attachment: SNR=32dB, H=36dB, M=30dB, L=21dB

Product code: X4A (headband), X4P3 (helmet attachment), HYX4 (hygiene kit)

3M™ PELTOR™ WS™ ALERT™ X Headsets

- ▶ Attenuating hearing protector comes in two models: headband or a safety helmet attachment
- ▶ Bluetooth® technology for connection to an external Bluetooth® device allows for hands-free talking and streaming
- ▶ Noise-cancelling boom microphone for clear speech transmission in noisy environments
- ▶ Level-dependent function for ambient listening to help promote auditory situational awareness

Attenuation

Headband: SNR=30dB

Attachment: SNR=30dB

Product code: 3MMRX21A4WS6 (headband), 3MMRX21P3E4WS6 (helmet attachment)

3M Hearing and Head Protection

3M™ PELTOR™ Optime™ I Ear Defenders

- ▶ Reduces noise levels up to 27 dB
- ▶ Low-profile design combines easily with other safety equipment
- ▶ Sealing rings filled with a unique combination of liquid and foam
- ▶ Large space inside the cups helps minimise heat and moisture build-up
- ▶ Soft, wide, cushions help reduce pressure around the ears

Attenuation

Headband: SNR=27dB, H=32dB, M=25dB, L=15dB
 Neckband: SNR=26dB, H=30dB, M=24dB, L=15dB
 Folding: SNR=28dB, H=32dB, M=25dB, L=16dB
 Attachment: SNR=26dB, H=32dB, M=23dB, L=15dB

Product code: H5101 (headband), H510B (neckband), HY51 (hygiene kit), h510f-404-gu (folding headband), H510P3E-405-U (helmet attachment)

3M™ PELTOR™ Optime™ II Ear Defenders

- ▶ Reduces noise levels up to 31 dB
- ▶ Cushions and inserts available as replacement hygiene kits
- ▶ Use in loud, demanding environments with substantial industrial noise such as airports, construction sites and during agricultural work
- ▶ Soft, wide, cushions help reduce pressure around the ears

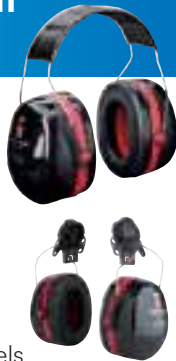

Attenuation

Headband: SNR=31dB, H=34dB, M=29dB, L=20dB
 Neckband: SNR=31dB, H=34dB, M=29dB, L=20dB
 Folding: SNR=31dB, H=34dB, M=28dB, L=20dB
 Attachment: SNR=31dB, H=34dB, M=28dB, L=19dB

Product code: H520A (headband), H520B (neckband), H520F-409-GQ (folding), H520F-460-GB (folding hi-vis), H520P3E-610-GQ (helmet attachment), HY52 (hygiene kit)

3M™ PELTOR™ Optime™ III Ear Defenders

- ▶ Reduces noise levels up to 35 dB
- ▶ Double casing technology minimises resonance effect
- ▶ Large space inside the cups helps minimise heat and moisture build-up
- ▶ Soft, wide, foam cushions help reduce pressure around the ears
- ▶ Available in headband, neckband, helmet attached and hi-viz green models

Attenuation

Headband: SNR=35dB, H=40dB, M=32dB, L=23dB
 Neckband: SNR=35dB, H=40dB, M=32dB, L=23dB
 Attachment: SNR=35dB, H=40dB, M=32dB, L=22dB

Product code: H540A (headband), H540B (neckband), H540P3E-413-SV (helmet attachment), HY54 (hygiene kit)

3M™ PELTOR™ Earmuffs, 28 dB, Orange, Helmet Mounted, H31P3AF

- ▶ Reduces noise levels up to 28 dB
- ▶ Slimline hearing protection, ideal for use in forestry, sawmills and industry applications
- ▶ Earmuff cup has a recess at the top making it a more comfortable fit with safety helmets
- ▶ Wide, comfortable sealing rings are filled with a unique combination of fluid and foam, providing optimum sealing and ideal comfort even during long periods of use
- ▶ Earcup pivot points tilt for optimum comfort and efficiency
- ▶ SNR 28dB

Product code: 3MH31P3AF

3M™ First Base™ 3 Bump Cap, High Visibility

- ▶ Protects wearer from light contact with stationary objects
- ▶ High visibility
- ▶ Provides industrial bump protection to EN 812:A1
- ▶ Patented shell design provides enhanced coverage for a wide range of head sizes

Product code: HC23HO, HC23HORP (orange hi-vis), HC23HYRP (yellow hi-vis)

Part number: 1161615, 1161616, 1161617

Also available in classic standard peak: H24BL (black), HC24NB (blue), HC24GY (grey)

3M™ SecureFit™ X5000 Safety Helmet

- ▶ Suspension system incorporates exclusive patented 3M™ Pressure Diffusion Technology
- ▶ Works with a variety of 3M™ faceshields, earmuffs, and other accessories
- ▶ Meets ANSI Z89.1
- ▶ Climbing helmet-inspired design

Product code: 3MX5001VCE, 3MX5001VECE

3M Fall Protection

3M™ DBI-SALA® ExoFit™ XE100 Comfort Safety Harness

- ▶ Cross chest buckle assembly for central front fall arrest attachment point – optimised position on body
- ▶ Revolving torso adjusters (patented) for quick and easy harness fit and adjustment
- ▶ Integrated pSRL tunnel lets you quickly and easily connect and disconnect personal SRLs
- ▶ Suspension trauma relief straps with low-profile design included

Product code: 3M1112720, 3M1112721, 3M1112722

Part number: 1112720 (size 1), 1112721 (size 2), 1112722 (size 3)

3M™ DBI-SALA® Nano-Lok™ Personal Self Retracting Lifeline, Single-leg, Web, 1.8m

- ▶ Extremely compact and lightweight single-leg personal self-retracting lifeline designed for working at height
- ▶ Lightweight speed connect system reduces connect and disconnect time by up to 60%
- ▶ Also available in lengths up to 2.8m

Product code: 3M3101208

Part number: 3101208

3M™ DBI-SALA® Suspension Trauma Safety Straps

- ▶ Suspension trauma safety strap can be used in the event of a fall allowing a user to stand, relieving pressure on the arteries and veins around the top of the legs
- ▶ Attaches to almost any harness
- ▶ Fast and easy installation
- ▶ Extremely compact and lightweight design
- ▶ Simple and fast zipper style deployment
- ▶ Continuous loop design

Product code: 3M9501403

Part number: 9501403

3M™ PROTECTA® E200 Standard Vest Style Fall Arrest Harness, Black

- ▶ Stain and water resistant webbing keeps the harness cleaner and dryer
- ▶ Conveniently placed front D-ring helps you stay balanced and centred
- ▶ Auto-resetting lanyard keeper provides easy parking and release of snap hooks or carabiners
- ▶ Impact indicators make it simple to inspect the harness for damage and help ensure it's safe to use

Product code: 3M1161615, 3M1161616, 3M1161617

Part number: 1161615, 1161616, 1161617

3M™ Protecta® Screw Gate Carabiner Steel, 104mm

- ▶ Manual Locking; ideal for occasional opening during the working week
- ▶ CE Certified to EN 362
- ▶ Durable and lightweight
- ▶ Corrosion resistant

Product code: 3MAJ501

Part number: AJ501

3M™ Protecta® Shock Absorbing Lanyard

- ▶ Use with a 3M fall arrest harness as part of a complete fall protection system
- ▶ 140kg max. rated weight capacity
- ▶ Elasticated webbing reduces lanyard length when not under tension reducing the risk of trip and snagging hazards
- ▶ Fully covered identification labels for long-term identification and inspection
- ▶ CE certified to EN 355 standard and 2.0 m in size

Product code: 3M1260327

Part number: 1260327

INNOVATIVE ECO-CONSCIOUS PROTECTION SOLUTIONS

Each day, Ansell stands as the trusted partner for millions of professionals, ensuring their workplace safety through innovative and reliable safety solutions. From shielding against lacerations and burns to safeguarding against chemical exposure, our PPE offers essential protection against the hazards inherent to various job sites. Moreover, we prioritise sustainability through eco-conscious manufacturing practices, exemplified by our range of Ansell Earth products.

Ansell Earth embodies our commitment to sustainability, offering science-based claims across the product lifecycle, from material to end-of-use considerations. This initiative not only meets the demands for reliable sustainability information but also empowers users to make PPE choices aligned with their environmental values and goals. Our dedication to sustainability has been recognised globally, earning us the prestigious EcoVadis Silver Medal award for our comprehensive sustainability initiatives.

MATERIAL

Selecting materials that minimise a product's environmental impact without affecting its quality or performance.

MANUFACTURING

Optimising the energy consumption, waste generation and water consumption of our manufacturing processes.

PACKAGING

Using scientific research to minimise our environmental impact while maintaining our superior quality that protects people and products.

USE

Increasing product durability and lifespan because longer product lives reduce the need for replacement, which generates less waste.

END OF USE

What happens to a product after it's served its purpose? Optimising end of use is essential to reducing the consumption of materials and energy.

- Product supplier complete with 2 karabiners
- Class A semi-static polyamide rope with a diameter of 11 mm and high tensile strength

CXFAK

MAINTENANCE FREE HALF MASK

- The facial body is made of hypoallergenic thermoplastic.
- Both the design and the used material provide air-tightness, preventing air from filtering inside through the face/mask union.
- The main body houses two non-replaceable filters. Their position offers wide visual field.
- Large diameter exhalation valve for optimal exhalation
- It has a comfortable neck and head strap that can be easily adjusted to the appropriate length thanks to its easylock system.
- EN 405: 2001+A1: 2009

CORPORATE BRANDING

At Centurion we aim to make the complex simple, our four-step corporate branding process makes branding our products easy.

- No set up cost for new logo's
- Pad print on the front, rear and sides of helmets
- Embroider or transfer printing on the front of caps

ADVANTAGES

- Promote your company
- Help your employees stand out on site
- Easily identify your workers task or position
- Use the helmet to promote safety messages
- Ensures PPE is provided by the company

CLASSIC HELMET FACE PROTECTION

- General purpose face protection provides effective protection against a wide range of general workplace hazards
- Compatible with all Centurion helmets
- Compatible with Centurion Classic Browguard as a headband mounted system

Product Codes

Polycarbonate Screen CNS590 Carrier CNS54

Approved to EN166

CLASSIC BROWGUARD HEADBAND PROTECTION

- Allows fitment of the Centurion Classic general purpose face screens and chinguard as a headband mounted system for when a safety helmet is not required
- Classic Chinguard screen compatible with Classic Face Screen Carrier for mounting to all Centurion helmets

Product Codes

Browguard CNS89 Chinguard CNS91C

Polycarbonate Chinguard Screen CNS910

Approved to EN166

CONTOUR X SCREEN

- Use the Contour X General Purpose Moulded Face Screen with the Contour Carrier for industrial impact helmet mounted face protection
- Suitable for industrial applications such as grinding due to Grade B Impact Rating
- Designed to be re-used - ensuring it's more economical and environmentally sound than single use alternatives

Product Code

Contour X Screen CNS800

Visor tested to EN166 & EN170

Size: UK 03-11 | EU 35/36-46

A close-up photograph of a worker's leg in blue jeans and a bright yellow rubber boot. The boot is stepping on a muddy, uneven surface, causing a splash of mud. In the background, a large yellow excavator arm is visible, and the scene is filled with a hazy, orange-brown dust or smoke. The overall tone is gritty and industrial.

KEY BENEFITS OF WEARING COOLING APPAREL

HEAT STRESS PREVENTION TIPS

Avoid alcohol,
coffee and soda

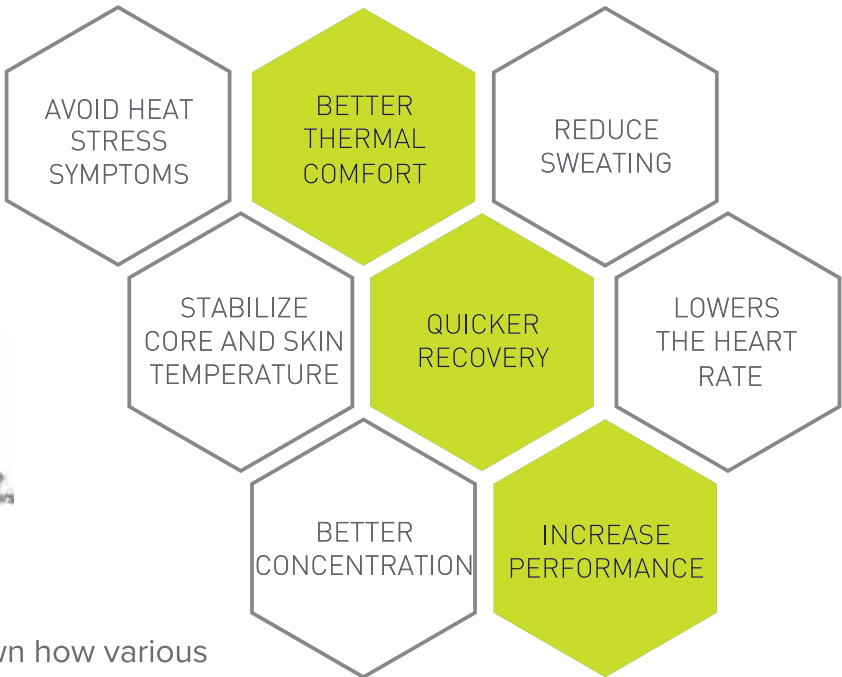

Drink water
every hour

Wear personal
cooling apparel

Take a 15 minute
break every 2 hours

HEAT & PERFORMANCE

Studies have shown how various
body temperatures can influence
performance at work

Ambient temperature:

- 25°C : performance decrease of 3%
- 30°C : performance decrease of 10%
- 35°C : performance decrease of 18%
- 40°C : performance decrease of 28%

Wearing the cooling vest
prolonged work time by
an average of 16,4%
workers can do the job
safer and can work longer

AMBIDEXTROUS SINGLE STRAP WRIST SUPPORT

- **SUPPORTS WRIST JOINT** – Stabilizes wrist to prevent overextension and reduce risk of injury
- **LIGHTWEIGHT COMFORT** - Neoprene for stretchable comfort and long-lasting wear
- **SLIP-ON DESIGN** – For easy installation

EY670

AVAILABLE SIZES
 S, M, L, XL

WEIGHTLIFTING STYLE BACK SUPPORT BRACE

- **LEVEL OF SUPPORT** - Firm, maximum support
- **COMFORTABLE FIT** - Poly foam core body with 900D foam lumbar pad
- **SECURE FIT** - Rubber track webbing stays keep support in place and prevents riding up
- **ADJUSTABLE FIT** - Wide nylon closure on front for customizable fit

EY1500

AVAILABLE SIZES
 S, M, L, XL, 2XL

POWER TOOL TRAP

- TESTED - Meets ANSI/ISEA 121-2018
- DURABLE & SECURE - 1000D nylon with water-resistant backing
- TETHER RING - Nickel-plated cast iron D-ring
- EASY INSTALLATION - Hook & loop straps secure power tool battery inside trap
- COMPATIBILITY - Fits most power tool batteries

EY3780

EVAPORATIVE COOLING BAND TOWEL - PVA

- **INSTANT COOLING RELIEF** – Hyper-evaporative PVA easily activates with water for up to four hours of cooling
- **STAY-PUT DESIGN** – Unique pull-through slot secures band around neck for fuss-free all-day wear
- **COMFORTABLE** – When wet, band remains soft and bulk-free for wear around the neck
- **SUN PROTECTION** – UPF 50+ protection from harmful UV rays

EY6603

DRY EVAPORATIVE COOLING VEST - ZIPPER CLOSURE

- **DRY & COMFORTABLE** – Exclusive dry technology keeps wearer completely dry and comfortable during the entire evaporative cooling process
- **LONG-LASTING EFFECT** – Up to 3 days of cooling power to help maintain a healthy body temperature
- **EASY ACTIVATION** – Fill vest with 13oz - 17oz / 400ml - 500ml of water

EY6685

EVAPORATIVE COOLING BANDANA HEADBAND - POLYMERS, TIE CLOSURE

- **COOLING RELIEF** - Polymer cooling technology quickly activates up to four hours of relief from the heat
- **LOW-PROFILE** – For no-bulk wear under hard hats
- **COMFORTABLE** – 100% cotton bandana
- **TIE CLOSURE** – Adjustable for a snug, comfortable fit on a variety of head sizes

EY6700BL (Black) EY6700B (Blue) EY6700Y (Yellow)

WINTER HARD HAT LINER - FLEECE-LINED, POLYESTER SHELL

- **2-LAYER THERMAL LINER** – Water-resistant shell with soft fleece lining for warm and comfortable protection against the elements
- **CHIN LENGTH** – For complete head and ear coverage
- **LIGHTWEIGHT & LOW-PROFILE** – Fits comfortably under hard hats or helmets
- **ELASTIC RIM** – Creates a snug fit while trapping heat and keeping cold out

EY6840

WINTER HARD HAT LINER - 2-LAYER, FLEECE-LINED

- **2-LAYER THERMAL LINER** – Water-resistant shell with soft fleece lining for warm and comfortable protection against the elements
- **SHOULDER LENGTH** – For complete head, neck and ear coverage
- **LIGHTWEIGHT & LOW-PROFILE** – Fits comfortably under hard hats or helmets
- **ELASTIC RIM** – Creates a snug fit while trapping heat and keeping cold out

EY6842BL (Black) EY6842Y (Yellow)

HAND WARMER PACKS - AIR ACTIVATED

- **LONG LASTING HEAT** – Hand warmer packs keep hands free from chill for up to 12 hours
- **COMPACT** – Small and low-profile to easily fit into gloves or jacket pockets
- **SIMPLE & INSTANT ACTIVATION** – All-natural ingredients begin to heat up as soon as you open the pack (no batteries required)

EY6990

INSOLE FOOT WARMERS - ADHESIVE BACK + AIR ACTIVATED

- **LONG LASTING HEAT** – Foot warming pads deliver up to 8 hours of warmth
- **STAY-PUT ADHESIVE** – Adhesive backing sticks easily and securely to socks
- **EASY & INSTANT ACTIVATION** – Packs begin to heat up as soon as you open the pack (no batteries required)
- **FLEXIBILITY** – Full foot warmer is flexible, not rigid, reducing discomfort

EY6995

HI-VIS RANGER SUN HAT

- **LIGHTWEIGHT SUN PROTECTION** – 150D polyester hat with wide brim to shade face and head for comfortable protection against sun damage
- **BREATHABLE** – 360-degree mesh venting for maximum airflow
- **ENHANCED VISIBILITY** – Made with hi-vis fabric and 1" reflective tape to keep workers safe and seen
- **DRAWSTRING CORD** – For a secure fit

EY8935

All-In-One, Head-Mounted PAPRs

PureFlo
Respiratory Protection

No Belts. No Hoses. No Snags.

PURELITE

The PureLite is an entry level, battery-powered respirator providing protection for **respiratory, eye, face and hearing**, all in one, lightweight system. The head-mounted design provides optimum balance with **no trailing leads or waist-mounted power pack**. The full face shield provides **excellent all round vision and impact protection**. With **no face fit testing required**, this is the perfect solution for those with facial hair and/or prescription glasses.

KEY FEATURES

- System Classification TH2P (APF 20)
- High stability & quick release headband
- On-off switch easily operated with gloved hand
- Low-battery audible alarm
- 8-hour battery
- Low noise fan motor provides airflow rate of 210 l/m
- Very low running costs

INDUSTRIES

The PureLite is suitable for use in various environments, including:

- Woodworking
- Agriculture, horticulture and pest control
- Stone Masonry
- DIY & Building Maintenance
- Landscaping

PURELITE

Part Number	Description
PL03000-2	PureLite PAPR
PL03003-2	PureLite PAPR Agri Pack

APPROVALS

Respiratory Protection: BS EN 12941, THP2

Eye/Face Protection: EN 166, Optical class 1B3 for high-speed particles, medium energy impact, liquid droplets and splashes.

Assigned Protection Factor (APF): 20

MAIN PARTS & ACCESSORIES

Part Number	Description	Qty
PL01170-1SP	Filter TH2P	Pair
PL01171-1SP	8hr Battery Pack	1

WHAT'S IN THE BOX?

- PureLite PAPR
- 1 x pair filters
- 1 x 8hr Battery Pack & Charger

The PureLite Agri Pack includes:

- PureLite PAPR
- 2 x pair filters
- 10 x visor overlay protectors
- 1 x spare face seal
- 1 x 8hr Battery Pack & Charger

3000

The PureFlo 3000 PAPR is an all-in-one head mounted solution providing **respiratory, head, eye, face & hearing protection** in one system, ready to work out-of-the-box. With **no trailing hoses or belt-mounted unit**, the PureFlo 3000 is extremely versatile and ideal for use in tight spaces. As well as providing all-in-one protection, the PureFlo 3000 PAPR has **no requirement for face fit testing**, meaning that the unit can be worn with facial hair and/or spectacles.

KEY FEATURES

- Lightweight, industrial design (EN Approved)
- LED low battery and airflow indicators
- Quick change P3 HEPA filter with optional pre-filter
- Compact, fast-charging Lithium Ion battery
- Optional hearing protection

INDUSTRIES

The PureFlo 3000 is suitable for use in various environments, including:

- | | |
|-------------------------|--------------------------------|
| ■ Construction | ■ Laboratories |
| ■ Welding | ■ Pharmaceutical Manufacturing |
| ■ Light Manufacturing | ■ Healthcare |
| ■ Transport | |

- Set of Cleaning Plugs
- Protective Carry Bag

ESM+

The PureFlo ESM+ is an **intrinsically safe PAPR** approved for use in certain types of gas and dust environments where there are potentially explosive atmospheres. With **no hose or waist-mounted unit**, the ESM+ provides improved comfort and mobility for users. The ESM+ is designed for use in a wide range of **light to heavy-duty industries** and is available in two main variants with bump cap or hard hat, with the option for aluminised accessories to provide protection when working in **high-heat environments**.

KEY FEATURES

- No requirement for face fit testing and can be used safely with beards and/or prescription spectacles
- Lightweight integrated respiratory, head, eye, and face protection
- Proven low running costs with exceptional protection levels
- Includes 2 x 4-hour NiMH batteries providing 8 hour run time and smart chargers, plus optional 16 station smart multi-charger
- Options of P3, P3 nuisance odour, and ABE1P3 filters
- Airflow rate of 220 l/m on P3 filter & 205 l/m on a ABE1P3 filter
- Sealed motor housing for ease of maintenance, enhanced cleaning, and protection from contaminants.

INDUSTRIES

The PureFlo ESM+ is suitable for use in various environments, including:

- Pharmaceutical
- Construction
- Utilities
- Heavy engineering
- Metal fabrication
- Smelting & Metal Refining

- Memory foam ear cushions
- Lightweight cushioned headband

IMPACT PRO INDUSTRIAL

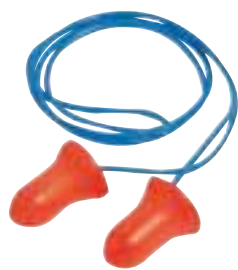

Description

- Hear-through technology
- Allows environmental awareness
- Strategically placed directional stereo microphones to amplify ambient sounds
- Air Flow Control technology

CODE	DESCRIPTION	SNR
HL1035101-VS	VS140 VeriShield™ earmuff without Air Flow Control	25

CODE	DESCRIPTION	SNR
HL1034491	Impact Pro Industrial	33

MAXIMUM®

Description

- High SNR attenuation index and optimum comfort
- The world's most-used polyurethane foam earplug.
- Bell shape for maximum in-ear comfort.

CODE	DESCRIPTION	SNR
HL3301130	Maximum corded plug. Box of 100 pairs.	38

LASER® LITE

Description

- The foam expands to mould to the shape of virtually every ear
- Contoured T-shape for easy insertion and removal

CODE	DESCRIPTION	SNR
HL3301105	Laser Lite uncorded. Box of 200 pairs.	35
HL3301271	Howard Leight Laser Lite REFILL LS500	35
HL1013047	Howard Leight Laser Lite REFILL LS400	35

LASER® TRACK

Description

- The highest attenuation rate in its class
- Metal detectable for the food sector.
- The foam expands to fit virtually every ear
- Single use

CODE	DESCRIPTION	SNR
HL3301167	Laser Trak corded. Box of 100 pairs.	34

SMARTFIT DETECTABLE

Description

- Delivers superior comfort and a truly individual fit
- Metal detectable for the food sector
- Detectable earplugs for long-term comfort

CODE	DESCRIPTION	SNR
HL1012522	Smartfit Detectable, corded. Box of 50 pairs	30

H700 CC5 HARNESS

Description

- Next-generation 3D movement focused waist pad for prolonged work positioning at heights
- Highly breathable, lightweight, ergonomic shoulder/back padding
- Integrated SRL adaptor
- Pivot link leg strap adjuster

CODE	DESCRIPTION	SIZE
HW1036785	H700 CC5 ALUM QC FD/SD	1
HW1036793	H700 CC5 ALUM QC FD/SD	2
HW1036787	H700 CC5 ALUM QC FD/SD	3

H500 IS1 HARNESS

Description

- Light-weight and ergonomic
- Increased freedom of movement
- Smart rebar hook/lanyard keepers and SRL web link
- Fall-impact indicators
- Comfortable around the legs, waist, back, and shoulders

CODE	DESCRIPTION	SIZE
HW1036090	H500 IS1 harness, Mating leg buckles, Auto clip chest buckles, Back D-ring	2
HW1036091	H500 IS1 harness, Mating leg buckles, Auto clip chest buckles, Back D-ring	3
HWFPXARCM-HLEU	H500 Arc Flash Harness with back D-ring and front webbing loops.	3

H100 LANYARD

Description

- Available as Twin and as Single
- Cost effective
- Length: 1.8m
- Rated to 140Kg max. weight capacity

CODE	DESCRIPTION
HWH1SLRHEU	H100 Single Shock Absorbing Lanyard
HWH1TLRHEU	H100 Twin Shock Absorbing Lanyard

TURBOLITE™ BLOCK

Description

- Compact & lightweight
- Twistlock Steel both webbing side and block side
- Low space clearance of 1.80 m
- Quick activating patent pending braking system
- Provides 2 m working capacity lifeline
- High-strength, impact-resistant nylon housing for maximum durability

CODE	DESCRIPTION
HW1018015	With two carabiners
HW1018013	With carabiner and scaffolding hook

CORESHIELD™ CUT LEVEL C

Description

- Retains performance even after 5 washing cycles for extended lifetime
- Thumb reinforcement for extra durability
- Certified standard 100 by OEKO-TEX®
- Touchscreen resistive and capacitive
- Silicone free

CODE	DESCRIPTION	EN388:2016
HW23-0513B	CoreShield, 13 gauge HPPE/basalt black liner, nitrile micro-foam black coating, A3/C	4X43C

CORESHIELD™ CUT LEVEL F

Description

- Retains performance even after 5 washing cycles for extended lifetime
- Thumb reinforcement for extra durability
- Certified standard 100 by OEKO-TEX®
- Touchscreen resistive and capacitive
- Silicone free

CODE	DESCRIPTION	EN388:2016
HW26-0513B	CoreShield, 13 gauge HPPE/alloy/basalt black liner, nitrile micro-foam, black coating, A6/F	4X44F

CORESHIELD™ CUT LEVEL E

Description

- Retains performance even after 5 washing cycles for extended lifetime
- Thumb reinforcement for extra durability
- Certified standard 100 by OEKO-TEX®
- Touchscreen resistive and capacitive
- Silicone free

CODE	DESCRIPTION	EN388:2016
HW25-0913B	CoreShield, 13 gauge HPPE/stainless steel black liner, smooth nitrile black coating, A5/E	4X42E

CORESHIELD™ DOUBLE

Description

- Thin, nitrile liquid repellent and 100% water- and oil-resistant base layer
- Retains performance even after 5 washing cycles for extended lifetime
- Touchscreen capability for resistive screen machines
- Silicone free
- Antimicrobial properties
- Certified standard 100 by OEKO-TEX®

CODE	DESCRIPTION	EN388:2016
HW24-9D38B	CoreShield Double 18G BB, Full coating	4X31D

ZENITH X

THE PERFORMANCE MULTIPLIER

Our passion for performance fueled our inspiration to design a helmet without compromise – one that is exponentially better.

Every KASK helmet is tested for rotational impact performance.

KASK

Performance is a beautiful thing.

Learn more about KASK Rotational Impact WG11 Test at kask-safety.com

P2R CORE LED TORCH

	120/50/15 lm
	65/45/15 m
	0.5/1/5 hr
	36g
	IP54

- Rechargeable pocket torch with handy pocket clip
- Focus for flood (near) or spot (distance) illumination
- Robust, yet lightweight aircraft-grade aluminium housing
- L-ion 10440 battery, pocket clip and USB charging cable (supplied)

Code: **LED502176**

P5R CORE LED TORCH

	500/350/130/15 lm
	250/180/110/40 m
	BOOST/1/3.5/25 hr
	106g
	IP68

- Compact, rechargeable, flood/spot focusing and fuss-free contact charging
- IP68 supreme level of ingress protection from dust and water
- L-ion 14500 battery, wrist-strap and magnetic contact charging cable (supplied)

Code: **LED502178**

P7R WORK LED TORCH

	1200/900/390/15 lm
	240/180/115/15 m
	BOOST/2/3.25/60 hr
	219g
	IP68

- Medium-bodied, high CRI, rechargeable torch with ingenious contact charging system
- Patented Advanced Focus System optics for flood (near) or spot (distance) illumination
- Rubber features and a lens shield provide further protection against impacts and chemicals
- IP68 supreme level of ingress protection from dust and water
- L-ion 21700 battery, belt-clip and contact charging cable (supplied)

Code: **LED502187**

P18R WORK LED TORCH

	4500/2600/1000/30 lm
	720/420/260/50 m
	BOOST/2.5/4.5/70 hr
	669g
	IP54

- Mega powerful single beam rechargeable torch with a stunning light distance – 720 metres on boost
- Blink, Position, S.O.S., Strobe and Dimming feature light options
- Patented Advanced Focus System optics for flood (near) or spot (distance) illumination
- Protective rubber on the lamp head and end cap help protect against impact and offer increased grip; lens shield protects the lens from impact, dirt and chemical damage
- 3 x 18650 battery pack, wrist-strap, contact charging cable and mains plug with USB port (supplied)

Code: **LED502188**

#LightEngineeredBetter

H5R CORE LED HEADLAMP

-  500/300/15 lm
-  200/150/30 m
-  BOOST/2/50 hr
-  167g
-  IP67

- Rechargeable, focusable for flood/spot, dimming feature, transport lock and fuss-free contact charging
- IP67 exceptional protection against dust and water
- Direct light beam up or down within 160°
- Integrated lithium-polymer rechargeable battery pack and contact charging cable (supplied)

Code: **LED502121**

H7R WORK LED HEADLAMP

-  1000/600/15 lm
-  250/200/25 m
-  BOOST/4/60 hr
-  282g
-  IP67

- Rechargeable, flood/spot focusing, dimming feature, transport lock and fuss-free contact charging
- IP67 exceptional protection against dust and water
- High CRI – better colour identification
- L-ion 21700 battery, helmet clips, lens cover and contact charging cable (supplied)

Code: **LED502195**

H15R CORE LED HEADLAMP

-  2500/1000/20 lm
-  250/170/20 m
-  BOOST/5/80 hr
-  380g
-  IP67

- Rechargeable, flood/spot focusing, dimming feature, 3 x indicators, transport lock and fuss-free contact charging
- IP67 exceptional protection against dust and water
- Direct light beam up or down within 130°
- 2 x L-ion 21700 batteries and contact charging cable (supplied)

Code: **LED502123**

iH5R LED HEADLAMP

-  400/20 lm
-  180/40 m
-  4/35 hr
-  98g
-  IP54

- Rechargeable headlamp that can also be used as a handheld torch
- Focus for flood (near) or spot (distance) illumination
- Will also work with standard AA battery (not supplied)
- L-ion 14500 battery, magnetic charging cable, helmet mounting kit (supplied)

Code: **LED502025**

Moldex Fit Test Kit

It is a legal requirement that workers using tight fitting RPE as a control measure under Health and Safety Legislation should be Fit Tested.

Moldex Fit Test Kits allow employers to take charge of their own Fit Testing programme thereby reducing costs and enabling them to carry out Fit Testing whenever necessary [new employee, change of RPE etc].

Each Moldex kit is suitable for carrying out multiple tests and comes packaged in its own sturdy case.

Fit Testing Kit contains:

1 x NEW 3D Hood, 1 x 30ml Bitter sensitivity solution, 1 x 30ml Bitter test solution, 2 x nebulisers, 1 x Fit Test instruction [USB stick], 1 x pen

Product Codes

M0103 Fit test kit

M0503 Sensitivity solution 30ml [box of 6 bottles]

M0504 Test solution 30ml [box of 6 bottles]

MSA - The Safety Company

MSA Safety is the world's leading manufacturer of high-quality safety products for personal protective equipment (PPE) and gas detection system solutions. Since 1914, MSA has been committed to its safety mission and has continued to innovate safety products for various industries. It ranges from adaptive head protection, adjustable fall protection, and portable gas detection. Please check the selected highlights on the following pages. More information about the product details and additional options are available on Beeswift's website.

MSA HEAD PROTECTION

The MSA's world-leading head protection brand, V-Gard®, includes 12 different hard hat models- all super-comfortable and lightweight - and suitable for many applications. All of them are available at Beeswift and can be branded within the MSA LOGO EXPRESS® service.

Did you know that V-Gard® hard hats, when fitted with the MSA's Fas-Trac® III suspension, are listed in the #PPEthatfits Directory of Inclusive PPE published by the Chartered Institute of Building (CIOB)?

Additional customisation options include MSA's badge holder, retroreflective stickers and up to 10 shell colours. V-Gard® also includes a wide range of tested and approved accessories to increase compliance.

MSA LOGO EXPRESS service includes high-quality, durable and weatherproof printed logos, ready for any weather condition. No matter how complex, all logo designs are possible with quick manufacturing from MSA Safety.

HEAD PROTECTION

HINT: For the full range, please visit [Beeswift.com](https://www.beeswift.com)

V-GARD® HELMET

- Most popular model worldwide
- Used across various industrial applications, providing an economic and versatile helmet choice
- Reliable, UV stabilised HDPE helmet shell
- Comfortable textile suspension, Push-Key slide adjustment
- EN 397 : -30°C, 440V AC, EN 50365 (1000V AC), Antistatic

MSAGV111W white

MSAGV121Y yellow

MSAGV141G green

MSAGV151B blue

V-GARD® 200 HELMET

- Short peak for increased upward vision
- Lightweight, available in non-vented and vented
- UV stabilised ABS, scratch resistant helmet shell
- Comfortable textile suspension, Push-Key slide adjustment or Fas-Trac® III wheel ratchet
- EN 397 : LD, -30°C, Antistatic (non-vented version: 440V AC, EN 50365 : 1000V AC)

MSAGV612W vented Fas-Trac III ratchet white

MSAGV611W vented Push-Key white

V-GARD® 500 HELMET

- Multi-purpose vented or non-vented helmet, with an ideal design for attaching ear defenders and visors
- Provides lateral crush protection
- UV stabilised ABS, scratch resistant helmet shell with built-in rain gutter
- Comfortable textile suspension, Fas-Trac® III wheel ratchet
- EN 397 : LD, -30°C, Antistatic (non-vented version: 440V AC, EN 50365 : 1000V AC)

MSAGV412W vented white

V-GARD® 520 HELMET

- Non-vented peakless helmet for work at height or confined spaces
- Provides lateral crush protection
- UV stabilised ABS, scratch resistant helmet shell with built-in rain gutter
- Comfortable textile suspension, Fas-Trac® III wheel ratchet
- EN 397 : LD, -30°C, 440V AC, EN 50365 : 1000V AC, Antistatic

MSAGV912W white

V-GARD® 930 HELMET

- Balanced, low profile vented or unvented helmet with premium eye protection
- Integrated and retractable over-spectacles AF/AS fit over all corrective glasses
- Intelligent adjustment and innovative rubber seal ensures gap-free eye protection
- Grip area with rail system for quick and easy lens stowing, even with gloves
- EN 397 : LD, -30°C (non-vented version: MM, 440V AC, EN 50365 : 1000V AC) EN 166 : 1 B 2C-1,2 KN, Antistatic

MSAGVC1AW vented white no stickers

V-GARD® H1 HELMET

- Exceptional comfort and ease of use in a stylish low-profile hard hat design
- Available in 3 versions to protect users working at floor level and in working at height applications
- Fas-Trac® III pivot ratchet suspension for superior comfort, adjustability, and range of motion
- Patented "push-button" attachment of V-Gard H1 visor or spectacle
- Trivent: EN 12492; Novent: EN 397 -30°C, 440V, EN50365 (1000V); Bivent: EN 397 -30°C

MSA10194783 Trivent white

MSA10194791 Novent white

V-GARD® 950 HELMET ⚡

- Balanced, lightweight and low-profile electrician helmet
- Fully integrated and retractable AF/AS visor protects against arc flash up to 4kA, impact, chemical splash, UV radiation and molten metal splash
- Reliable one handed smooth movement, even –gloved
- 6-point Fas-Trac® III premium ratchet suspension; 4 pts chinstrap; optional arc flash ear flaps
- EN 397: MM, LD, -30°C, 440V AC, EN 50365: 1000V AC, EN 166: 2C-1,2 1 B 3 8-1-0 9 KN, GS-ET-29 class 1 (4kA), Antistatic

MSAGVF1A-80AW

MSAGVF1A-80AWGY
incl. grey stickers

MSAGVF1A-80AWRE
incl. red stickers

V-GARD® HELMET-MOUNTED HEARING PROTECTION

- Enhanced comfort and fit due to multiple adjustment points
- Highest attenuation for a cap mounted ear defender on the market
- Designed for optimal performance and approved with all V-Gard models
- MSA Visor frame can be simply clicked into the ear muffs
- EN 352-3, Antistatic

MSA10190356 - 28 dB

MSA10190358 - 36 dB

MSA10190357 - 32 dB

INTEGRATED HEAD PROTECTION SOLUTIONS

- MSAs head-, eye-, face- and hearing-(HEFH) PPE have been developed and certified in combination to ensure high comfort and compliance
- Select from a wide range of helmets, suspensions, reflective stickers, badge holder, lamp brackets, neck protection, ear defenders, visors, chinstraps, winter liners, cooling pads and more to fit your specific needs
- V-Gard 2 point chinstraps: textile and elastic version
- Universal 4 point chinstrap offers ideal fit and stability
- V-Gard Liner Knit cap provides protection against cold and humidity, ear protection without obstructing vision

MSA9100001 - 2 pt textile

MSAGA90047 - universal 4 pt

MSAB0259378 - 2 pt elastic

MSA10118417 - winter liner

V-GARD® 950 CLASS 2 HELMET ⚡

- Balanced and lightweight electrician helmet with fully integrated and retractable GS-ET-29 Class 2 (7kA) AF/AS visor
- High light transmittance ensures good colour recognition
- Unique extended ear and neck flaps provide arc flash protection
- 6-point Fas-Trac® III premium ratchet suspension; 4 pts chinstrap
- EN 397: MM, LD, -30°C, 440V AC, EN 50365: 1000V AC, EN 166: 2C-1,2 1 B 3 8-2-0 9 KN, GS-ET-29 class 2 (7kA) Antistatic

MSAGVF1A-C0AAW

V-GARD® FACE PROTECTION

- V-Gard visor frame can be simply clicked on the helmet, works with or without ear defenders
- V-Gard visor range covers different applications and needs, contoured for a closer fit
- PC sheet visor for general use
- Moulded PC visor for superior optical quality and increased protection
- Propionate for chemical splash with higher impact resistance

MSA10121266 visor frame

MSA10115836 - 1 mm PC, 203mm H

MSA10115863 - 1 mm PC, 241mm H

MSA10115844 - 2.5 mm moulded PC, 235mm H

MSA10115851 - 2.5 mm Propionate, 235mm H

FALL PROTECTION

For the full range, please visit [Beeswift.com](https://www.beeswift.com)

MSA Safety has been in the business of safety at height since 1930. Today it is at the forefront in both the supply and the range of innovative fall protection products.

V-SERIES HARNESSES

- Innovative features for all V-SERIES harnesses ensure superior comfort and flexibility
- Provide a close and comfortable fit thanks to the racing style bayonet buckle
- Athletic cut contours the harness to the body for increased upper torso mobility
- Pull-down adjustment allows the wearer to easily and quickly make adjustments to get the right fit
- 4 harness models, and 3 harness sizes ensure the ideal size for every worker
- Low-cost-of-ownership: ensured by the 10 years lifetime from the first date of harness use, easy inspection, high quality materials and exclusive features

V-FORM HARNESSES

The basic harness model V-FORM includes:

- Racing-style buckle
- Athletic cut
- Pull-down adjustment
- Easy-to-inspect stitch patterns

MSA10205850

Back/Chest D-Ring, Qwik-Fit Leg Buckles, STD (for EU: M/L)

V-FORM+ HARNESSES

Adding to the standard V-FORM with...

- Body conforming shoulder pads
- Coated webbing
- Dedicated attachment point for Personal Fall Limiters
- Additional lanyard keepers

MSA10206055

Back/Chest/Hip D-Ring, Should padding, With Waist Belt, Bayonet Buckles, STD (for EU: M/L)

V-FIT HARNESSES

All the benefits of the V-FORM+ and...

- RaceFLEX™ Premium Buckle
- Premium Bayonet style buckles
- Superior shoulder and leg padding
- Horizontal leg straps

MSA10206534

Back/Chest D-Ring, Shoulder and Leg padding, STD (for EU: M/L)

V-SERIES PERSONAL FALL LIMITER

- The V-SHOCK EDGE Leading Edge (LE) web PFL allows users to get the job done while working in leading edge scenarios with a product designed to perform in some of the most rigorous environments.
- The V-TEC series of personal fall limiters provides your workforce the safety they need in a compact and lightweight design, getting the job done with the comfort and performance they demand.

VSLEW-012-PH-E

V-SHOCK EDGE, Leading Edge PFL, 1.8m, twin-leg, swivel aluminum scaffold hook (End)

VTOWH-011-DH-E

V-TEC Mini PFL, 1.8m, single-leg, aluminium triple-lock carabiner (Top) swivel aluminum scaffold hook (End)

V-TEC SELF RETRACTING LIFELINE

- Assured safety - spring radial energy absorbing technology requires zero calibration or adjustment
- Built to last - stainless steel/engineered plastics
- Durable - retraction dampening feature controls the cable speed to <3m/s
- Easy inspection and service

MSA63210-00AEU 10m, Galvanised Cable

CSE SOLUTION

- MSA Safety confined space entry solutions make vertical descent easy and safe
- Enhanced certification to cover two persons: the operator and the worker entering or leaving the space
- Durability: Abrasion-resistant sheaths and coatings stand up to heavy use in the toughest environments
- Quick and easy set-up for 1 person in just 2 minutes, fits various manhole sizes thanks to the adjustable legs

LANYARDS

- Energy absorbing and restraint lanyards, available in web and kernmantel rope configurations and a variety of connectors
- Energy absorbing lanyards provide shock absorption and keep fall arrest forces below 6 kN
- Restraint lanyards are primarily used for work restriction and work positioning

MSA10185600

Restraint Lanyard, Webbing, 1.5m Fixed Length, Steel Screwgate Carabiners

MSA10185612

Energy Absorbing Lanyard, 1.5m, Webbing, Twin Leg, Steel Screwgate Carabiner, Steel Scaffold Hook

MSA10185615

Energy Absorbing Lanyard, 1.8m, Kernmantel Rope, Twin Leg, Steel Twist Lock Carabiner, Alu Scaffold Hook, Leading Edge

PERSONAL RESCUE DEVICE PRD

- A lightweight, unobtrusive personal rescue device integrated onto a full body harness
- In the event of a fall the device lowers the person gently to the ground in a controlled descent
- Dramatically reduces rescue time 20m descent height; up to 140kg worker capacity

MSA68202-00L PRD (RH2 Model) with large harness

MSA10116521 Tripod

Please check our website for the MSA Winch, Pulley, Rescuer and carabiners to complete the CSE Kit.

GAS DETECTION

For other configurations, please contact us

The Automated Test System GALAXY GX2 is available on request, with automatic bump and calibration testing capability. System is suitable for whole Altair family of gas detectors and allows synchronization of data with MSA Grid system.

ALTAIR 4XR MULTIGAS DETECTOR

- 4-gas detector which senses gas two times faster than the industry average with MSA[®] XCell[®] sensors
- MIL-STD-810G 516.6 Transit Drop 3rd Party Certified and can survive a 7.5m drop onto concrete
- Dust - and waterproof IP68 rating (2 meters for at least 1 hour)
- 4-year instrument & sensor warranty

MSA10211185 LEL

O₂, CO, H₂S, with power supply, EU, UK EH40

ALTAIR 5X/5XIR/5X PID

- Monitors up to 6 gases simultaneously using XCell, advanced IR or PID sensor options
- Rugged rubber housing provides unsurpassed durability, including the ability to survive 3m drop; IP65-certified
- Unique alarm features with MotionAlert & InstantAlert
- Full 3-year warranty on detector and most popular sensors

MSA10119611 LEL IR

IR LEL (CH₄), O₂, CO, H₂S, 0-10% CO₂, Colour

ALTAIR 2X GAS DETECTOR

- Fastest sensor response times with XCell[®] sensors for H₂S, CO, SO₂, NO₂, CL₂, NH₃
- ALTAIR 2XT Two-Tox Gas Detector: CO/H₂S, CO-H₂/H₂S, CO/H₂S-LC, CO/NO₂ and SO₂/H₂S-LC
- Tough rubber casing survives multiple 7.5m drops onto concrete
- Agency-certified dust- and water-tight IP67 construction
- 3-year warranty on instrument & most sensors

MSA10153985 SO₂/H₂S-LC, GRAY

ALTAIR SINGLE GAS DETECTOR

- Disposable, maintenance free, sensor options: CO, H₂S and O₂
- Version PRO, easily replaceable batteries and sensors, sensor options: O₂, H₂S, CO, HCN, PH₃, CLO₂
- Rubberized armor housing and one-button operation for maximum durability and simplicity

MSA10074137 O₂ Pro

Low 19.50%, High 23.00%, Charcoal case

MSA10092522 CO Pro

Low 25, High 100, Charcoal case

ALTAIR IO 4

- Secure, smart gas detector with out-of-the-box connectivity
- Ultra-rugged design: IP68, MIL-STD-810G 516.6 Transit Drop, NFPA 1982-2018 tumble test
- GNSS: Concurrent GNSS (GPS and GLONASS)
- Connectivity: LTE-M/2G, RFID, Bluetooth: v4.1 (BLE)
- Work seamlessly with the MSA Grid and the ALTAIR io Dock, providing hassle-free compliance, effortless fleet management & incredible visibility into your worker safety that you've never had before

MSA 10245597

0-100% LEL, O₂ Std., CO Std., H₂S Std, Starter Purchase

RESPIRATORY PROTECTION

Please contact us for ordering details

M1 SCBA

- Integrates all modern SCBA features into a compact, easy-to-operate device
- Innovative material composition for increased chemical resistance
- Easy to assemble, don and train. Upgradeable even in the field
- Reduced cost of ownership with a 10 year warranty

G1 FULL FACE MASK

- High comfort, low profile mask for less snagging and improved weight distribution
- Wide distortion-free field of vision
- Unique airflow prevents lens fogging and reduces breathing resistance
- Optional C1 communication headsets can be easily attached

S-CAP ESCAPE HOOD

- A highly visible, one-size fits all hood for simple and quick handling
- Safe protection of breathing, eyes and head
- High performance filter protects against smoke and gas from fires, especially carbon monoxide
- Low breathing resistance

MSA10064644 in carton

MINISCAPE ESCAPE DEVICE

- Using cutting-edge technology, this respirator provides 5 minutes of safety when the seconds count
- Reliable protection against numerous gases and vapors ABEK
- Quick and easy donning, compatible when wearing glasses and for users with facial hair
- Housed in a rugged carrying case, small enough to fit in a user's pocket or carried on the belt

MSA10038560

ADVANTAGE 3000 FULL FACE MASKS

- Designed for high comfort and low breathing resistance
- Panoramic lenses for a clear, undistorted view
- Hypoallergenic silicone body allows a comfortable, pressure free fit
- Upper straps make it easy to put the mask on or take it off

ADVANTAGE 400 HALF FACE MASKS

- Intuitive operation and exceptional comfort
- MSA patented single loop head harness
- Innovative drop-down option - ability to take off the mask without removing helmet or ear muffs
- MultiFlex nose cup provides enhanced comfort

THE FIRST **RECYCLED** PLASTIC SAFETY CUTTER

MADE IN THE USA

- Handle made from 95% recycled material
- Reduce plastic waste by reusing the handle and only replacing the blade head
- Additional interchangeable blade heads available
- Trusted performance, now eco-friendly
- Sustainable packaging

Why PHC?

We believe in making safety cutting tools for every *body*.

For over 70 years, Pacific Handy Cutter has thoughtfully engineered accessible safety cutting solutions for a variety of users, cutting applications and work environments. Our Safety Knives are the preferred cutting tool among grocery, retail and industrial businesses due to their ability to improve worker productivity while reducing the costs associated with accidental injuries, worker compensation claims and damaged merchandise.

From its “protecting planet” range to detailed carbon calculations, uvex is setting new standards in sustainable PPE

uvex has launched a comprehensive range of PPE products featuring a “protecting planet” label, which offers maximum transparency and information about the company’s sustainability activities. The range demonstrates uvex’s commitment to reducing CO₂ emissions, waste, materials, water consumption and energy, without compromising quality or **WEARABILITY**.

As a family-owned German business, uvex has been protecting people and the planet for well over a decade. uvex, founded in 1926, is uniquely positioned as it has owned manufacturing sites across Europe (Its earplugs are made in Sweden, eyewear, gloves and helmets in Germany and footwear in Italy) allowing it to retain 100% control of the design, quality and sustainable performance.

uvex xact-fit planet

Swedsafe, part of the uvex group, has a very small CO₂ footprint. 100% of the power used to produce the uvex xact-fit planet comes from renewable energy sources. Swedsafe is certified in accordance with the ISO 14001 environmental management standard.

uvex

uvex 1 G2 planet

- Ultra light safety shoe made from recycled and sustainable materials with no compromise to its protective properties or to comfort
- uvex x-dry knit planet textile upper material - 100% recycled polyester made from PET bottles
- TPU outer sole with up to 10% recycled PU waste from our own production processes. Highly durable and offers outstanding shock absorption and excellent slip resistance
- Replaceable comfortable climatic insole is also made of 100% recycled PU foam and polyester
- New, uvex i-PUREnrj sole technology provides cushioning and energy return across the entire sole of the foot, helping reduce wearer fatigue
- The foam heel basket offers optimal stability and sure footedness

Sizes 3 to 6.5 have been produced using a women's last

uvex 1 G2

- Ultra light safety shoe designed to minimise wearer fatigue
- New, uvex i-PUREnrj sole technology provides cushioning and energy return across the entire sole of the foot, helping to reduce wearer fatigue
- uvex x-tended grip technology has been developed for those who walk on smooth or wet industrial floors delivering even greater abrasion and slip resistance. The result? Greater durability, safety, stability and less wear
- Virtually seam-free construction made from extremely breathable and water-repellent textile materials
- Removable antistatic insole with a moisture transport system, additional shock absorption around the heel and forefoot and excellent support for the arch

Sizes 3 to 6.5 have been produced using a women's last

uvex 1

- Ultra low weight, versatile S3 safety shoe/boot. Low weight helps reduce fatigue
- Dual layer, low weight PU sole with excellent slip resistance and shock absorption properties
- The pivot point within the tread pattern reduces pressure on joints when twisting and turning
- Heel support system integrated into the sole encases the foot for greater stability without limiting freedom of movement and gives additional side impact protection
- Virtually seamless design to eliminate pressure points further enhancing comfort
- Removable antistatic comfortable insole, with a moisture transport system and additional shock absorption around the heel and forefoot

uvex

uvex 1 trainer

- Sleek sports styling, influenced by the high street
- Soft, flexible textile upper and mesh lining delivers high-levels of breathability
- Pull tab for an easy on off fit
- Metal-free toe cap and penetration resistant midsole
- Elastic 'speed' laces allow the shoes to be individually and quickly adjusted, slipped on or off
- Scuff cap helps protect the upper material for longer-lasting wear
- Removable comfort insole made of 73% recycled polyurethane,
- Dual-density PU anti-fatigue, flexible sole: optimum slip resistance, exceptional shock absorption in the heel and forefoot and arch
- Free from harmful substances according to our restricted substances list which exceeds both REACH and the norm
- This product runs large so we recommend ordering a size down

uvex 1 business

- Smart lace-up protective shoe or boot
- Steel toe cap and metal-free penetration-resistant insole - suitable for office and industrial environments
- Flexible, low weight material - reduces wearer fatigue
- uvex climazone technology - wicks moisture away from foot and regulates the internal temperature reducing moisture build up
- Ergonomically designed PU outer sole with excellent slip resistance
- Meets the ESD specification with volume resistance under 35 megaohms
- Comfortable, climatic insole provides exceptional, full-surface shock absorption. Ultra-breathable, moisture absorbing
- Available in a water-resistant microvelour upper

Lens Cleaning

Did you know uvex lens coatings are permanent even after repeated cleaning?

Extending the life of your glasses through appropriate cleaning solutions not only increases wearer safety, it also means less plastic ends up in landfill and is an investment for your workforce.

uvex

The **ONLY** cut level D glove featuring **45%** recycled and sustainable fibres

For more information go to uvex-safety.co.uk/bamboo-twinflex or via the QR code.

As of 06.2023

uvex Bamboo TwinFlex® D xg

Gram for gram, the uvex Bamboo TwinFlex® D xg has the highest environmentally conscious yarn content compared to its nearest high cut alternative.

The combination of high-tech, high-performance fibres together with natural, sustainable bamboo-viscose and recycled polyamide delivers an extremely comfortable glove with impressive levels of protection against abrasion and cut hazards.

UV60210

Coating	"Xtra Grip" Aqua Polymer - foam
Liner	Bamboo-viscose, Elastane, HPPE, Polyamide, Steel
Standards	EN 388 (4 X 4 1 D) EN407 (X1XXXX)
Sizes	6-12

Carbon neutral production: manufactured in our own German facility**

Environmentally conscious: Weighing on avg. 47g (size 9), these gloves contain c. 21g of recycled polyamide and sustainable bamboo

Accelerator and solvent free: eliminates potential allergies

Plastic free packaging: for over 11 years

- 18 gauge cut level D liner:** thin, flexible, protective, breathable
- Bamboo content:** gives 6 x higher sweat absorption* in just 2.8 seconds
- All day comfort:** bamboo feels smooth and silky-soft against the skin
- XtraGrip foam coating:** highly effective grip in dry, damp, oily areas
- High abrasion resistance:** and reinforced thumb crotch for long service life, cost savings and less waste
- Awarded 3 dermatological approvals:** certified ProDerm Institute, OEKO-TEX Standard 100 and uvex pure standard
- Touchscreen compatible:** no need to remove the glove between tasks
- Adaptive fit:** moulds precisely to fit the shape of any hand within 3 to 5 minutes of wearing

*Compared to traditional man-made fibres

**100% electricity from renewable energy and CO2-neutral gas through off-setting. Certified to ISO 14001 Environmental Management and ISO 50001 Energy Management system.

uvex

uvex phynomic x-foam HV

- Intended design to enable one or more digits to detach / tear should fingers become trapped in machinery
- Flexible, second skin fit gives a natural touch
- Dermatologically tested and approved

UV60054

Coating Aqua-polymer foam
Liner HPPE, elastane
Standards EN 388 (3 1 X 1 X)
Sizes 6-10

uvex phynomic C5

- Cut level C safety glove with a second skin fit
- Very good abrasion resistance for durability
- Very good grip in dry and slightly damp areas
- Outstanding tactile feel when assembling parts
- Sustainable: 45% bio-based HPPE making them particularly sustainable
- Dermatologically approved
- OEKO-TEX® Standard 100
- Food Standard approved

UV60081

WATERPROOF IN COMBINATION WITH LONG-LASTING BREATHABILITY

The GORE-TEX membrane prevents water from entering the shoe and ensures that your feet remain dry and protected. It is ultra-thin, highly waterproof and breathable. Gore-tex is permeable for water vapour allowing perspiration to escape unhindered, because the pores in the GORE-TEX membrane are 700 times larger than a water vapour molecule, allowing your feet to "breathe". Due to the microscopic pores which are approximately 20,000 times smaller than a water droplet, the GORE-TEX membrane is completely waterproof. This technology provides the ideal climate comfort for your feet in every season.

SUSTAINABLE RANGE

APPLICATIONS

- Use on hands, tools, machinery and most surfaces
- Mobile workers, construction trade, engineering

REMOVES THE FOLLOWING AND MORE:-

- Fast removal of Semi-cured silicone sealant and decorators caulk
- Oils and greases • Adhesives
- Water-based paints • Inks • Dirt and grime

Product Codes

1/ DGBCL80 (Canister) 2/ DGBF25UK (Soft Pack)

"Dirteeze Wipes With A Difference" have created another first, adding a range of wipes made from bamboo, bamboo, to their innovative stock range of products.

Bamboo grows up to 2 feet per day, is 100% biodegradable and fully sustainable. No use of softwood or hardwood trees that can result in deforestation. No use of plastics No use of fossil fuels/oil reserves.

Bamboo is nature's answer to our needs for everyday wipes in an environmentally sustainable form, it just so happens that it also performs better than the estimated 91% of wipes in the UK that are made from plastic.

TRADEMATE RAYON BAMBOO PRO WIPES

FEATURES

- Outperforms polypropylene (plastic) wet wipes
- Super absorbent with high lift on grime
- Oeko-tex 100 certified with no harmful substances
- Antibacterial tested to BS EN1276, Tested against Weils disease
- 100% biodegradable and from sustainable plant sources
- Cosmetic approved, with zero recorded irritation on all skin types

Fighter Wipes

DIRTEEZE

- 100 % made from natural food based organic acids, including Tartaric and Lactic acids (sustains good skin condition), Lavender Oil and Peppermint Oil
- 100 % biodegradable and can be pour down the drain as natural waste
- Quat free
- Alcohol free
- No harmful residues
- Large Tub Size of 200 Wipes

Product Code

DZFWP200

LAX60 Wipes

DIRTEEZE

- Super strength 60gsm non-woven wiper
- Low lint
- Re-usable properties
- Highly absorbent
- Can be used with solvents and cleaning agents
- Portable box with carry handle
- Compact packed for space saving
- Perfect as white cotton rag and mixed rags replacement
- Save space on boxes of rags, low lint applications, use as disposable tea towels for construction site kitchens, cleans oils, lubricants, and water spills
- Extra large sheet size

3/ DZRS2 (Twin-pack Sachet Wipes - Case 50 X 2)

Smooth and Strong Heavy Duty Wipes

DIRTEEZE

- Pre-moistened so no need for water
- High drapability for effective cleaning of smallest cracks and surface imperfections
- Extra-large wipe size for greater volume wiping tasks
- Medium strength for use on smoother surfaces
- Good absorbency with liquid spills and cleans faster
- Skin-patch tested as safe to use on skin
- Contains aloe vera for keeping hands moisturised
- Conforms with EC1223/2009 Cosmetic Directive
- Antibacterial tested to BS EN1276
- Tested against Weils disease
- Use on hands, tools, machinery and most surfaces
Extra large wipe size, 30 x 20cm

Product Code
DZSS80

Glass and Plastic Trade Wipes

- Dirteeze Hydrocell material for streak-free finish
- One wipe cleans further
- Low lint material does not leave fibres
- Fresh smelling
- Use on windows and other glass surfaces, UPVC window frames and other plastic surfaces, ceramic tiles, porcelain tiles and linoleum
- Classified to EC1278/2008

Product Code
DZGP80

Easy To Use

Worker Emergency I.D

Hard Hat ID - **Standard**

Stores workers medical info & emergency contacts for use in the event of an accident or medical emergency

- Fixes securely to the workers hard hat / clothing
- Secure tamper-proof seal (ensures data privacy)
- Highly Reflective (3M Scotchlite™ reflective material)
- Water / weather resistant
- Helmet safe 3M™ adhesive used
- Non electrically conductive
- Weighs less than 5 grams
- Now available with FREE Emergency Worker ID Mobile App for Apple and Android smart phones

A low-cost back-up to supplement your existing on-site safety procedures
