

A construction worker is shown in a dynamic pose, using a Makita wet-cutting circular saw to cut through a concrete slab. The worker is wearing a black Makita vest over a white t-shirt, black work pants, and blue Makita gloves. He has a tattoo on his left arm and is wearing safety glasses. The saw is blue and black, with a large circular blade that is wet, creating a spray of water and concrete dust. The background is a blurred outdoor setting with trees and foliage.

WORKWEAR

**YOU KNOW
THE DRILL**

PRODUCT GUIDE 2026-27

YOU KNOW THE DRILL

Makita has built a global reputation for tools that perform day in, day out, on demanding work sites. Trusted by tradespeople worldwide, and recognised for performance, reliability and quality without compromise.

That practical, performance-first approach now defines the new Makita Workwear range - tough, considered and built for real working environments.

A COMPLETE KIT

The head-to-toe collection features everything from base layers to outerwear, trousers, t-shirts and safety footwear, with every layer built to perform and handle the realities of site life. The range also includes dedicated womenswear, featuring sizing specifically for women and the same performance features throughout.

ENGINEERED TO PERFORM

Engineered to the standards tradespeople expect from Makita tools, the range delivers durability, comfort and technical performance.

The difference is in the detail - durable fabrics, high-quality components and smart design features that improve comfort, flexibility and long-term wearability.

Performance features are built in where they matter most:

- CORDURA® reinforcements in high-wear areas
- YKK® zips specified for durability
- Ripstop fabrics for strength without unnecessary bulk
- Durable water-repellent finishes for reliable weather protection
- Recycled fibres and responsibly sourced 100% BCI cotton
- Work-focused fits designed for movement and all-day comfort

SERVICE YOU CAN TRUST

Makita Workwear is available exclusively through a trusted network of authorised dealers, ensuring you get the right product, backed by expert advice and service. Visit makitaukworkwear.com to find your nearest stockist.

CERTIFIED STANDARDS

Makita Workwear is developed using materials and processes that meet recognised global standards - from responsibly sourced cotton and recycled fabrics to traceable production and rigorously tested quality standards.

STANDARD 100

Textile products tested for harmful substances under a globally consistent independent standard.

MADE IN GREEN

Products certified to STANDARD 100 and manufactured in facilities that meet safe, socially responsible and traceable production criteria. Traceable via QR code.

Cotton grown under a globally recognised standard promoting more sustainable farming practices, improved environmental stewardship and better livelihoods for farming communities.

An international voluntary standard verifying recycled content, chain of custody, and environmental and social practices throughout production.

WORKWEAR

Performance-led workwear built with durable materials and technical features, without compromising on comfort or style.

From everyday essentials like T-shirts and hoodies to technical outerwear, stretch trousers and insulated layers, the Makita Workwear range is designed for comfort, movement and protection on site - whatever the job demands.

MK101M

Origin T-Shirt - Off White

RRP:
£14.99

DESCRIPTION:

An everyday essential that looks just as good off-site as it does on the job. Made responsibly from 100% BCI cotton, the Origin T-Shirt is naturally breathable and comfortable for all day wear. Featuring a vintage style graphic print on the back, it blends classic style with everyday function. The regular fit makes it easy to layer or wear on its own, while reinforced shoulder seams add durability where you need it most.

FEATURES:

- 100% responsibly sourced BCI cotton
- Midweight fabric for everyday wear
- Breathable fabric
- Taped neck seam for extra durability

COLOURS:

Off White

SIZES:

S - 2XL

MK101M

Origin T-Shirt - Black

RRP:
£14.99

DESCRIPTION:

A reliable, everyday T-shirt made from 100% BCI cotton for breathable, all-day comfort. Finished with a Makita logo on the front, it features a regular fit for easy wear and reinforced shoulder seams for added durability.

FEATURES:

- 100% responsibly sourced BCI cotton
- Midweight fabric for everyday wear
- Breathable fabric
- Taped neck seam for extra durability

COLOURS:

Black

SIZES:

S - 2XL

MK102M

Tech T-Shirt

RRP:
£16.99

DESCRIPTION:

Made from recycled polyester, the Tech T-Shirt is moisture-wicking, quick-drying and breathable to keep you comfortable on warmer days and when the pace picks up. Finished with a graphic arm print and reflective branding for a clean, functional look.

FEATURES:

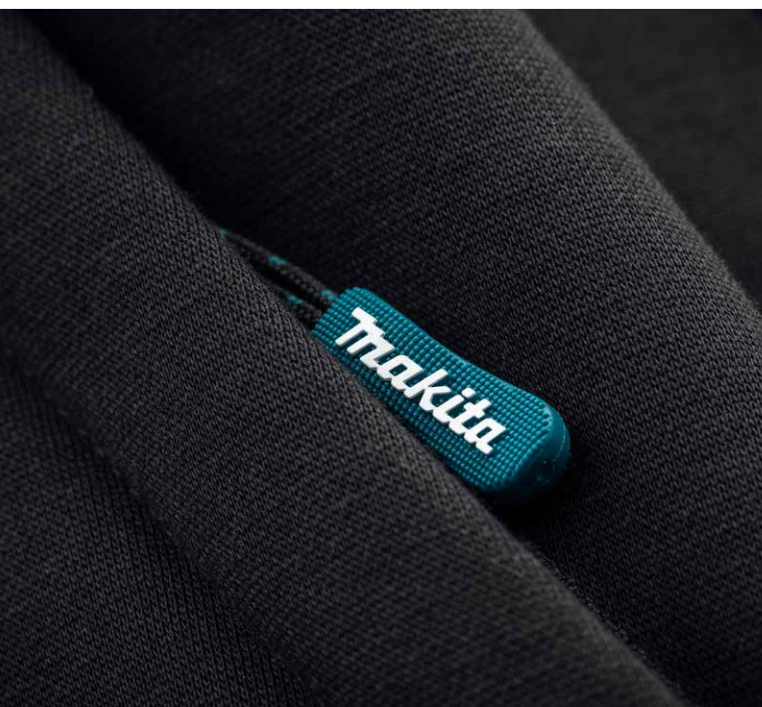

- 100% GRS recycled polyester
- Lightweight fabric ideal for layering and warmer conditions
- Wicks sweat and dries quickly
- Breathable performance fabric
- Sublimated print on arms
- Reflective Makita branding for enhanced visibility

COLOURS:

Black

SIZES:

S - 2XL

MK104M

Origin Hoodie

RRP:

£39.99

DESCRIPTION:

A reliable, everyday hoodie designed to be worn on-site or off. The Origin Hoodie features heavyweight fleece-lined fabric to keep you warm and comfortable, while the regular fit layers easily. A zipped pouch pocket, drawcord hood and taped neck add everyday practicality and durability where it's needed most.

FEATURES:

- 65% polyester & 35% BCI cotton
- Heavyweight fabric designed for warmth and durability
- Warm polycotton fleece
- Soft brushed lining
- Secure zip pocket
- Adjustable hood for a secure fit
- Taped neck seam for extra durability

COLOURS:

Black

SIZES:

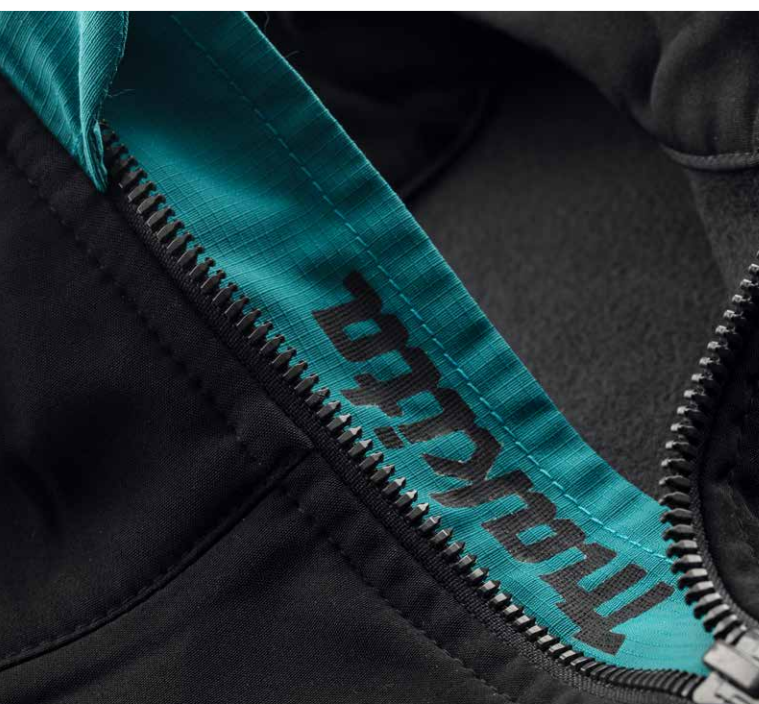

S - 2XL

MK201M Shield Bodywarmer

RRP:
£39.99

DESCRIPTION:

The Shield Bodywarmer is a lightweight layer built for warmth without the bulk. Made from durable ripstop nylon with stretch panelling for flexibility, it's insulated to keep the chill off and finished with a water-repellent coating to help you stay dry. Durable YKK zips, handy internal pockets and subtle reflective branding complete the technical look.

FEATURES:

- 100% nylon ripstop body
- Stretch shoulder and side panels for improved movement and flexibility
- PFC free* water-repellent finish
- Hardwearing YKK zips
- Internal pocket for safe storage
- Reflective Makita branding for enhanced visibility

COLOURS:

Grey

SIZES:

S - 2XL

* PFC-free means the fabric is treated to repel water without using perfluorinated ("forever") chemicals, reducing environmental impact.

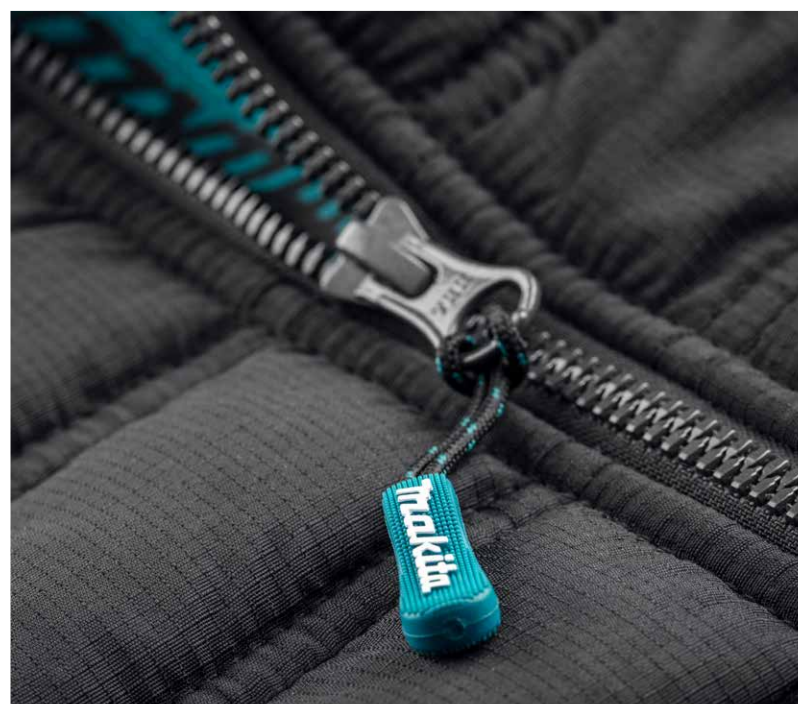

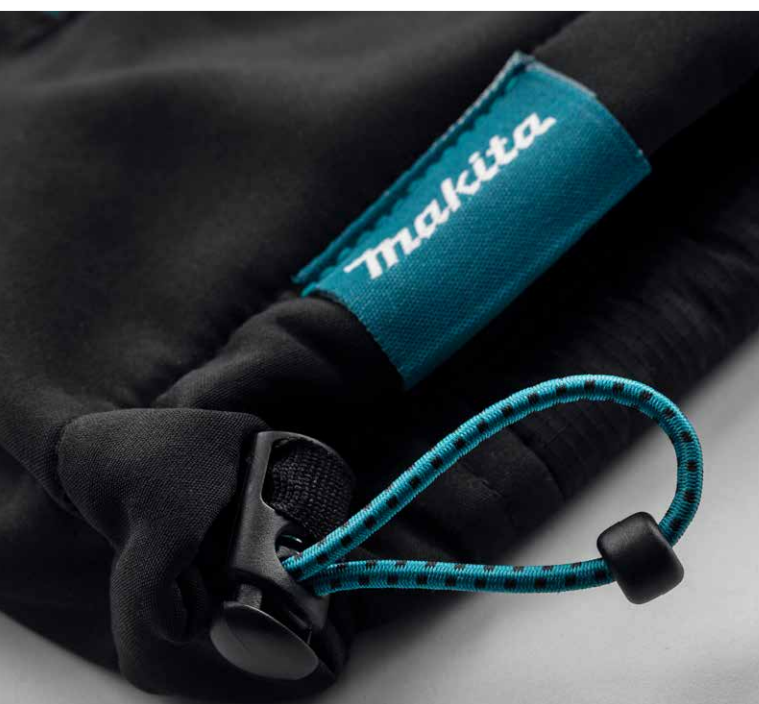

MK202M

Shield Jacket

RRP:
£59.99

DESCRIPTION:

An insulated jacket built to deliver warmth without restriction, the Shield Jacket features durable ripstop nylon and stretch panels for easy movement, while the insulation keeps you warm when temperatures drop. Finished with a water-repellent coating, durable YKK zips, adjustable hem and internal pockets for everyday practicality.

FEATURES:

- 100% nylon ripstop body
- Stretch sleeve and side panels for improved movement and flexibility
- PFC free* water-repellent finish
- Hardwearing YKK zips
- Internal pocket for safe storage
- Reflective Makita branding for enhanced visibility
- Adjustable drawcord hem for a customised fit

COLOURS:

Black

SIZES:

S - 2XL

* PFC-free means the fabric is treated to repel water without using perfluorinated ("forever") chemicals, reducing environmental impact.

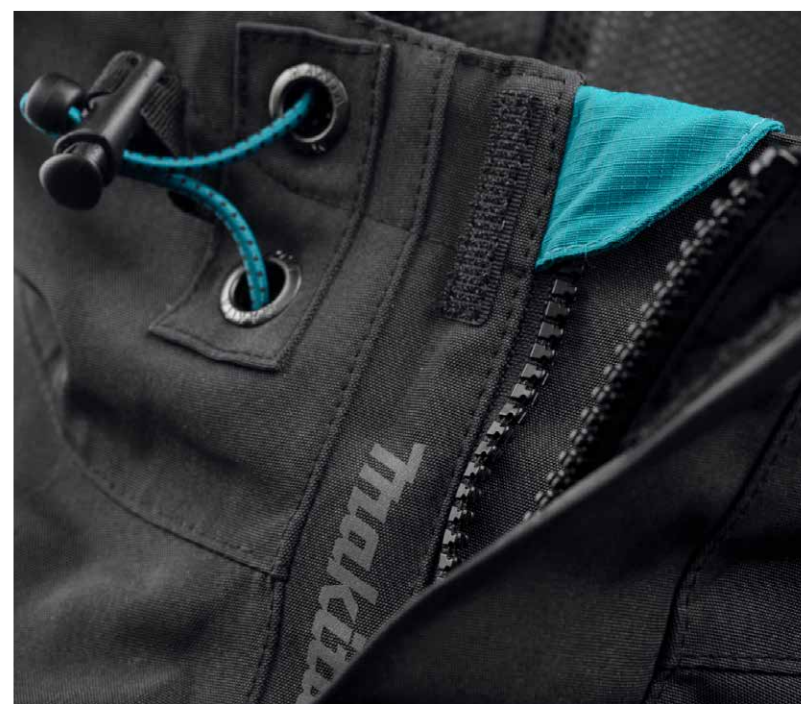

MK203M

Aero Jacket

RRP:
£59.99

DESCRIPTION:

A lightweight, waterproof, over-the-head jacket built for wet days on site. The Aero Jacket features a durable PU-coated outer with taped seams to help keep rain out, while a breathable mesh lining keeps you comfortable. Functional details including an adjustable hood, kangaroo pocket and zipped side access make it practical to wear all day.

FEATURES:

- Hardwearing PU coated 100% polyester
- 5000mm waterproof rating
- Midweight fabric for comfort and durability
- Taped seams to keep water out
- Lightweight, breathable mesh lining
- Zipped side opening for ventilation
- Reflective print for enhanced visibility
- Adjustable hood for a secure fit
- Kangaroo pocket for easy-access storage

COLOURS:

Grey

SIZES:

S - 2XL

MK302M

Axis Stretch Shorts

RRP:
£39.99

DESCRIPTION:

Designed to move with you, made from 4-way stretch fabric with a modern slim fit, the Axis Stretch Shorts move comfortably with you on warmer days. Secure side and rear pockets keep essentials close, while the elasticated waistband ensures a comfortable fit. Finished with subtle reflective branding for a clean, technical look, they're flexible, practical and ready to work.

FEATURES:

- 90% nylon & 10% elastane
- Midweight fabric for comfort and durability
- 4-way stretch fabric for freedom of movement
- Slim fit
- Secure hip, side and rear pockets
- Hardwearing YKK zips
- Elasticated waist with drawcord for comfortable fit
- Reflective trim for enhanced visibility

COLOURS:

Black

SIZES:

S - 2XL

MK301M

Axis Stretch Jogger

RRP:
£49.99

DESCRIPTION:

Designed to move with you, the Axis Stretch Jogger features a 4-way stretch fabric and a slim fit for flexibility without restriction. Reinforced stretch knee panels add durability where it's needed, while secure pockets and YKK ankle zips bring practical functionality. Finished with a water-repellent coating, the Axis Stretch Joggers offer a comfortable alternative to traditional work trousers.

FEATURES:

- 90% nylon & 10% elastane
- Midweight fabric for comfort and durability
- 4-way stretch fabric for freedom of movement
- Slim fit
- Robust stretch fabric reinforced knees
- Secure hip, side and rear pockets
- Hardwearing YKK zips
- Elasticated waist with drawcord for comfortable fit
- Adjustable zipped hem for quick boot access
- PFC free* water-repellent finish

COLOURS:

FIND YOUR FIT

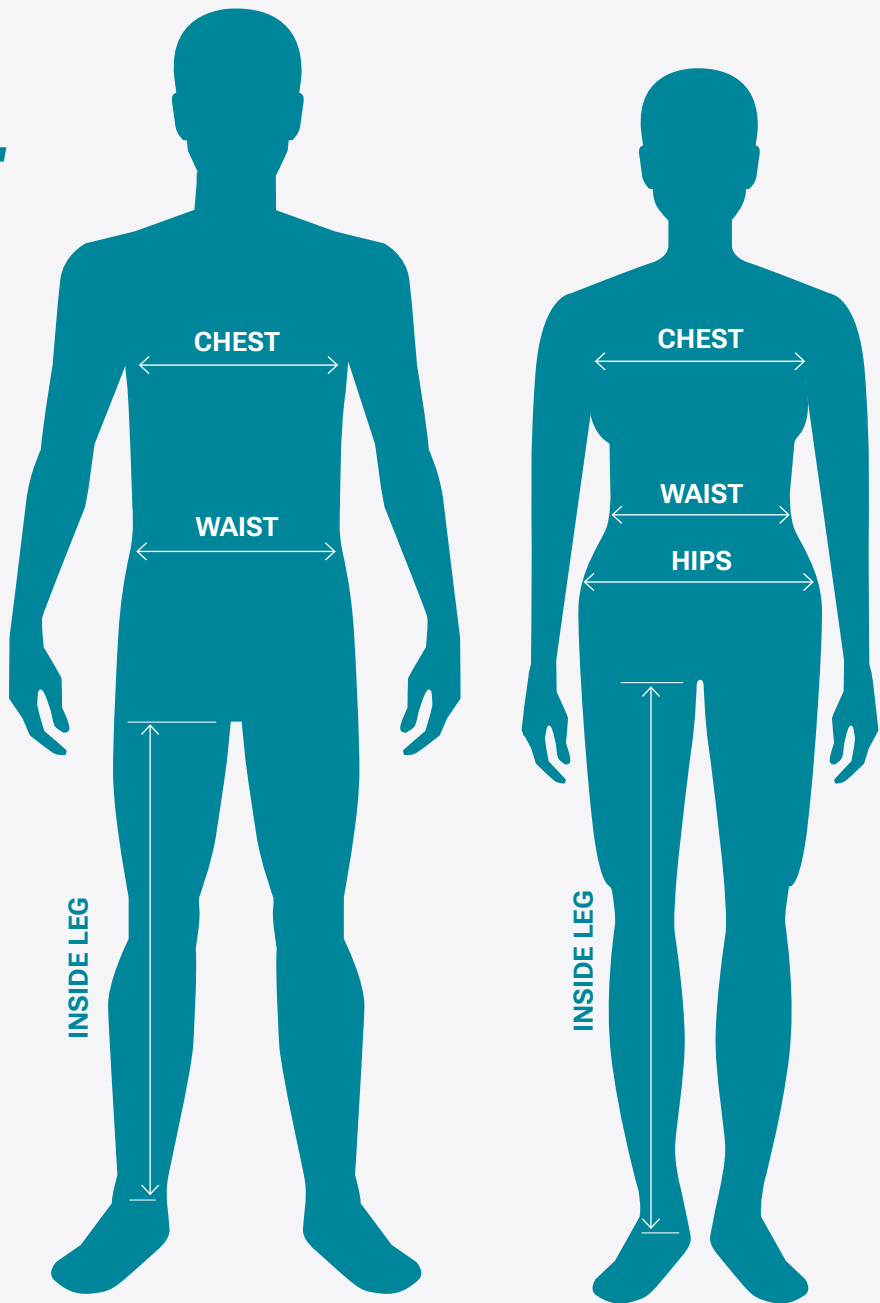

Getting the right fit is essential for comfort, performance and freedom of movement on site. Use this guide to help find your ideal fit in clothing and safety footwear.

Makita Workwear is designed with a work-focused fit, allowing for movement and layering without restriction.

If you're between sizes or prefer a looser fit, we recommend sizing up.

HOW TO MEASURE

- CHEST**
Measure around the fullest part of your chest, keeping the tape level under your arms.
- WAIST**
Measure around your natural waistline, just above the hips.
- INSIDE LEG**
Measure from the top of the inside leg down to the ankle.
- FOOTWEAR**
Select your usual UK shoe size. If you're between sizes, we recommend sizing up.

FIT GUIDE

FOOTWEAR FIT TIPS

Not all footwear fits the same. This size guide provides a good indication of the size you should choose, but there may be slight variations between styles.

Wearing correctly fitting footwear is essential for comfort and long-term foot health. Your foot shape can change over time, so it's important to check your size regularly.

For the best fit, always measure both feet - most people have one foot slightly larger than the other. Fit to the larger foot and try footwear on with your usual work socks.

Make sure footwear is properly laced and that your toes are not touching the front. To check the fit, loosen the laces and slide a finger down the back of the shoe behind your heel - your toes should just reach the front without pressure.

MEN'S FOOTWEAR						
UK	7	8	9	10	11	12
US	8	9	10	11	12	13
EURO	41	42	43	44	46	47

WOMEN'S FOOTWEAR				
UK	4	5	6	7
US	5	6	7	8
EURO	37	38	39	40

WORKWEAR FIT TIPS

The fit of workwear depends on the cut, fabric and style of the garment. If you're unsure, follow the measuring guide and refer to the size chart to find the right fit you.

If you're between sizes, consider whether you prefer a closer fit or extra room for layering, and ensure your workwear allows for unrestricted movement.

TROUSERS

Semi-tailored woven and stretch-woven garments with a mid-rise fit, designed to skim the leg with a slight taper and finish full length. They should fit comfortably at the waist, allowing enough room to move without restriction.
