

MASCOT® WORKWEAR

MASCOT® ACCELERATE | Workwear for a wide range of industries

EN

MASCOT® ACCELERATE *WORKWEAR FOR A WIDE RANGE OF INDUSTRIES*

MASCOT® ACCELERATE is a wide range of workwear for various industries, allowing you to create a uniform corporate image across professions. With many different colours, features and fabric qualities, there are plenty of options for combining products to suit your needs.

The range includes a wide selection of products with ULTIMATE STRETCH, which provides complete freedom of movement. Several of the products with ULTIMATE STRETCH can be industrial washed without compromising the high wear resistance or comfort. The range also includes products for men and women.

MASCOT® WORKWEAR

MASCOT® WORKWEAR is a Danish family-owned business with a clear vision: to set new standards for workwear and safety footwear.

Since 1982, we have been developing workwear and safety footwear for professionals who demand a high level of comfort, wear resistance and durability. Today, MASCOT is one of Europe's leading manufacturers with its own sales teams in more than 15 countries and exports to most of the world.

We design and develop in Denmark, while the majority of our products are manufactured in our own SA8000-certified factories in Vietnam and Laos. This gives us full control over the entire process – from ideation to the finished product – and ensures our uncompromising quality standards are upheld in every single product.

CORPORATE IDENTITY — FROM HEAD TO TOE

With products from MASCOT® ACCELERATE, you can dress your entire company from head to toe, creating a professional and consistent look.

Combine work clothes with footwear in matching designs and colours to align your look. The wide range of options makes it easy to achieve a consistent look across all job functions in your company.

LOGO PRINTING AND EMBROIDERY

Complete your company profile by having your logo printed or embroidered onto your workwear. Most products in the range have plenty of space for printing and embroidery, allowing you to add a personal and professional touch to your workwear.

Easily integrate transfers and embroidery into your workwear ordering process. Regardless of which ordering solution you choose, it is easy to add transfer printing or embroidery to your order, as both print types are handled in the same workflow as the automated picking from the high-bay warehouse.

ProWash®

EN ISO 15797

WORKWEAR SUITABLE FOR *INDUSTRIAL WASHING*

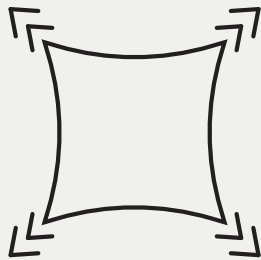

ProWash® is MASCOT's designation for products that can withstand industrial washing and drying. When we state that a product can withstand industrial washing, it means that we have tested the product's ability to retain its fit, the resistance of the seams, the strength of the material, shrinkage and any colour change or transfer.

When we mark products with ProWash®, it means that the products are very durable and retain their shape and colour after repeated industrial washing.

ULTIMATE STRETCH – four-way stretch suitable for industrial washing

Fabric quality 511 has been developed using one of the most advanced elastic fibres on the market. This means that the fabric can withstand industrial washing at 75 degrees and tunnel drying. It is unique that the elastic in all directions properties can be combined with industrial washability.

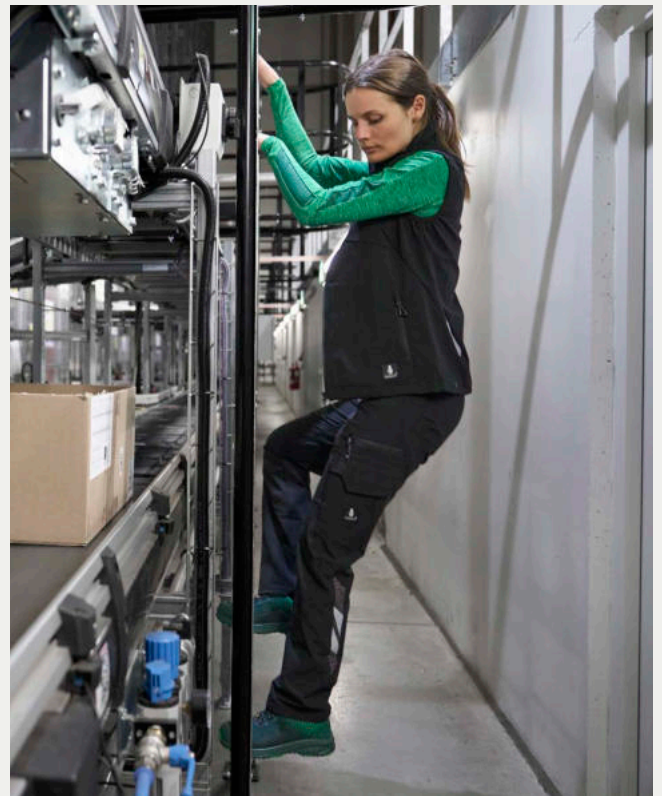

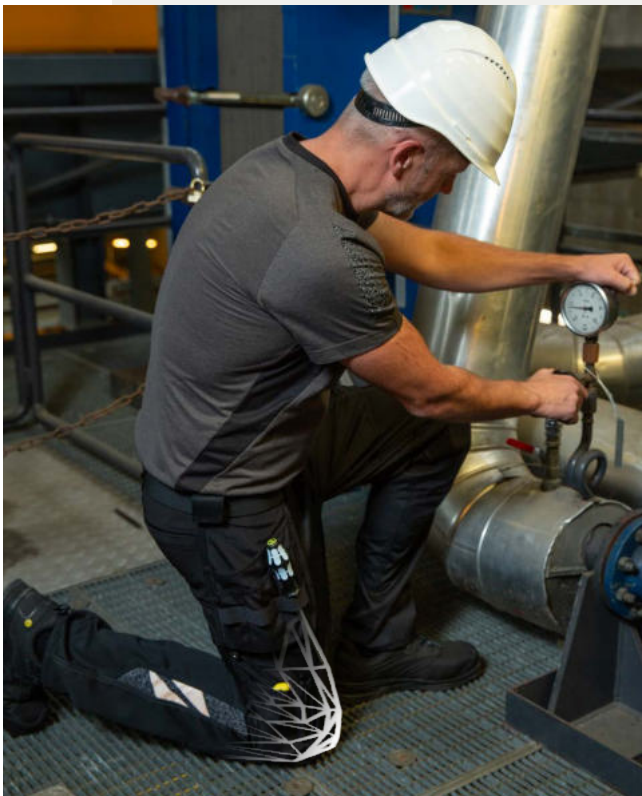

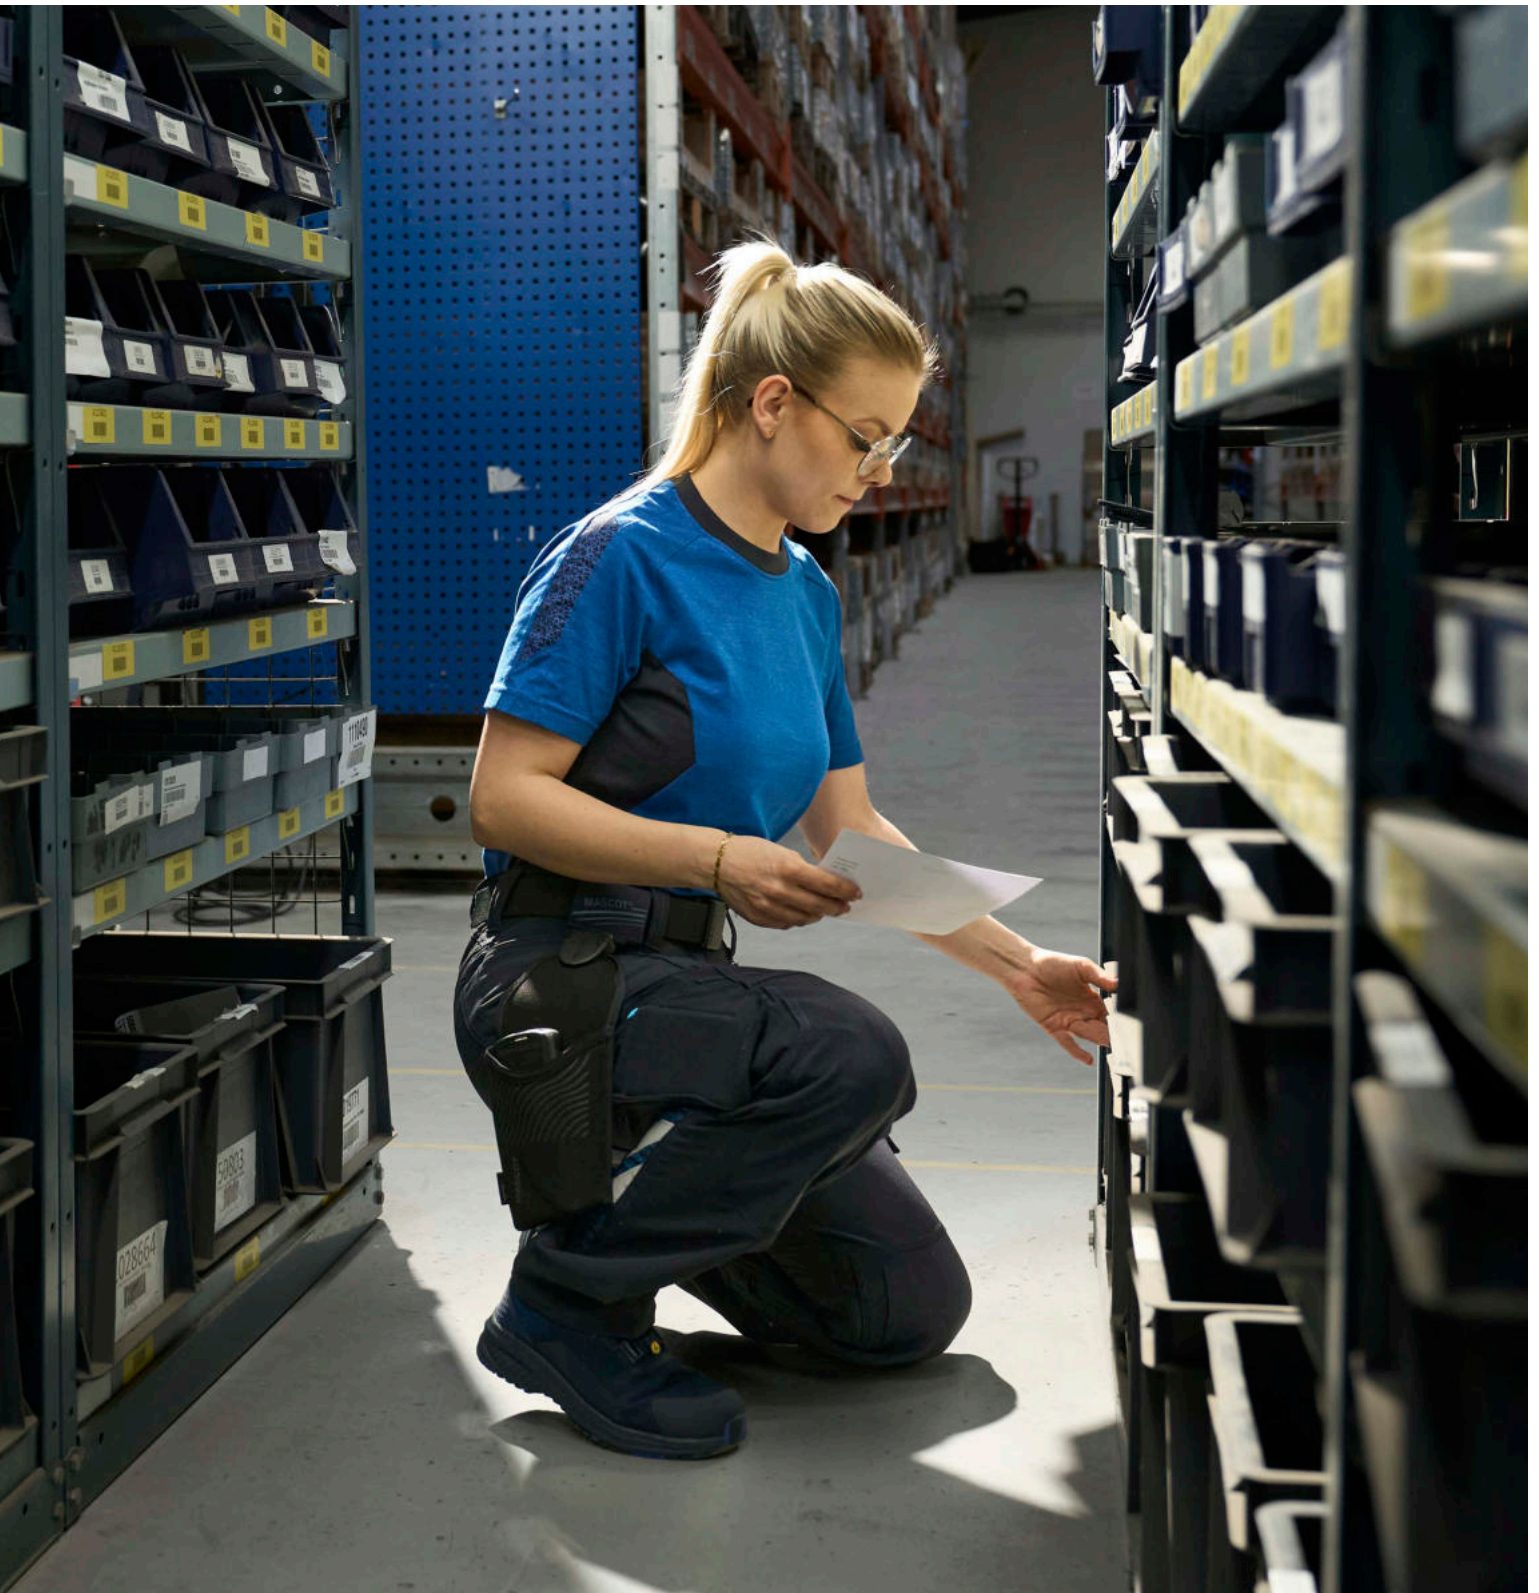

ULTIMATE *STRETCH*

ULTIMATE STRETCH is our name for a material that is elastic in all directions. Workwear made from ULTIMATE STRETCH offers high wear resistance and unique freedom of movement.

The four-way stretch workwear is so flexible that it is almost undetectable against the skin, contributing to ultimate functionality, freedom and flexibility throughout the working day. In MASCOT® ACCELERATE, products in fabric quality 511 and 311 feature ULTIMATE STRETCH.

Trousers in fabric quality 442 combine a very durable quality with ULTIMATE STRETCH zones for increased freedom of movement – we call this zone stretch.

TROUSERS

FOR EVERY NEED

In MASCOT® ACCELERATE, you can choose from trousers in 8 different fabric qualities, each with their own unique properties, developed for varying needs and work situations.

Whether you need trousers with or without ***holster pockets***, ***thigh pockets*** or ***kneepad pockets***, you will find a pair to match your needs and preferences. The trousers are available in a wide range of waist sizes and three leg lengths.

HIGH WEAR RESISTANCE WITH CORDURA® REINFORCEMENTS

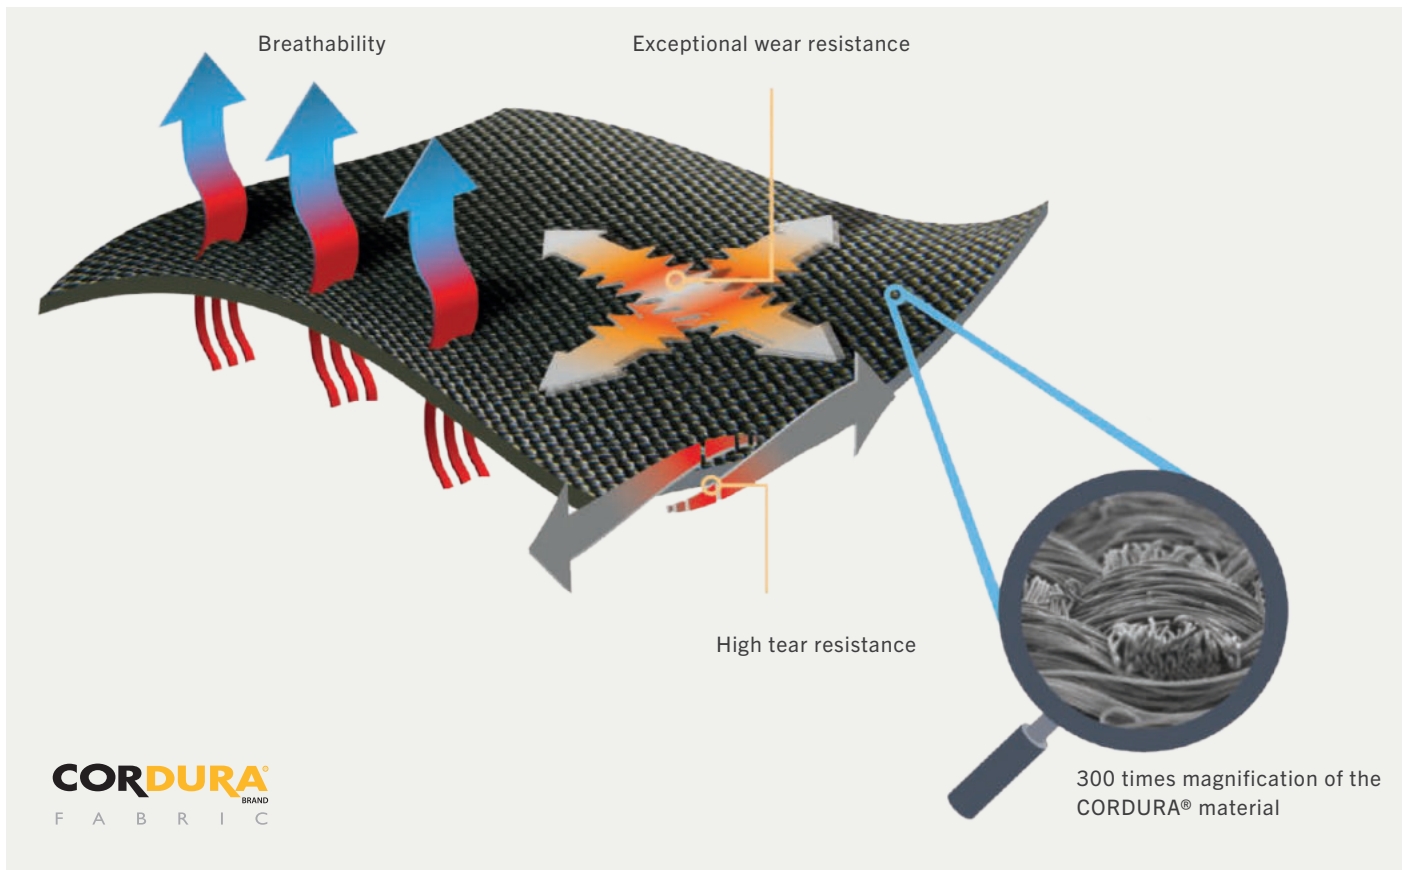

High wear resistance is essential when working at a fast pace. CORDURA® is much stronger than other fabric qualities, and MASCOT uses it as reinforcement in areas where clothing is exposed to extra wear, such as knees, elbows, ruler pockets and holster pockets. By choosing products with CORDURA®, you ensure that your work trousers and jackets will last a long time.

TROUSERS FOR LADIES IN *TWO FITS*

Choose between **DIAMOND** & **PEARL**. The difference between the two fits is the ratio between waist and hip measurements.

If the difference is greater than 20 cm, we recommend a DIAMOND fit. If the difference is less than 20 cm, we recommend a PEARL fit.

Trousers that are not available in a ladies' version are designed so that they can also be worn by women. We therefore always recommend trying on the trousers to find the best fit.

CUSTOMISE WORK TROUSERS FOR EACH EMPLOYEE

Do you need tools close at hand or extra storage space? You can easily add holster pockets to work trousers with our flexible and innovative Click Pocket System.

The holster pockets are added to MASCOT® ACCELERATE work trousers using a belt loop that is attached to a belt. The unique click system allows you to place the pockets exactly where you want them, and you can even add as many as you need for the job at hand.

An efficient and flexible solution with the perfect opportunity to adapt the work trousers to the needs of individual employees across job functions in the company.

STAY WARM WITH ***CLIMASCOT®***

CLIMASCOT® Lightweight Insulation is an advanced lightweight lining with extremely high insulating properties. It is used in many of our winter and thermal jackets. The lining is breathable and dries quickly.

In a working day with high physical activity in a cold environment, the CLIMASCOT® lining ensures that the body can release excess heat and does not cool down and get wet. This offers the user a very high level of comfort. The lining is made from 35% recycled polyester.

A COMPLETE SOLUTION FOR THE ENTIRE COMPANY

At MASCOT, you get a complete solution with workwear in the same design for every work situation. It is unique that we can clothe the entire company, regardless of whether the need is for workwear, high-visibility clothing or multi-protective clothing.

The design line across the MASCOT® ACCELERATE, MASCOT® ACCELERATE SAFE and MASCOT® ACCELERATE MULTISAFE ranges is the same, allowing you to create a strong and common identity across job functions within the company.

Mix & Match our products across ranges and colours to achieve a professional look from head to toe.

ORDERING WORKWEAR SHOULD BE EASY — EVEN ON A BUSY DAY

Using the online ordering and logistics platform MASCOT® SmartStore, you can define the range of products available to your employees so they are provided with the exact workwear they need. At the same time, you ensure a consistent look and a strong corporate identity — across tasks and safety requirements.

MASCOT® SmartStore can be tailored to the needs of your company and employees. The ordering system is user-friendly, and employees can order their new workwear from your defined product range at any time of the day. Errors can be reduced or eliminated, saving time for both employees and the company.

Save time with easy ordering

Fast and flexible delivery

MASCOT® SmartStore

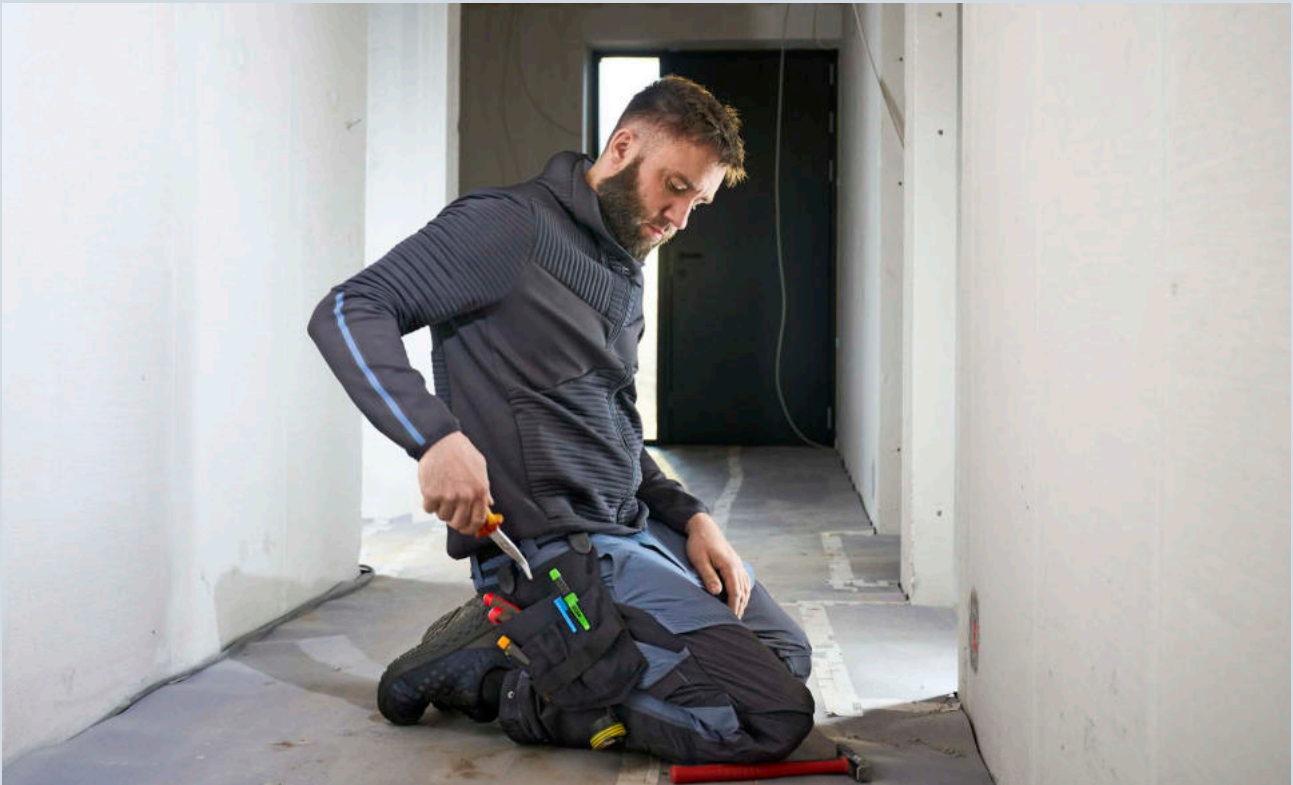

SA8000-CERTIFIED IN-HOUSE PRODUCTION YOUR GUARANTEE OF WORKWEAR PRODUCED UNDER DECENT CONDITIONS*

*With our production in the Far East, we have a social responsibility, and we take it seriously. The employees at our factories in Vietnam and Laos work in a European work culture under proper conditions. Our documentation shows that our factories are SA8000 certified – one of the most recognised certifications in the field. It is a guarantee to the outside world and our own employees of a safe and secure working environment and good working conditions adapted to local conditions.

TESTED *TO WORK* YOUR GUARANTEE OF THOROUGHLY TESTED QUALITY*

*At MASCOT, we never compromise on the quality of our products. As part of our Tested to Work strategy, our products are thoroughly tested during the development process before they are launched onto the market. They are tested in our own laboratories and by our test users, who work closely with our product specialists to ensure the highest level of functionality, freedom of movement and durability. This comprehensive testing process ensures that every product meets our high standards for quality and functionality.

A POSITIVE FOOTPRINT

At MASCOT, we work to reduce our consumption and our waste – and we do so by considering our entire supply and value chain. This holistic approach allows us to reduce consumption where it is most optimal to do so while holding back in places where taking action may hurt other parts of the value chain. It is not individual efforts that count, but the overall picture.

Suppliers and business partners

We work with all suppliers to reduce the use of chemicals and water in general. We also always select suppliers according to their environmental profile, and the vast majority of our fabrics come from suppliers who have both Bluesign® and ISO 14001 certifications.

Responsible production

We produce the vast majority of our workwear ourselves at our two SA8000-certified factories in Vietnam and Laos. The SA8000 certification is a guarantee to the outside world and our own employees that we have a safe and secure working environment and offer good working conditions adapted to local conditions.

Workwear with long-lasting durability

We produce long-lasting workwear and safety footwear with responsibility for the environment and people. Long durability means that, over time, the user needs to buy fewer products. Meanwhile we reduce our overall resource consumption because we produce fewer products over the same period of time.

Logistics with care

Our production is based in Vietnam and Laos and in our main warehouse in Denmark. The vast majority of our products are transported between Asia and Europe using modern container ships. We only work with shipping companies that are planning to convert their fleet from diesel engines to liquefied natural gas (LNG).

A black and white photograph of a woman with dark hair, wearing a small flower hair clip, focused on sewing at a machine in a factory setting. Other workers and sewing machines are visible in the background.

“

We invest in people and the environment in our supply chain, and we are highly conscious of the fact that we operate in an industry that has a large impact on the climate, and where we must fundamentally change the way we make our products.

Michael Grosbøl, CEO and owner of MASCOT.

An all-in-one solution

The world's best workwear and safety footwear are more than just the products. At MASCOT, you are guaranteed great customer service, efficient logistics and high delivery reliability.

Time-saving ordering

With MASCOT® SmartStore you avoid spending unnecessary time on clothing- and footwear orders. The logistics and ordering system makes ordering and order management easy, fast and flawless.

A global solution

Does your company have employees based in multiple countries? MASCOT makes workwear and safety footwear sourcing simpler with one global sourcing solution for your business.

High security of supply

More than 98% of all orders are dispatched from our state-of-the-art, fully automated logistics centre within 24 hours. We also use some of Europe's largest and most reliable freight carriers, ensuring that shipments reach our customers quickly.

Printing and embroidery

No matter which products you choose, adding transfer printing or embroidery could not be easier. MASCOT does it in-house, which helps keep delivery time down.

Individual adjustment

Does your company have special requests or require other individual customisations? MASCOT offers bespoke solutions so you always get the workwear that matches your needs and wishes.
