A POSITIVE FOOTPRINT

At MASCOT, we work to reduce our consumption and our waste – and we do so by considering our entire supply and value chain. This holistic approach allows us to reduce consumption where it is most optimal to do so while holding back in places where taking action may hurt other parts of the value chain. It is not individual efforts that count, but the overall picture.

Suppliers and business partners

We work with all suppliers to reduce the use of chemicals and water in general. We also always select suppliers according to their environmental profile, and the vast majority of our fabrics come from suppliers who have both Bluesign® and ISO 14001 certifications.

Responsible production

We produce the vast majority of our products ourselves at our two SA8000-certified factories in Vietnam and Laos. The SA8000 certification is a guarantee to the outside world and our own employees that we have a safe and secure working environment and offer good working conditions adapted to local conditions.

Workwear with long-lasting durability

We produce long-lasting workwear with responsibility for the environment and people. Long durability means that, over time, the user needs to buy fewer products. Meanwhile we reduce our overall resource consumption because we produce fewer products over the same period of time.

Logistics with care

Our production is based in Vietnam and Laos and in our main warehouse in Denmark. The vast majority of our products are transported between Asia and Europe using modern container ships. We only work with shipping companies that are planning to convert their fleet from diesel engines to liquefied natural gas (LNG).

A black and white photograph of a woman with dark hair, wearing a small flower hair clip, focused on sewing at a machine in a factory setting. Other workers and sewing machines are visible in the background.

“

We invest in people and the environment in our supply chain, and we are highly conscious of the fact that we operate in an industry that has a large impact on the climate, and where we must fundamentally change the way we make our products.

Michael Grosbøl, CEO and owner of MASCOT.

An all-in-one solution

The world's best workwear is more than just the product. At MASCOT, you are guaranteed great customer service, efficient logistics and high delivery reliability.

Time-saving ordering

With MASCOT® SmartStore you avoid spending unnecessary time on clothing orders. The logistics and ordering system makes ordering and order management easy, fast and flawless.

A global solution

Does your company have employees based in multiple countries? MASCOT makes workwear sourcing simpler with one global sourcing solution for your business.

High security of supply

More than 98% of all orders are dispatched from our state-of-the-art, fully automated logistics centre within 24 hours. We also use some of Europe's largest and most reliable freight carriers, ensuring that shipments reach our customers quickly.

Printing and embroidery

No matter which products you choose, adding transfer printing or embroidery could not be easier. MASCOT does it in-house, which helps keep delivery time down.

Individual adjustment

Does your company have special requests or require other individual customisations? MASCOT offers bespoke solutions so you always get the workwear that matches your needs and wishes.
