

MASCOT® WORKWEAR

MASCOT® CUSTOMIZED | Developed in collaboration with tradespeople

EN

ABOUT MASCOT

MASCOT is a Danish-owned family business, and we are proud to be one of the leading manufacturers of workwear. We develop our products in Denmark, while the majority of our 900+ unique styles are produced under safe and secure conditions in our own factories in Vietnam and Laos.

Our uncompromising attitude towards quality means that we aim to develop, produce, market and sell the world's best workwear – which for us is more than just the product itself. Customer service, efficient logistics and high security of supply are also crucial to our customers.

TESTED TO WORK – a slogan and a way of working

A crucial part of the strategy is the testing and control of methods, products and suppliers. That's why for many years we have branded ourselves as TESTED TO WORK – a great-sounding slogan, but also a crucial work strategy.

CONTENTS

With a high content of recycled materials	10

THE WORKWEAR OF THE FUTURE IS NOW HERE

Even LIGHTER, even STRONGER, even more
STRETCH.

MASCOT® CUSTOMIZED workwear is extremely long-lasting and made from an extraordinarily high percentage of recycled materials. With many new colours, it is possible to put together a personal look.

MASCOT® CUSTOMIZED offers unique freedom of movement and new innovative features. Add pockets that match your profession and place them where you want thanks to MASCOT's unique Click Pocket System.

MASCOT® CUSTOMIZED – developed in collaboration with craftsmen!

A POSITIVE FOOTPRINT

At MASCOT, we work to reduce our consumption and our waste – and we do so by considering our entire supply and value chain. This holistic approach allows us to reduce consumption where it is most optimal to do so while holding back in places where taking action may hurt other parts of the value chain. It is not individual efforts that count, but the overall picture.

Suppliers and business partners

We work with all suppliers to reduce the use of chemicals and water in general. We also always select suppliers according to their environmental profile, and the vast majority of our fabrics come from suppliers who have both Bluesign® and ISO 14001 certifications.

Responsible production

We produce the vast majority of our workwear ourselves at our two SA8000-certified factories in Vietnam and Laos. The SA8000 certification is a guarantee to the outside world and our own employees that we have a safe and secure working environment and offer good working conditions adapted to local conditions.

Workwear with long-lasting durability

We produce long-lasting workwear and safety footwear with responsibility for the environment and people. Long durability means that, over time, the user needs to buy fewer products. Meanwhile we reduce our overall resource consumption because we produce fewer products over the same period of time.

Logistics with care

Our production is based in Vietnam and Laos and in our main warehouse in Denmark. The vast majority of our products are transported between Asia and Europe using modern container ships. We only work with shipping companies that are planning to convert their fleet from diesel engines to liquefied natural gas (LNG).

A black and white photograph of a woman with dark hair, wearing a small flower hair clip, focused on sewing a piece of fabric on a sewing machine. The background shows a busy factory environment with other workers and sewing machines.

“

We invest in people and the environment in our supply chain, and we are highly conscious of the fact that we operate in an industry that has a large impact on the climate, and where we must fundamentally change the way we make our products.

Michael Grosbøl, CEO and owner of MASCOT.

WITH A HIGH CONTENT OF RECYCLED MATERIALS

WITHOUT COMPROMISING ON QUALITY

At MASCOT, we want to optimise and reduce our resource consumption, both in our production and in our products. That is why we use recycled resources in our products wherever possible – but always without compromising on quality!

Outer material in recycled polyester

We have several products where the main material contains a high proportion of recycled polyester, including MASCOT's cotton lining which is made from up to 100% recycled polyester. The recycled polyester primarily comes from recycled plastic material such as used plastic bottles that are broken down and recycled again. We also use other used plastic material that is broken down into granules and recycled into a new resource.

At MASCOT, we are working to phase out the recycled plastic in the polyester and replace it with recycled textiles, so that our customers' current workwear can become new material in the workwear of the future.

Products made from residual material from textile production

With MASCOT® CUSTOMIZED, we have come one step closer to our goal as we introduce several products with a high proportion of recycled polyamide, a residual material from textile production that is recycled into a new fabric. For example, you'll find trousers, shorts and 3/4-length trousers in quality 605, where the main material is made from 89% recycled polyamide, and qualities 617 and 607 in tops, where the main material consists of 86% recycled polyamide.

A man with a beard and short hair is shown in profile, looking towards the right. He is wearing a long-sleeved shirt with a plaid pattern in shades of maroon, grey, and white. The shirt has a collar and visible buttons. The background is a blurred green, suggesting an outdoor setting. The text "DEVELOPED IN COLLABORATION WITH CRAFTSMEN!" is overlaid in white, bold, sans-serif capital letters.

CLICK POCKET SYSTEM — AN EASY WAY TO ADD YOUR HOLSTER POCKETS

Put the pockets where you wish with our newly designed Click Pocket System. A simple click system allows you to place the pockets where you need them, and you can even add the specific number of pockets you need for a given work situation.

Developed for your profession

If you are an electrician, painter, or work in a field where you need pockets with large compartments, then we have the solution. The MASCOT® CUSTOMIZED range includes holster pockets specifically designed for your trade or needs.

Electricians

Painters

Tradespeople

CLICK POCKET SYSTEM

BUILD YOUR OWN TOOLBOX

Need more space? Add extra holster pockets

If the job requires extra tools or you're far from your toolbox, you can easily add extra holster pockets – customised to your needs and with the option to place them wherever you want. Choose an extra holster pocket with either large functional pockets or several smaller ones. Or how about one with a magnetic closure? Thanks to our holster pockets with the newly developed Click Pocket System, you'll never be short of space.

A close-up, low-angle shot of a carpenter's hands working on a large, light-colored wooden beam. The beam is part of a larger structure, possibly a roof or a wall, and is supported by a metal frame. The background is slightly blurred, showing more of the construction site and some greenery. The lighting is bright, suggesting it's daytime.

“

The most important thing for me when choosing workwear is comfort. I really like how the clothes fit and that they are breathable and flexible.

The background is a dark, textured surface, possibly a wall or a piece of fabric, with a subtle gradient from dark teal to black. On the right side, there is a vertical strip of ten colored squares in various shades: teal, dark teal, light blue, dark blue, purple, red, orange, white, grey, and dark brown. The text is centered in the middle of the image.

A close-up photograph of a dark, textured fabric, possibly a jacket or tent material, covered in numerous small, glistening water droplets. The droplets are of various sizes and are scattered across the surface, highlighting the fabric's water-repellent properties. The lighting is dramatic, with strong highlights on the droplets and deep shadows in the fabric's folds and texture. The overall color palette is dark, with shades of teal, black, and grey.

**MASCO
WORKWEAR**

WIDE CHOICE OF LOGO OPTIONS

Printing and embroidery

No matter which products you choose, adding transfer printing or embroidery could not be easier. MASCOT does it in-house, which helps keep delivery time down.

An all-in-one solution

The world's best workwear and safety footwear are more than just the products. At MASCOT, you are guaranteed great customer service, efficient logistics and high delivery reliability.

Time-saving ordering

With MASCOT® SmartStore you avoid spending unnecessary time on clothing- and footwear orders. The logistics and ordering system makes ordering and order management easy, fast and flawless.

A global solution

Does your company have employees based in multiple countries? MASCOT makes workwear and safety footwear sourcing simpler with one global sourcing solution for your business.

High security of supply

More than 98% of all orders are dispatched from our state-of-the-art, fully automated logistics centre within 24 hours. We also use some of Europe's largest and most reliable freight carriers, ensuring that shipments reach our customers quickly.

Printing and embroidery

No matter which products you choose, adding transfer printing or embroidery could not be easier. MASCOT does it in-house, which helps keep delivery time down.

Individual adjustment

Does your company have special requests or require other individual customisations? MASCOT offers bespoke solutions so you always get the workwear that matches your needs and wishes.

A man with brown hair, wearing a grey long-sleeved work jacket and grey cargo pants with a tool belt, is kneeling on a grey floor. He is focused on working on an open electrical panel, which shows copper busbars and various electrical components. His right hand is reaching into the panel, while his left hand rests on his knee. The background is a dark, industrial setting. The text "WE OFFER MORE THAN HIGH QUALITY PRODUCTS" is overlaid in white, bold, sans-serif capital letters across the center of the image. The Mascot logo is visible on the man's pants and shoe.
