

MASCOT®

FOOD & CARE

EN

A THOROUGHLY TESTED SOLUTION FOR THE FOOD INDUSTRY

Since 1982, MASCOT has developed high-quality workwear for companies around the world.

Our extensive experience of industry-specific clothing is now combined with years of research in the food and related industries. The result is MASCOT® FOOD & CARE: A range that is packed with innovative and well-fitting clothing, and is designed for easy handling and washing for companies and industrial laundries.

No matter what industry we work with, security of supply, excellent customer service and easy ordering solutions are all part of the package. We want to be TESTED TO WORK in all respects. Being well organised and high quality are in our DNA, and we know that good customer relations are something we must constantly earn.

We look forward to talking to you about your requirements for thoroughly tested clothing solutions.

BEING TESTED TO WORK IS A COMMITMENT

Society expects modern companies to work continuously to become and remain a sustainable business. Companies must balance their environmental social, and financial bottom lines in order to contribute to a more sustainable future for both current and future generations. Here at MASCOT, we take great pride in doing our part, but we also remain humble in our approach towards these goals.

Long-lasting products

MASCOT is your guarantee for long-lasting workwear made with respect for the environment and for people. The longer your clothing lasts, the smaller the climate footprint of each product will be.

Own production facilities in Vietnam and Laos

Here at MASCOT, we sew all our clothes ourselves. We have 3500+ colleagues in Vietnam and Laos, who produce our workwear and winter clothing. Our colleagues work within a European work culture and under secure contract conditions.

SA8000

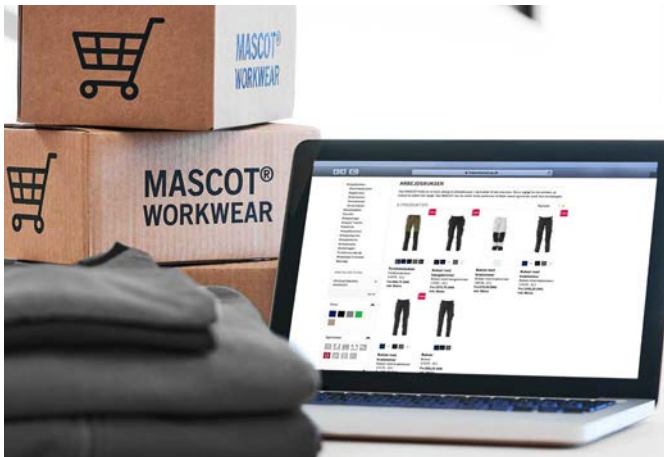

Socially responsible production

Almost 75% of MASCOT products are made in SA8000-certified factories. SA8000 guarantees a safe and secure working environment and good working conditions.

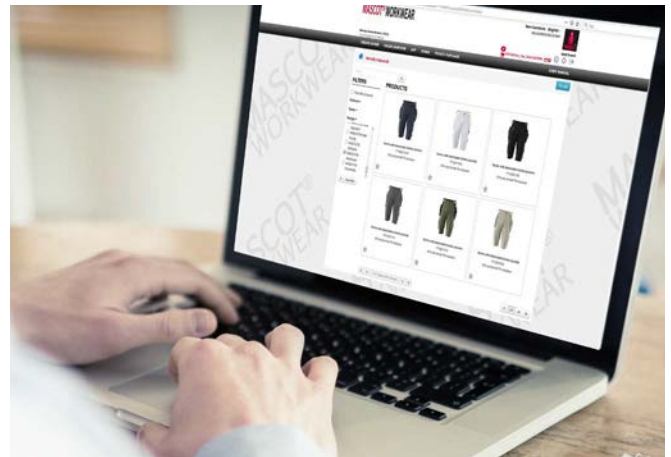

Working for a sustainable future

MASCOT works strategically on the UN's 17 Sustainable Development Goals and places particular focus on goal number 12 – responsible consumption and production.

A supplier with complete solutions

We take care of the entire process: from thoroughly tested product development, to effective and speedy delivery. We provide a thoroughly tested and streamlined purchasing process for many different types of customers, each with their own requirements.

A smart system for workwear orders

The MASCOT® SmartStore is an online logistics and ordering system for fast, simple and problem-free placement and management of orders.

A global workwear solution

Does your company work across several countries? MASCOT can make purchasing workwear simpler via a special procurement solution for your business – available worldwide.

Size chart

Find your MASCOT size. We will help you find the perfect size.

Embroidery

Whichever order solution you choose, adding embroidery to your order is really simple.

Individual product adjustments

Are you a larger company with a need for special orders or other individual adjustments? We offer tailored solutions that provide you with workwear to meet your needs.

ProWash®
EN ISO 15797

Designed for employees:

- Clothing with a unique freedom of movement.
- Clothing that fits perfectly - specially designed fits for both men and women.
- **ULTIMATE STRETCH** provides unique comfort.
- Thoroughly tested design details, such as the soft rib in the sleeves.

MASCOT® FOOD & CARE

This range is designed for employees in the food and related industries, where high hygiene levels are a requirement. All products adhere to the industry's necessary certifications and testing methods.

The products are also designed for washing, handling and use in industrial laundries.

Designed for the buyer/ company:

- Hygiene level guarantee according to HACCP/ DIN10524 principles.
- Multiple options. Various styles can be used by many different types of employees.
- Thoroughly tested, durable products that stay presentable for longer.
- The tops are available with 4 different colour areas integrated into the design.
- Size and length are marked with coloured stitching, which is quick and easy to read.
- 3 standard leg lengths.
- Create a uniform corporate identity across the company.

Designed for laundries:

- Equipped for inserting an HF-chip.
- Tested for industrial washing and drying.
- Stretch fabric products have a short drying time.
- Highly durable products with a long lifespan.

CERTIFIED TESTING METHODS FOR THE FOOD INDUSTRY

The MASCOT® FOOD & CARE range is designed for industries where optimal hygiene is essential. Therefore, all products are tested to withstand industrial washing and subsequent tunnel drying with tests according to the methods in EN ISO 15797. All products live up to the HACCP principles, and the vast majority are approved according to DIN 10524, which includes very specific requirements for design, function and fabric in workwear.

HOHENSTEIN ●

Certificate

HOHENSTEIN TYPE-TEST
TEST-NO. 21.1.3.0095-1, Rev1

HACCP

DIN 10524

ProWash®
EN ISO 15797

CLOTHING THAT COMPLIES WITH THE HACCP PRINCIPLES ARE SPLIT INTO THREE RISK CLASSES:

Low hygiene risk: Risk class 1

Clothing in risk class 1 have a relatively low protective function. The clothing is used for work in environments where there is a minimal risk of coming into contact with foodstuffs, as they are sufficiently protected by their packaging.

High hygiene risk: Risk class 2

Clothing in risk class 2 have a high protective function. The clothing is used when handling perishable food which does not require further processing, as well as food that is not wrapped in packaging.

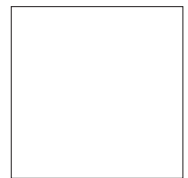

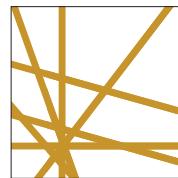

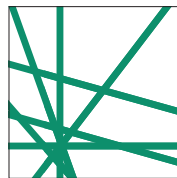

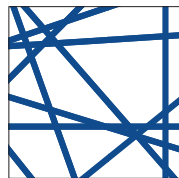

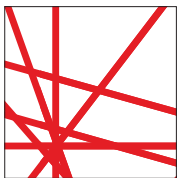

Highest hygiene risk: Risk class 3

Clothing in risk class 3 have a very high protective function. The hygiene risk is at the highest level when handling items like unpackaged, ready-to-eat and perishable foods.

All workwear in the MASCOT® FOOD & CARE range meet the highest hygiene risks in risk classes 1-3.

ZONE

CLASSIFICATION

Many of the products in the MASCOT® FOOD & CARE range can be used in areas where clear zoning is required. The tops have a colour marking on the shoulders that easily indicates which department an employee belongs to. There are four different zoning colours to choose from: red, blue, green, and yellow.

TESTED FOR INDUSTRIAL WASHING

When looking for products that are especially well suited for industrial washing in MASCOT's range, look for the ProWash® symbol. All of the products in MASCOT® FOOD & CARE have been tested to withstand industrial washing in accordance with EN ISO 15797.

You will find a ProLabel on these products which contains wash and care instructions for the industrial laundry.

CLEAR SIZE LABELLING

Keep track of sizes with a unique sizing system. The sizes are marked with a different colour, so that the size is easy to spot when an employee has to find their clothing.

The leg length of the trousers is also marked with symbols: The leg length is indicated by means of one, two or three lines in the waistband on both sides of the trousers.

The size marking only applies to trousers, with the exception of those with a fixed waistband.

A man wearing a white full-body protective suit, hood, and safety glasses is working on a complex metal structure. He is standing on a silver A-frame ladder, reaching up to adjust a blue strap on a vertical pole. The background shows industrial equipment, including a large metal vent or filter unit. The lighting is bright, highlighting the man's suit and the metallic surfaces.

ULTIMATE STRETCH WORKWEAR

Read more on MASCOT's website www.mascotworkwear.com/ultimate-stretch

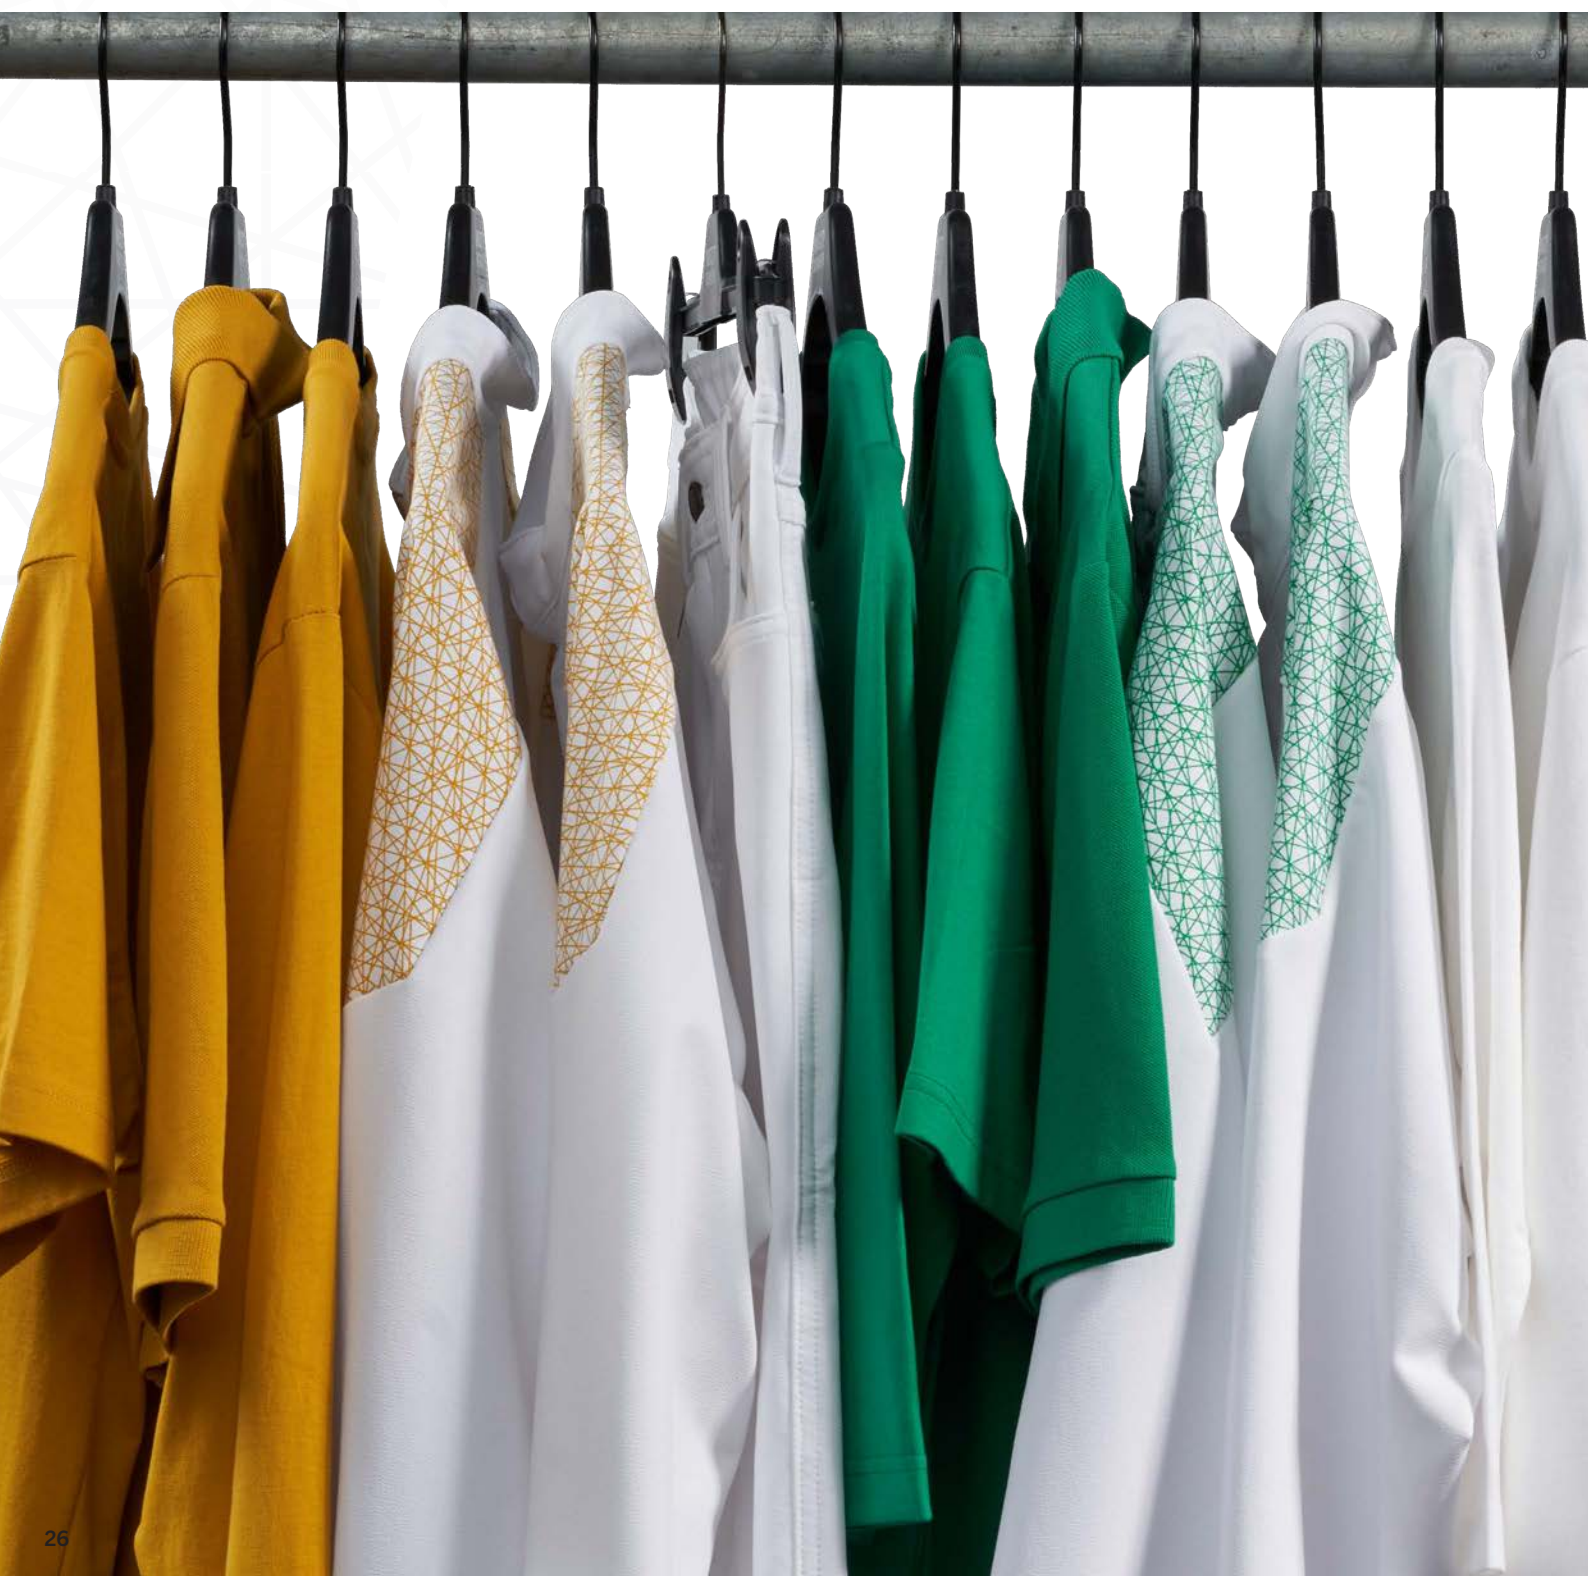

UNIQUE FREEDOM OF MOVEMENT AND HIGH COMFORT

ULTIMATE STRETCH is our term for products that are elastic in all directions. MASCOT's stretch fabric is so flexible that it's barely noticeable on the skin. This contributes to ultimate functionality, freedom and flexibility throughout the working day. The stretch fabric combines light weight with a very high wear resistance.

In the MASCOT® FOOD & CARE range, look for products in fabric 511 when looking for products with ultimate freedom of movement. Fabric 511 has been developed with the market's most advanced elastic fibre, which means that the fabric can withstand industrial washing up to 85 °C and tunnel drying.
