PRODUCT GUIDE 2026/27

WHY CHOOSE SCRUFFS?

Scruffs performance workwear delivers outstanding comfort, durability and value for money combined with great design. Made for tradespeople and skilled professionals, Scruffs products are engineered for use in demanding work environments. Our focus is on ensuring you have everything you need to make selling Scruffs as easy as possible.

ROUND-THE-CLOCK SERVICE

- 24/7 ONLINE ORDERING - See the latest range, stock, prices and delivery options and access product videos and imagery at www.scruffs.com
- EXPERT SALES & SUPPORT - Skilled teams deliver professional support whenever you need it

RIGHT PRODUCT RANGE

- HEAD-TO-TOE OFFER - With proven best sellers
- MADE-TO-WORK PRODUCTS - Always trialled and tested by end users before launch

BRAND & MARKET STRENGTH

- PREFERRED BRAND - The trade's favourite, and most appealing with the under 35s
- AWARD-WINNING MARKETING - Attention-grabbing promotional activity that drives demand
- BEST-IN-CLASS MERCHANDISING - Retail display solutions that drive sales at the point-of-sale

TRUST OUR QUALITY

Scruffs products undergo rigorous testing prior to launch. This includes real life wear trials with tradespeople and skilled workers in their everyday working environments.

Scruffs is also proud to partner with globally renowned technologies including 3M®, Cordura®, Poron® and Micro-Fresh®. You can be confident that Scruffs products meet the performance and quality standards that you and your customers demand.

As part of our ongoing commitment to reducing environmental impact, all new Scruffs products are now made using recycled polyester, and we're close to fully phasing out virgin polyester across our existing range. It's another step in making our workwear tougher on the job and lighter on the planet.

Stock up with the right workwear solutions for your customers to stay warm, dry, comfortable and protected – and make serious sales at good margin with Scruffs. www.scruffs.com

TESTED BY TRADESPEOPLE

Our reputation is hard earned. Credibility comes from 'real life' wear trials run constantly with tradespeople and skilled professionals in their everyday working environments. Their input and feedback is invaluable, and helps guide the design process to ensure superior comfort, fit, function and durability.

TRIED & TESTED

TRUST THE NAME

Scruffs delivers the reassurance of partnering with a highly dependable workwear brand. Trusted because of extensive investment in research and development, Scruffs employs experts who focus purely on workwear to deliver the most suitable materials, the best designs, and functional features that work.

SCRUFFS SUSTAINABILITY

SCRUFFS ECO

Sedex
SEDEX APPROVED

Sustainability – Straight Talk, Real Change

We're not here to tick boxes or jump on bandwagons. We've made changes that count – with the planet and the people who wear our kit in mind.

Cotton that pulls its weight

We started with the Eco Worker range, and most of our kit now uses sustainably sourced cotton – grown with less water, fewer chemicals, and fairer conditions for farmers. Good for the land. Fair for those who grow it.

Recycled materials. Same strength, less impact.

Our apparel uses recycled polyester and nylon – turning plastic waste into durable fabrics, cutting the need for new raw materials, and using less energy than making fabric from scratch.

Gold-rated leather

All our footwear leather comes from top-rated tanneries – using less energy, producing less waste, and reducing environmental impact without compromising toughness.

Tested where it counts

We don't do fast fashion. We make long-lasting kit that stays in the job longer – cutting waste and saving you money.

SAFETY FOOTWEAR

Hard-wearing safety boots and trainers built with quality materials and technologies to ensure maximum comfort and protection all day, every day.

TECHNOLOGIES:

If you regularly work in the cold and damp, then Dri4Work® is the solution. This comfortable, waterproof membrane keeps out moisture, allowing you to get on with the job without the distraction of cold, wet feet.

Poron® cushioning materials are used within Scruffs insoles. The shock-absorbing material ensures an even distribution of pressure through the foot to reduce discomfort, aches and pains.

Micro-Fresh® technology is incorporated into Scruffs footwear to prevent the growth and spread of harmful bacteria. It reduces unpleasant odours whilst being kind to human skin and the environment, and lasts for the lifetime of the product.

FOOTWEAR SAFETY STANDARD

THE FOOTWEAR SAFETY STANDARD IS CHANGING

With the introduction of the new safety footwear standard EN ISO 20345:2022 there are fundamental changes to how safety footwear is categorised.

- Two new safety footwear categories have been introduced S6 & S7
- The slip-resistance test method and markings have been changed
- Non-metallic inserts and insoles have a new test method and markings
- The symbol for water resistant uppers has been updated
- There are now additional, optional claims available for ladder grip and scuff cap resistance
- The slip-resistance claim for fuel oil is now optional

Existing footwear will continue to be covered by EN ISO 20345:2011 until the certificate expires. This standard is still relevant and safe, meeting the basic Health and Safety requirements of the PPE directive (EU) 2016/425 and 2016/425 as amended for GB.

Your footwear certified to EN ISO 20345:2011 is still compliant and safe. Certificates to EN ISO 20345:2011 can be issued up to November 2024, and will have a full 5 year validity date. You will see Scruffs products on the market which meet both versions of the standard until the new standard has been harmonised.

Hydra is a high-performance, mid-ankle boot that is intelligently-designed so it's comfortable and flexible without compromising on the important safety features. Fully waterproof, the Hydra will keep your feet warm, dry and protected all day long.

HYDRA SAFETY BOOTS

TECHNOLOGIES:

Cordura® is a hard wearing fabric made with high strength nylon fibres to provide durable, anti-abrasion protection in high wear areas such as the knees. Three types are used across the Scruffs trouser range:

Cordura® Classic
Military-grade fabric with excellent abrasion and tear resistance.

Cordura® Ballistic
Military body armour-grade dense nylon fabric with excellent tear resistance and abrasion resistance.

Cordura® Naturelle™ (Stretch Fabric)
Superior performance ultra-lightweight, supple fabric with excellent tensile strength and good abrasion and tear resistance.

Abratect™ is an abrasion-resistant fabric used in key areas of Scruffs clothing. It is designed to be durable and long-lasting, providing extra wear resistance in high-impact zones. This tough construction helps extend the life of Scruffs garments, ensuring they last longer and offer excellent value for money.

YKK delivers unrivalled reliability with robust, high-quality zips, which are vital to maximise product life. That's why every single pair of Scruffs trousers is fitted with a YKK zip.

TROUSER RANGE

Trousers are one of the highest value items in a workwear wardrobe. The average trade professional owns six pairs, so it's vital they're fit for purpose. Whether working up high or down low, or in cold, wet or dry conditions, requirements remain the same - the highest levels of comfort, durability, protection and styling.

EXTRA STRETCH-NO SWEAT

FLEXIBLE COMFORT

Our high performance 2 and 4-way stretch fabrics deliver ultimate freedom of movement.

- 2-way stretch is a mechanical fabric that's strong, flexible, moisture wicking, and best suited to working in tougher conditions.
- 4-way stretch is a super flexible, comfortable fabric that's especially suited to working in tight spaces for extended periods.

MOISTURE WICKING

Now comes as standard on Scruffs mechanical stretch fabric trousers, drawing sweat away from the body to keep the wearer cool and dry.

PERFECT SIZING

The Scruffs trouser range offers a choice across the three most popular fits - regular, tapered and slim.

The 'fit' refers to how trousers sit from the waist to the thighs:

- Regular fit trousers sit straight on the hips and thighs.
- Tapered fit trousers sit straight on the hips and thighs and are narrower at the ankle.
- Slim fit trousers sit more tightly and are narrower at the ankle.

It's a personal choice, but usually your customers will know what fit suits them best in terms of all-day comfort, and you'll be ready to make the sale with all three options.

ripstop fabric ensures
long-lasting wear, with
multiple pockets for tools
and essentials.

High-performance jackets and tops with functional fabric technologies at their core for protection, durability and freedom of movement.

JACKETS / TOPS

TECHNOLOGIES:

Abratect™ is an abrasion-resistant fabric used in key areas of Scruffs clothing. It is designed to be durable and long-lasting, providing extra wear resistance in high-impact zones. This tough construction helps extend the life of Scruffs garments, ensuring they last longer and offer excellent value for money.

The lightweight Air Layer Hoodie is made from insulating air-layer fabric and is breathable and moisture-wicking to help regulate body temperature. The high neckline traps warm air and raglan sleeves allow free movement.

Durable fleece hoodie with Abratect™ abrasion-resistant forarm and cuff panels for durability. Two zipped pockets provide secure storage. Complete with a high neck and adjustable hood for extra warmth.

Suitable for all types of work, with iconic Scruffs graphic branding and a large multi-purpose kangaroo pocket for all your storage needs. Warm, sustainably sourced cotton fabric with a hood makes this the ultimate staple for any working wardrobe.

The main thing you need to know about this hooded softshell—it's built tough. With a fleece lining to keep you warm, water-resistant protection from the elements, and plenty of secure pockets for your essentials, it's workwear that gets the job done.

Made from breathable cotton, the Eco Worker T-Shirt features a slim fit for a streamlined look and a longer length to keep you covered while working. A durable addition to any work kit.

HIGH VISIBILITY COLLECTION

**STAND OUT.
STAY SAFE.**

Built for high-risk environments, this high-visibility collection gives tradespeople the safety, comfort, and durability they need to tackle any job. With reliable protection and practical features, it keeps you seen, secure, and working with confidence.

Slim-fitting and designed for ease and freedom of movement, the Women's Trade Bodywarmer retains body heat without the restriction of a long-sleeved jacket.

Featuring a fleece-lined high collar and dipped back hem, the Women's Trade Softshell is designed for comfort as well as style. The water-resistant and breathable fabric is light to wear and protects from the cold and wet for all-day comfort.

ACCESSORIES

TECHNOLOGIES:

3M Thinsulate™ is a super fine microfibre insulation that traps more air in less space to deliver optimal warmth to Scruffs accessories without unnecessary weight or bulk.

Abratect™ is an abrasion-resistant fabric featured on key areas of Scruffs accessories. Durable and long-lasting, Abratect™ provides increased abrasion resistance on high-wear areas. Its tough qualities ensure Scruffs accessories lasts longer, so you can be sure you're getting great value for money.

Free with current deals. Ask your sales / account manager for more details.

POSTERS

Promote hero products and drive sales with in-store posters. Free with Scruffs orders.

Ask your sales / account manager for more details.

BANNERS

Let your customers know you stock Scruffs by creating a signpost with a fully branded Scruffs banner. Free with qualifying Scruffs orders. Ask your sales / account manager for more details.

MEN'S TOPS/JACKETS SIZE GUIDE

MEASUREMENT TIPS

Workwear sizing can vary depending on the cut, fabric, and style of the garment. If you're unsure which size to choose, start by following our measurement tips below. Once you've got your measurements, check our detailed size guide to help you select the right fit for the job.

MEASUREMENT TIPS

Measure around the fullest part of the chest. Place the measuring tape high up under your arms and make sure it's at the same height at the back across your shoulder blades.

MENS TOPS/JACKETS							
Chest Size	XS	S	M	L	XL	XXL	XXXL
Chest (inches)	33-35	36-38	39-41	42-44	45-48	49-52	43-56
Chest (cm)	84-89	91-96	99-104	107-112	114-122	124-135	137-147
EURO	46	48	50	52	54	56	58

MEN'S TROUSERS/SHORTS SIZE GUIDE

WAIST

Measure around your natural waist line, on top of your usual underwear.

INSIDE LEG

Measure from the top of the inside leg at the crotch to the hem.

TROUSERS:

Back length (Tall)	93.5	97.5	100.5	104	107.5	110.5	114

FOOTWEAR SIZE GUIDE

FIT TIPS THAT MAKE A DIFFERENCE

Not all footwear fits the same, even when the size label matches. Use the standard size guide below as a helpful starting point, but expect slight differences between brands. Wearing properly fitted footwear helps prevent most common foot problems.

Feet can change shape over time:

- Measure both feet and fit to the larger one.
- Try footwear on with your usual work socks.
- Always lace up properly for an accurate feel.

To check the fit:

- Your toes shouldn't touch the front of the footwear.
- Untie the laces and slide your forefinger behind your heel.
- A comfortable fit means your finger slips in easily without too much space.

WOMEN'S TOPS/JACKETS SIZE GUIDE

T-SHIRTS AND SWEATSHIRTS/HOODIES

Relaxed fit jersey garment that loosely skims the body but is not too baggy or oversized. These garments finish around the hip area on the body.

JACKETS AND BODY WARMERS

Relaxed fit woven garment that skims the body and allows light layering. These garments finish around the low hip/under bum area.

CHEST

Measure directly under the arms, at the fullest part, all the way around.

TOPS/JACKETS:								
	XXS	XS	S	M	L	XL	XXL	XXXL
UK	6	8	10	12	14	16	18	20

Bust (cm)	77-78	78-81	84-89	91-94	99-102	107-112	117-119	120-122

WOMEN'S TROUSERS SIZE GUIDE

Semi-tailored woven and stretch-woven garment, that sits midrise (just below the navel) and skims the leg with a slightly tapered fit, and finishes full length. They should fit comfortably around the stomach, with about 2 fingers of ease.

WAIST

Measure all the way around the natural waistline – usually the narrowest point.

INSIDE LEG

Measure from the crotch down to the ball on the inside of the ankle.

TROUSERS:								
	XXS	XS	S	M	L	XL	XXL	XXXL
